Abandoned Mine Land Program Topic Review**

Evaluation Year 2015

Background: The primary objective of the Abandoned Mine Land (AML) program is to mitigate the effects of past mining by pursuing the reclamation of abandoned mines, with a primary emphasis on correction of the most serious problems affecting public health, safety, and property. The Office of Surface Mining Reclamation and Enforcement (OSMRE) provides grant funds to the State of Oklahoma for the AML program. The Oklahoma Conservation Commission's Abandoned Mine Land Division (OCC) administers the program for the State of Oklahoma. The OCC AML Program completes emergency and nonemergency coal reclamation projects. The 2015 Evaluation Year (EY) Performance Agreement (PA) was developed in accordance with OSMRE Directive AML-22, Evaluation of State and Tribal Abandoned Mine Land Programs. OSMRE's Tulsa Field Office (TFO) is responsible for monitoring the performance of the Oklahoma AML Reclamation Program.

Project files were reviewed with the assistance of OCC AML staff at its Oklahoma City office May 12 – 15, 2014. Site visits were made with OCC staff on June 30 and July 1, 2015.

OSMRE issued the Authorization to Proceed (ATP) for this project on April 29, 2013.

File Review: The public notice for this project was published in the *Claremore Progress* newspaper on July 12, 2012. Included in the public notice was a description of the proposed project, an invitation for the public to provide suggestions on the need for the proposed project, information on how the proposed project would be carried out, post reclamation use for the area to be reclaimed, and requests for suggestions of other potential AML projects. This project has five landowners. The rights-of-entry were signed by:

- Richard and Judy Bauman – April 23, 2012
- John & Ruth York – September 25, 2013

Site Visit: Tracy Reeder and Greg Kindell accompanied LaChelle Harris on the July 1, 2015, site visit. Gelareh Makhsoosi of TFO was also present. At the time of the site visit, the contractor was working in the area where the track hoe had gotten stuck. Some areas have a very good stand of volunteer grasses and weeds that will have to be tilled under prior to planting the permanent vegetative cover. The project construction is approximately 98 percent complete.

Emergency Projects

Perry Bedford (OK 2014-03-01) – OK-203SEA – OCC received a complaint on June 5, 2014, from Perry Bedford. A vertical airshaft with a concrete cap and concrete sides had an open hole in the west sidewall approximately 18 – 22 inches from the surface creating a subsidence in the ground on both the east and west sides of the shaft. The airshaft measures 10.5 feet by 8.5 feet with 8 inch thick walls and is 212 feet deep. The breach in the side of the wall was 5 feet long and 12 inches tall. The subsidence on the east side of the airshaft measured 36 feet by 20 feet and was 3 feet deep. The subsidence on the west side of the airshaft measured approximately 56 feet by 35 feet and was 4 feet deep. The sinkhole was located at Section 13, Township 12 North, Range 12 East on the Okmulgee, Oklahoma 7.5 minute quad map.

File Review: The rights-of-entry were signed by Odis and Sandra Hurst on June 17, 2014, and by Perry & Effie Bedford on June 27, 2014. OCC contracted with Mark's Construction, LLC on July 3, 2014. The required AVS check was completed on June 24, 2014, and no violations were found in the system. Work began on this project on July 14, 2014, was completed July 22, 2014, at a total cost of \$26,440.00. The cap on the shaft was removed and the eroded material was excavated. Approximately 65 cubic yards of 36 to 40 inch riprap was placed into the bottom of the shaft to serve as a base. Then material excavated from the shaft was replaced in the shaft and the concrete lid was replaced. The west side subsidence was filled with dirt and packed to ground level. The east side subsidence was excavated and mine debris was removed and taken to a landfill. The opening was filled with dirt and packed to ground level.

Site Visit: Henry Roye and Trampas Tripp accompanied LaChelle Harris on the June 30, 2015, site visit. Gelareh Makhosousi of TFO was also present. There was a good vegetative cover over the reclaimed area. However, there had been large amounts of rain in the area which caused some subsidence. Henry stated that after the ground has dried out sufficiently, OCC would repair the subsidence under a maintenance contract.

Figure 6 – Subsidence caused by heavy rains at the Perry Bedford AML emergency.

Keilty AML Emergency (OK 2014-04-02) – OK120EA – OCC received a complaint on July 22, 2014, from Roger Cosper, City Manager for Coalgate, OK. He reported a subsidence near the corner of the house on the Keilty property measuring approximately 8 feet in diameter and 10 feet deep. There were also cracks in the brick wall near the subsidence. There was also subsidence near the foundation of the house on the Loudermilk property measuring approximately six inches in diameter. The location of these subsidences is Section 26, Township 1 North, Range 10 East on the Coalgate, Oklahoma 7.5 minute quad map.

File Review: The rights-of-entry were signed by Robert and Betty Keilty on July 24, 2014, and Floyd and Ricky Loudermilk on July 28, 2014. The subsidence on the Keilty property was excavated and backfilled. The contractor excavated approximately 4.5 feet in the Loudermilk's yard and discovered a void caused by a collapsed railroad culvert. This area was not considered as part of the emergency, but was immediately backfilled.

Site Visit: Henry Royce and Trampas Tripp accompanied LaChelle Harris on the June 20, 2015, site visit. Gelareh Makhsousi of TFO was also present. Due to the heavy rains in the area, there were two small depressions next to the Keilty home measuring approximately 12 inches by 8 inches and was 4 inches deep. After the ground has had time to dry out, the depressions will be refilled with dirt.

Figure 7 – The two small depressions near the home of the Keilty AML Emergency in Coal County, OK.

The building was not secure and there was no way to keep someone from accidentally falling into the shaft. The air shaft measured 24 feet in diameter by 56 feet deep. The shaft was located at Section 1, Township 11 North, Range 12 East on the Henryetta, Oklahoma 7.5 minute quad map.

File Review: The right-of-entry were signed by Gary Jay and Rhonda LaValley on February 20, 2015. OCC contracted with John Likowski Construction Co. on March 20, 2015. The required AVS check was completed on February 27, 2015, with no violations found. Work on the project began on March 21, 2015, and was completed on April 1, 2015, at a total cost of \$1,215.00. The old building was demolished and hauled to a landfill. The shaft was backfilled with concrete rubble, and then filled with dirt to the ground surface. The dirt was mounded to promote drainage away from the area. No vegetation was planted at the site.

Site Visit: Henry Roye and Trampas Tripp accompanied LaChelle Harris on the June 30, 2015, site visit. Gelareh Makhscusi of TFO was also present. The area appeared to be stable with no settling.

Figure 8 – LaValley AML emergency in Okmulgee County, OK. Mounded dirt shows location where old shaft used to be.

Findings and Conclusions

2. Does the State perform the required AVS check on the successful contract bidder prior to awarding the contract?

OCC performed the required AVS checks on the successful contract bidders at the required time.

On-the-ground Reclamation:

1. Do completed projects meet the stated goals of project proposals?

OCC successfully achieved proposed goals on the completed projects included in this review.

Required Actions

- Perry Bedford Emergency: The settled areas will require additional fill material.
- Keilty AML Emergency: The settling near the foundation of the Keilty home will require repair.

DECLARATION OF ABANDONED COAL MINE EMERGENCY

Under the provisions of the Oklahoma Public Competitive Bidding Act (Title 61 - Section 130), Trey Lam, as chief administrative officer for the Oklahoma Conservation Commission, has the authority to declare an emergency.

Whenever the chief administrative officer declares an emergency, he/she shall notify the Oklahoma Conservation Commission and the State Construction Administrator - Office of Management Enterprise Services (Division of Capitol Asset Management - DCA), of such action within 10 days. Such notification shall contain a statement of the reasons for the action, and shall be recorded in the official minutes of the Oklahoma Conservation Commission.

I hereby declare the following emergency:

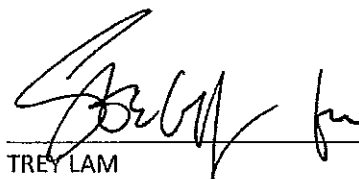

Emergency Number: OK 2015-07-06

Emergency Name: Dewayne Johnson

Reasons for Emergency Declaration:

This project addresses a situation involving the sudden collapse of an abandon coal mine creating a VO. The VO is approximately 6.5 feet in diameter by 2.5 feet deep and has active erosion taking soil deeper underground. Hillside drainage is entering into the VO, thus each rain will likely rapidly expand the mine void. This site is in the yard of a family residence and is 135 feet from the house. There is a high probability of substantial harm to the owners, children, and visitors.

The site is located in the SE of Section 10, Township 5 North, Range 19 East in Latimer County (Wilburton USGS Quadrangle), Oklahoma, at 1610 Pahlon in Wilburton, Oklahoma.

Such notification shall contain a statement of the reasons for the action, and shall be recorded in the official minutes of the Oklahoma Conservation Commission.

I hereby declare the following emergency:

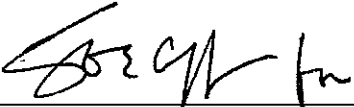

Emergency Number: OK 2015-06-05

Emergency Name: J & C Smith

Reasons for Emergency Declaration:

This project addresses a situation involving the sudden collapse of an abandon coal mine creating a vertical opening (VO). The VO is approximately 4.5 feet in diameter by 3 feet deep and has active erosion taking soil deeper underground. Mine maps indicate that there is an abandon coal mine directly under this site. There is a strong possibility that the next rain will cause it to open into this mine void. This site is in the yard of a family residence with children and is less than 30 feet from the house. There is a high probability of substantial harm to the owners, children, and visitors.

It is located in the NE NW of Section 15, Township 7 North, Range 25 East in LeFlore County (Poteau West USGS Quadrangle) at 101 Pine Ridge Road in Poteau, Oklahoma.

Tribal Outreach Coordinator

Coordinated Partnership with the Oklahoma Tribal Conservation Advisory Council (OTCAC) -

- OPBA has purchased a trailer and will equip it for the Creek Nation Conservation Commission. OPBA leadership has agreed to move this relationship forward. Discussed other partnership opportunities with Ed Mouss, Chairperson. Arrangements are being made for the CNCC to pick up the trailer. I worked with the Creek Co. LPBA who wants to form a partnership with the Creek Nation for prescribed fire.
- I continue working with OTCAC and Carol Crouch, NRCS Tribal Liaison, on implementing the agreement in support of outreach efforts in FY 2015. OTCAC also supports the OCC-NRCS partnership by handling sponsorship for booth displays at many large meetings across OK during the year. OTCAC and OCC appreciate NRCS's commitment to doing outreach to all people in OK.

Oklahoma Prescribed Burn Association (OPBA) -

- OPBA is working to secure an additional field person to help with organizing local prescribed burn associations. This is an identified need to continue the efforts at the local level.
- OPBA recently received a grant from ODWC to continue the work and this assistance is appreciated.
- OPBA continues to work with NRCS to implement a cooperative agreement. NRCS has been very supportive of this effort and their assistance is appreciated.

- OPBA received an additional grant from the Playa Lakes Joint Venture (PLJV) for \$15,000.
- OPBA received notice from the IRS and is considered an "umbrella" organization with the local prescribed burn associations being "affiliates". The purpose for this is to extend the non-profit status to the local groups and to help provide local boards with additional support.
- OPBA, working with the Noble Foundation and The Bramlett Agency, Ardmore, worked out the final details to provide landowners with additional liability coverage, at a reasonable price, for prescribed fire. The brochure has been sent out to offices.
- The OPBA/NRCS FY16 agreement has been completed. OPBA and OCC appreciate NRCS's assistance with prescribed fire in dealing with the number one natural resource issue in OK.

December, 2015

Spring Creek Coalition and Jenks West Intermediate Science Club are "Keep Oklahoma Beautiful" Award Winners!

The Spring Creek Coalition in Mayes and Cherokee CCDs, which has been in a partnership with Blue Thumb for twenty years, won two awards during the "Keep Oklahoma Beautiful" environmental awards program last month. The organization, which has a Blue Thumb monitoring site on Spring Creek, won for small nonprofit group and at the end of the evening was celebrated for being the environmental "Best of the Best!"

The Jenks West Intermediate Science Club took the youth award at the Keep Oklahoma Beautiful awards program last month. The group was nominated for their monitoring of Polecat Creek, plus their efforts to remove litter and educate their peers, teachers, and parents about stream and river protection.

Blue Thumb and Watershed Education

The Oklahoma Blue Thumb water quality education program took their goal of "stream protection through education" to a new level in the Crow Creek watershed (Tulsa County) and Pennington Creek watershed (Johnston County) this past year.

Blue Thumb supported committed volunteers as they pushed forward to form watershed coalitions. Through these coalitions they worked to educate and motivate those who live, work, play and go to school in these watersheds to protect their streams.

It's always a beautiful day at CROW CREEK

1. Neighborhood parties, earth day events, and seasonal festivals have made it easy to reach Crow Creek residents! 2. Media and local organizations, like "Tulsa NOW!" have helped volunteers reach a wide audience. 3. Cooperation with the City of Tulsa is allowing a flood-prone lot to turn into a demonstration area for stormwater retention and water quality improvement practices.

Crow Creek has been a Tulsa Blue Thumb monitoring site for nearly 20 years. Volunteers, old and new, are moving forward with exciting activities to bring a diversity of fish back to Crow Creek! The Crow Creek Community is the name of this effort to pull together watershed residents for the good of the stream.

Friends of Pennington Creek

It has been a busy year for the Friends of Pennington Creek! Our goal is to inform citizens in the watershed about the high quality of Pennington Creek and how to protect it through outreach and education. Some highlights from this year have been the creek cleanup event, participation in the Chickasaw Nation Festival, a book donation to the Johnston County Library, and participation in a kids camp.
