Consideration of emergency grazing allowance for riparian total exclusion contracts in Priority Watershed Projects.

The extended drought and heat wave have decimated pastureland and reduced hay crops. In addition, ponds and shallow wells are drying up. Numerous cooperators enrolled in total exclusion riparian area contracts have asked whether we allow emergency grazing similar to CRP. Several have stated that they will be forced to abandon their agreements if we cannot.

We propose to offer emergency grazing to total exclusion 319 cooperators during periods of extreme or exceptional drought with the following guidelines:

- Emergency grazing is only allowed after a site visit by project coordinator confirms that existing grazing land forage has been almost completely eliminated or alternative water sources are exhausted.
- The initial period of emergency grazing of riparian areas will be between July 1 and September 30. If extreme or exceptional conditions persist, an additional 31 day window will be allowed if requested by the cooperator through the end of October.
- Contracts will be paid at the full total exclusion rate for months of the year when cattle were not present in the riparian zone, and then reduced for the 3, possibly 4 months cattle had access to the riparian zone to the equivalent monthly rate for limited grazing.
- Neither limited or emergency grazing nor stream access for emergency water supply is allowed associated with CREP contracts. If a CREP enrolled cooperator also has 319 enrolled wooded acres, access to wooded acres would be allowed as long as both CREP acres AND stream access were prevented through fencing. Temporary, electric fencing would be allowed to separate the areas.
- This emergency allowance will be considered on an annual basis, as opposed to once every three years. As with USDA Conservation Reserve Program grazing, during extreme or exceptional drought conditions, as recognized by the Oklahoma Climatological Survey, a district board could make the decision to offer emergency grazing following the above guidelines.

Oklahoma Conservation Commission
Mr. Mike Thralls, Executive Director
2800 N. Lincoln Blvd. Room 160
Oklahoma City, OK 73105

Dear Mr. Thralls:

The Harper County Conservation District has been without a full-time employee since last September. We have tried unsuccessfully to hire a part-time employee without benefits during this time. Therefore, we have not used the \$12,000 that was available nor have we spent the total allocation expenditures of a full-time employee for almost a year.

At the May regular business meeting, we voted to send in a request/proposal to the Commission in hopes that we could work out finding a way to fund this much needed full-time position. We would like for OCC to consider entering into a joint agreement with us to fund a full-time position with benefits. Our proposal is as follows:

- *Harper County Conservation District would be responsible for the entire health benefit package for the employee and family.*
- *OCC would be responsible for the \$11.50/hr wage for 12 months and all other payroll benefits including taxes, retirement & longevity.*
- *This agreement would be guaranteed by both parties until FY 2016 unless the State receives adequate funds to support the position in full.*

We would appreciate you taking action on this as soon as possible. If you have any questions, please feel free to contact us.

Harper County Conservation District
C. R. "Chuck" Smith, Chairman

Chuck Smith, Chair
Harper County Conservation District
#2 Miles Addition, Box 353
Buffalo, OK 73834

Dear Mr. Smith:

Thank you for your letter regarding your proposal for a full-time position for your conservation district.

As you probably know the Oklahoma legislature has completed their work on the Fiscal Year 2012 budget. The Commission will be taking an addition 2.9% reduction in their general appropriation budget. This coupled with a reduction in the NRCS contributions agreement and an increase in the employer's share of retirement will result in approximately \$400,000 of additional cuts to the Commission and Districts budgets for the coming year.

The current budget and economic forecasts for future state appropriations dictate that we be extremely conservative in our allocations to conservation districts; therefore we are unable to provide funding for a full-time employee in your district. We are anticipating that the \$12,000 allocation for part-time employment will remain in effect for next fiscal year beginning July 1, 2011.

The District determines the hourly rate for this position and may choose to add to the hourly rate from locally earned funds. Under current policy, the individual selected for this position cannot work more than 999 hours in a 12-month period. If the board is interested in making this a full-time position; the remaining costs (benefits and salary) would have to come from local funds. The costs of insurance benefits can range from \$600 to \$1600 per month depending on the number of family members insured. Other costs to the district include employer's share of retirement, Social Security and Medicare. Please contact us if you are interested in using local funds to make this a full time position.

The Commission appreciates the hard work and dedication of the Harper County Conservation District. Should you have any questions or need additional information, please contact Lisa Knauf Owen or myself at the Commission office.

Sincerely,

MIKE THRALLS
Executive Director

The Office of Surface Mining has previously provided an Authorization to Proceed. The landowner has signed the right-of-entry agreement. The engineering design is being revised by Cobb Engineering (Oklahoma City) to include wildlife and other recreation features requested by one of the landowners. By August 2 the OCC must have received the final design, reviewed them, and made comments to Cobb Engineering. Cobb Engineering will deliver the completed design to the OCC by August 9. The landowner has requested no work to start until after hunting season. Start of construction is anticipated in early January of 2012.

FUTURE PROJECTS

1. McSpadden – 026 (Rogers County)

A partial end fill of this pit occurred in 1985 near a 90-degree roadway curve. This project is approximately 17 acres. The highwall is as close as six feet to the roadway and is actively undercutting and getting closer to the roadway edge. This site needs to be passed through reclamation committee, site surveyed, and environmental clearances obtained.

2. Northeastern State University - 166/180 (Wagoner County)

The conceptual plan has been prepared and reviewed with NE State University on July 21. The conceptual plans will be submitted with the environmental assessment (EA) to the appropriate agencies for review. The preliminary design is due in the OCC office on August 31.

3. Reves Phase 2 North - 101/102 (Sequoyah County).

This 20-acre project site is on the north side of the road, opposite the 80-acre Reves Phase 2 South project site. The project information will be sent to the Reclamation Committee agencies for their review and comment. It is anticipated that this project will be bid in the fall of 2011. The estimated cost of this project is \$200,000.

4. Reves Phase 3 - 101/102 (Sequoyah County).

This project site is approximately 65 acres and is adjacent to the east side of Phase 2 South. The estimated cost of this project is approximately \$850,000.

5. Bacon - 252 (Rogers County)

This project site is approximately 45 acres located adjacent to HWY 28, one mile south of the Nowata County line. The design (in-house) should be completed by mid August. OSM Alton is preparing the environmental documentation for permit approval and requested that a ABB study be prepared. Eagle Environmental Consulting, Inc., is conducting the survey for the American Burying Beetle (*Nicrophorus americanus*). It is anticipated that this project will cost approximately \$700,000 and will be bid in the winter of 2012.
