Chair

December 2014 Summary of Oklahoma's 2015/2016 319 workplans:

The mission of the NPS Program is to conserve and improve water resources through assessment, planning, education, and implementation. The 319 workplans are designed to support that process. Each year, we have three primary workplans (OSE also has a 319 workplan, which funds their program and typically runs approx. \$58,497 federal \$38,998 match (we provide) for a total of \$97,495.). Oklahoma submits 2 years worth of workplans at a time to help insure that we can draw money as soon as it is available.

At this point, all numbers for both years are theoretical because EPA doesn't know how much money will be in the program. For each year, we estimate receiving \$2,345,503 in 319 dollars through OSE which we will match with \$1,602,667 state dollars for a total of \$3,948,170.

These workplans have been drafted to meet the goals of the NPS Management Program, but also the requirements of the 319 program. One new goal reflected in the workplan is that at least half of the funding goes towards support of implementation in watersheds with EPA approved watershed based plan. This is reflected in the workplan budget tables as Project dollars. Program dollars are those that support the base program activities, including drafting watershed based plans.

These workplans are:

- 1) **Technical Support:** Funds the administration and core staffing of the program including reporting, data management, program admin, coordination with other agencies and programs, drafting workplans, etc. Also includes monies for conservation practice implementation. This would include leveraged dollars to support RCPP and/or other partnerships with USDA NRCS (approx. \$365,000 federal). The state matching dollars include locally-led cost-share, match from OERB,
 - a. FY 15: \$1,415,323 federal, \$952,667 state, \$2,367,990 total.
 - b. FY 16: \$1,415,323 federal, \$952,667 state, \$2,367,990 total
- 2) **Monitoring:** funds the monitoring program including priority watersheds, rotating basin, and any monitoring we would do in support of RCPP or other NRCS partnerships. This monitoring covers the final set of basins for the third cycle of the program. When this is completed, we will have 15 years worth of data for streams through the rotating basin program. The new basins for this workplan are in the SE, in the Lower Red River Basin. In FY 16, we start over again with the NE with the Grand/Neosho basin.
 - a. FY 15: \$546,310 federal, \$500,000 state, \$1,046,310 total
 - b. FY 16: \$546,310 federal, \$500,000 state, \$1,046,310 total
- 3) **Blue Thumb:** Funds our volunteer monitoring and water quality education program, as well as reporting for that program. State matching funds come from volunteer hours including conservation district time devoted to support of Blue Thumb.
 - a. FY 15: \$383,970 federal, \$150,000 state, \$533,870 total.
 - b. FY 16: \$383,970 federal, \$150,000 state, \$533,870 total.

The Nation formed a tribal conservation district and has worked on the mutual agreement with USDA to support "Nation to Nation" relationships. Mr. Ed Mouss, Chairman of the Muscogee Nation Conservation Commission, worked with Gary O'Neill, STC, and me on scheduling the date for the signing ceremony recognizing the Muscogee Nation and USDA working relationship. Mr. Mouss participated in the USDA-Tribal consultation meeting at the CPN on September 4. Dale Jenkins, Hughes Co. CD was also instrumental in this effort.
- I continue working with OTCAC and Carol Crouch, NRCS Tribal Liaison, on implementing the agreement in support of outreach efforts in FY 2015. OTCAC also supports the OCC-NRCS partnership by handling sponsorships for booth displays at many large meetings across OK during the year. OTCAC and OCC appreciate NRCS's commitment to doing outreach to all people in OK.
