Human Rights Commission into the Office of the Attorney General – Human rights protection is an important function part of the state’s Constitutional police powers. Through consolidation the state will realize substantial administrative savings while elevating the stature of the Human Rights Commission’s goals.

Merit Protection Commission into Office of Personnel Management – This merger combines two entities with similar functions while leaving the mission of the commission unchanged. Savings will be realized from a reduction of administrative support personnel and a reduction in office space.

Scenic Rivers Commission (SRC) into the Conservation Commission - The SCR would be transferred in whole to the Conservation Commission and become a division of the Conservation Commission. Merging the SRC not only saves the state money, but also provides the opportunity to increase federal matching funds. The Conservation Commission participates in several federal matching programs and believes any additional funds that come with the SRC could be used to leverage state dollars for a federal match, some of which can be 4-1 or 6-1 match rates. Any federal dollars gained through the programs would enhance water quality programs.

Oklahoma Center for the Advancement of Science and Technology into the Department of Commerce – This proposal merges entities whose functions are related to promoting economic development for a more unified mission while achieving cost savings from sharing administrative support and overhead. Associated boards and committees would remain intact.

Alcoholic Beverage Laws Enforcement Commission (ABLE) into Tax Commission and Oklahoma Board of Narcotics and Dangerous Drug (OBND) – This proposal would move ABLE’s the licensing functions into the Tax Commission and the investigating duties into the Bureau of Narcotics and Dangerous Drugs.

Department of Environmental Quality and the Mining Commission into a new entity called the Department of Natural Resources - Currently, the agencies share a similar mission to conserve Oklahoma’s natural resources. While the Department of Mines is also charged with protecting the safety of miners and enforcing mining and reclamation laws, safety education and training is provided by the Oklahoma Miner Training Institute and will remain intact. Consolidating their duties will not affect this mission; however, consolidation will result in savings from a reduction in administrative overhead and it will streamline industry services. Boards and commissions that advise and provide oversight to either entity will remain intact and continue to function. The Department of Mines was created by the state constitution, but the constitution only requires that it exist and be able to perform its duties; it does not require it to be a stand-alone entity.

Consolidation of the Oklahoma State and Education Employees Group Insurance Board (OSEEGIB) and the Oklahoma State Employee Benefits Council (EBC) – The Governor’s Budget recommends the creation of the Oklahoma Health and Wellness Board. The newly created Board is required to create and oversee two divisions for procuring, administering and managing the state health benefit plans, including a health maintenance organization (HMO). The divisions are the HealthChoice Health Insurance Division and the Employee Benefits Division. The Oklahoma Health and Wellness Board is required to remit annually to the General Revenue Fund fifteen percent of the combined administrative costs of the Oklahoma Health and Wellness Board for FY-2012. This amount is estimated to be \$3.7 million a year. Additionally, the Governor is proposing a change in state employees’ flexible benefits allowance calculation. Beginning in 2012, state employees’ benefit allowance shall never be less than provided in the 2011 plan year; and for future plan years state employees’ benefit allowance shall be benchmarked at the amount equal to the monthly premium of the basic preferred

DRAFT RESOLUTION

OF

The National Association of Abandoned Mine Land Programs

WHEREAS, Title IV of the Surface Mining Control and Reclamation Act of 1977 (SMCRA) established the Abandoned Mine Land (AML) reclamation program; and

WHEREAS, the National Association of Abandoned Mine Land Programs (NAAML) was established as a non-profit corporation to accomplish the objectives of its thirty member tribes and states to eliminate health and safety hazards and reclaim land and water resources adversely affected by past mining and left in an abandoned or inadequately restored condition; and

WHEREAS, NAAML members administer AML programs funded and overseen by the Office of Surface Mining Reclamation and Enforcement (OSM) within the U. S. Department of the Interior; and

WHEREAS, pursuant to the cooperative federalism approach contained in SMCRA, all tribes and states who are members of NAAML have federally approved abandoned mine reclamation plans; and

WHEREAS, SMCRA, Title IV establishes a reclamation fee on each ton of coal mined in the United States to pay for abandoned mine land reclamation; and

WHEREAS, SMCRA, Title IV mandates that fifty percent (50%) of the reclamation fees collected annually are designated as state share funds to be returned to the states and tribes from which coal was mined to pay for reclamation projects pursuant to programs administered by the states and tribes; and

WHEREAS, SMCRA, Title IV also mandates that a minimum level of funding should be provided to ensure effective state program implementation; and

WHEREAS, Congress enacted amendments to SMCRA in 2006 to address, among other things, continued collection of AML fees and funding for state and tribal programs to address existing and future AML reclamation; and

WHEREAS, the 2006 Amendments established new, strict criteria that ensure states and tribes expend funds on high priority AML sites; and

WHEREAS, the proposed 2012 budget for the Office of Surface Mining Reclamation and Enforcement within the U.S. Department of the Interior would abandon the 50/50 state-federal partnership established under SMCRA and renege on the funding formula under the 2006 Amendments by, among other things, eliminating mandatory funding for states and tribes who have certified the completion of their coal reclamation work and adjusting the mechanism by which non-certified states receive their mandatory funding through a competitive bidding process; and

WHEREAS, if statutory changes are approved by Congress as suggested by the proposed FY 2012 budget for OSMRE, reclamation of abandoned mine lands within certified states and tribes would halt; reclamation of abandoned mine lands in all states would be jeopardized; employment of contractors, suppliers, technicians and others currently engaged in the reclamation of abandoned mine lands would be endangered; the cleanup of polluted lands and waters across the United States would be threatened by failing to fund reclamation of abandoned mine lands in some states; minimum program state funding would be usurped; the AML water supply replacement program would be terminated, leaving coalfield citizens without potable water; and the intent of Congress as contained in the 2006 Amendments to SMCRA would be undermined

NOW THEREFORE:

BE IT RESOVLED BY THE NATIONAL ASSOCIATION OF ABANDONED MINE LAND PROGRAMS THAT ITS MEMBER TRIBES AND STATES:

Oppose the legislative proposal terminating funding for certified states and tribes and altering the receipt of mandatory AML funding for non-certified states contained in the FY 2012 budget proposal for the Office of Surface Mining Reclamation and Enforcement and instead support the AML funding mechanism contained in current law.

**OKLAHOMA CONSERVATION COMMISSION
ABANDONED MINE LAND DIVISION MONTHLY SUMMARY**

Mike Kastl, AML Program Director

March 1, 2011

FY 2009 AML SIMPLIFIED GRANT (\$1,850,042) - The following is the status report on the submitted projects:

1. Farley - 085 (Sequoyah County)

As of February 18, 2011, the contractor, Talon/LPE, of Tulsa, has completed approximately 99 percent of the work in 99 percent of the contract time. The completion date is February 11, 2011, which corresponds to a contract time of 207 calendar days. Some additional time to complete fine grading of the site is necessary because of the poor weather.

2. Bronson - 071 (Rogers County)

All reclamation work has been completed and the site has been planted. The project will be monitored as per AML Program guidelines.

FY 2010 AML SIMPLIFIED GRANT (\$2,623,207) - The following is the status report on the submitted projects:

1. Shouse - 251 (Rogers County)

The contractor, Thomas Construction Inc, completed all work at the site. The site will be seeded in the spring and monitored per AML Program guidelines. The landowner has stated that they are very pleased with the project.

2. Azbill - 246 (Rogers County)

DCS Construction and Properties Division issued the contract to Thomas Construction, Inc., on December 27, 2010. Construction began on January 4, 2011. The first contract working day was January 7. Approximately half of the site has been cleared. Work has been slow due to the extreme cold weather and snow. The contract duration is 150 calendar days. The last contract day is June 6, 2011.

3. Reves Phase 2 - 101/102 (Sequoyah County)

The Notice to Proceed was issued to the low bidder, Goad & Sons Construction LLC, on January 6. Work began on January 7, 2011. As of February 18, the contractor has completed nearly 100 percent of the clearing and grubbing of the 80-acre site. The contract time is 400 calendar days with the completion date of February 20, 2012.

4. Peevyhouse - 140 (Haskell County)

On November 24 the Conservation Commission submitted this project to the Office of Surface Mining for funding under this grant. The Office of Surface Mining has requested that an Environmental Assessment be prepared to address some apparent wetlands on the site. The Environmental Assessment was submitted on January 25. The Office of Surface Mining has requested additional information to the EA. The additional environmental process will delay the start of construction until late summer.

5. Bates/Fullerton - 259 (Rogers County)

The Office of Surface Mining has previously provided an Authorization to Proceed. The landowner has requested the project limits to be flagged prior to signing the right-of-entry to complete the work. A contract for clearing and grubbing the site is proposed to be released in order to complete the work prior to the April 1 Migratory Bird deadline. The site reclamation work will be bid when the site is being cleared.

FUTURE PROJECTS

1. McSpadden – 026 (Rogers County)

A partial end fill of this pit occurred near a 90-degree roadway curve in 1985. The highwall is as close as 6 feet to the roadway and is actively undercutting and getting closer to the roadway edge. This site needs to be passed through reclamation committee, site surveyed and environmental clearances obtained. The construction start is anticipated in late summer of 2011.

2. Northeastern State University - 166/180 (Wagoner County)

Aerial Data Service of Tulsa submitted the low bid of \$19,630 for aerial survey. A contract for services has been executed. It is anticipated that the aerial survey will be completed by the end of March. Meetings with University staff, environmental documentation and design will occur in 2011. It is anticipated that this project will be bid in late 2011.

3. Reves Phase 2 North - 101/102 (Sequoyah County).

This 20-acre project site is on the north side of the road, opposite the 80-acre Reves Phase 2 project site. It was designed with Reves Phase 2 and was separated prior to bidding. It is anticipated that this project will be bid just prior to the completion of the Reves Phase 2 project. The estimated cost of this project is \$200,000.

4. Reves Phase 3 - 101/102 (Sequoyah County).

This project site is approximately 80 acres and is on the easterly side of Phase 2 and was designed at the same time as Phase 2. The estimated cost of this project is approximately \$850,000 and should be completed in late 2012/early 2013.
