Water Quality Program: Shanon Phillips reported that there was a report provided in the packet. She thanked Bryan Painter and the Blue Thumb staff for the Sharkless Photo Series on Facebook. These posts have reached approximately 9,774 people or an average of 682 people per post. Shanon added that Oklahoma has documented four new success stories that meet the EPA and OK criteria to recognize a waterbody with improvement due to the Nonpoint Source Program. The four for this year are Finn Creek in Garvin/McClain counties for dissolved oxygen, Rainy Mountain Creek in Kiowa County for turbidity, Mineral Bayou in Bryan County for turbidity, and Bird Creek in Seminole and Hughes counties for pH, ammonia, and total dissolved solids. Doga (Osage Co.) and Deer (Grant/Kay co.) have been updated for E.coli delisting as well. OCC is in the process of uploading these stories to the EPA website and EPA has indicated their appreciation for the addition this year. This brings the OK total to 88 success stories and 128 pollutant/waterbody pairs delisted, which remains the highest numbers in the nation.

Office of Geographic Information and Technical Services: Mike Sharp, Director, stated a written report is in the packet. He noted that this has been a relatively routine month.

Abandoned Mine Land Reclamation Program: Robert Toole, Abandoned Mine Lands (AML) Reclamation Program Director, stated that a written report was in the Commissioners' packets and he would answer questions on any information in the report. Mr. Toole stated that in the interest of time he would highlight two items not in the written report: (1) Dr. Mike Sharp, Assistant Director, AML Program, has been recognized by the National Association of Abandoned Mine Land Reclamation Programs (NAAMLPR) as the first recipient of the newly created "Enhancing SMCRA Implementation Through Technology" Award (ESITT). This award recognizes an individual or team that used technology to enhance the implementation of any aspect of the Surface Mine Control and Reclamation Act (SMCRA) to achieve excellence. Mike was recognized for his 25 years of teaching Technical Innovation and Professional Services (TIPS) courses. TIPS is the highly technical branch of courses offered by the Office of Surface Mining Reclamation and Enforcement such as Computer Aided Design (CAD) and ArcGIS. Mike has not only taught the courses but was instrumental in identifying the needs and developing the curriculum for several courses. Mike is considered one of the premier TIPS instructors in the nation.

The second highlight is the delisting of the American Burying Beetle (ABB) from endangered to threatened. AML will no longer have to perform ABB surveys and this will significantly enhance the timing of projects for construction to the point that projects can be started four months earlier.

Conservation Programs: Tammy Sawatzky, Director reported on the following items:

- Program year 20 cost share ended on 9/30/20.
- Allocated \$250,000 additional funds for PY22 including 65 districts.

COMMUNICATIONS OVERVIEW

The use of videos on the OCC YouTube Channel appears to be going very well.

There were 23 options for Conservation Districts going into October. By Oct. 16, the top 10 videos each had 105 or more views. The Introduction Video led the way with 366 views.

The top 10 at that time were as follows:

1. Introduction Video, 366 views
2. Mulching cedars, 169
3. Soil Health Infiltration, 160
4. Prescribed Burn Association, 141
5. AML, 139
6. Great State or What?!, 130
7. Rotating Basin, 127
8. Claim Submission Video, 110
9. AFR Stress, 106
10. Callison Ranch, 105

Communications Director Bryan Painter has written a release about this video project that will be sent to newspapers around Thanksgiving and is scheduled for the December issue of Oklahoma Farm & Ranch magazine. Mari'a Simpson is the District Secretary for the Cotton County Conservation District in southern Oklahoma. In mid-October, she said that in recent months, her District had been holding board meetings via teleconference. She refers to the videos as “a blessing.”

Here's a quote from the article: “With the wide variety of training videos available, we chose to start at the beginning and started with the Introduction video; to know exactly what OCC expected of us and what options were available to the district for continued education,” Simpson said. “The videos have been a blessing. Sometimes life on the farm makes it difficult for all five of the directors to take a whole day off to attend Area Meetings. With the videos, all the directors can watch the videos at their convenience and discuss them at the next board meeting. The next video we watched was on Feral Hogs. Cotton County is one of four counties participating in the Red River Pilot Program in southwest Oklahoma. Directors and staff have watched several additional videos from the Commission's YouTube page. The videos are very useful, and information can be used in daily activities.”

Communications has also been assisting in Blue Thumb's calendar project. Producers will be featured in the 2021 calendar. As a supplement to that, Candice Miller shot videos of each producer and Bryan Painter wrote features of each producer. Those features assigned, have been completed, and those producers are: Suzanne Landess, Dean Schneider, Dr. Katie Blunk, Grant Victor, Elia Woods and Pat Hoerth, Katie Williams, Phil Campbell, Kit and Josh Dinwiddie, and Greg Scott.

Also, OCC has the opportunity to provide a monthly article for Oklahoma Farm and Ranch magazine. The magazine is distributed in hard copy throughout Oklahoma and online. From the list below you will see not only OCC, but its partners – NRCS and OACD -- are highlighted several times as well. Following is a look at the articles from 2020.
