Pictures of the repairs - top right is the Illinois River Ranch after the Dec. 2015 100 year flood; below is after the repairs were completed. The picture just below is of Felt's Park in Tahlequah after repairs; flooding had caused the stream to move back against the bank and caused major erosion. The bottom middle picture is of History Trail; less damage was done to the site, but the lower bench washed out and has now been replaced with rock to ensure more stability.

Top — Students at the Oklahoma School of Innovation and Experiential Learning (OSIEL) get ready to perform their quarterly quality assurance session.

The OSIEL students below look for benthic macroinvertebrates, remove them from the sample and keep track of how many they have found. The bugs will then be sent to a taxonomist for identification.

Kim Shaw keeps a close eye on her volunteer a.k.a. Mom as she picks through her bugs.

Right—Students at Edmond North High school search for the elusive mayfly.

Left—Jeri works with volunteer Destiny to help her figure out which things in that tray are bugs.
