

2022 Litter Transfer Program

Shanon Phillips, Conservation District Training
January 25 & 27, 2022

Valuable Industry in an Ecologically Vulnerable Setting

- Poultry Industry in Oklahoma
 - Jobs - 29,860
 - Wages - \$1,543,325,800
 - Economic Impact - \$7,739,687,100
- Water Resources in Oklahoma
 - All scenic rivers are in the project area
 - Water resource-related tourism
 - Brings billions of dollars to eastern Oklahoma
 - Many of the streams in eastern Oklahoma have nutrient-related water quality impairments

Program Specifications

- Payment 1: Payments to Grower to supplement bedding replacement costs
 - \$2/ton to grower to incentivize litter sale outside of nutrient limited watersheds
- Payment 2: Payments to Buyer
 - Less than 100 miles transport
 - \$0.08/mile/ton litter moved
 - 100 miles or greater transport
 - \$0.05/mile/ton litter moved

Program Specifications- continued

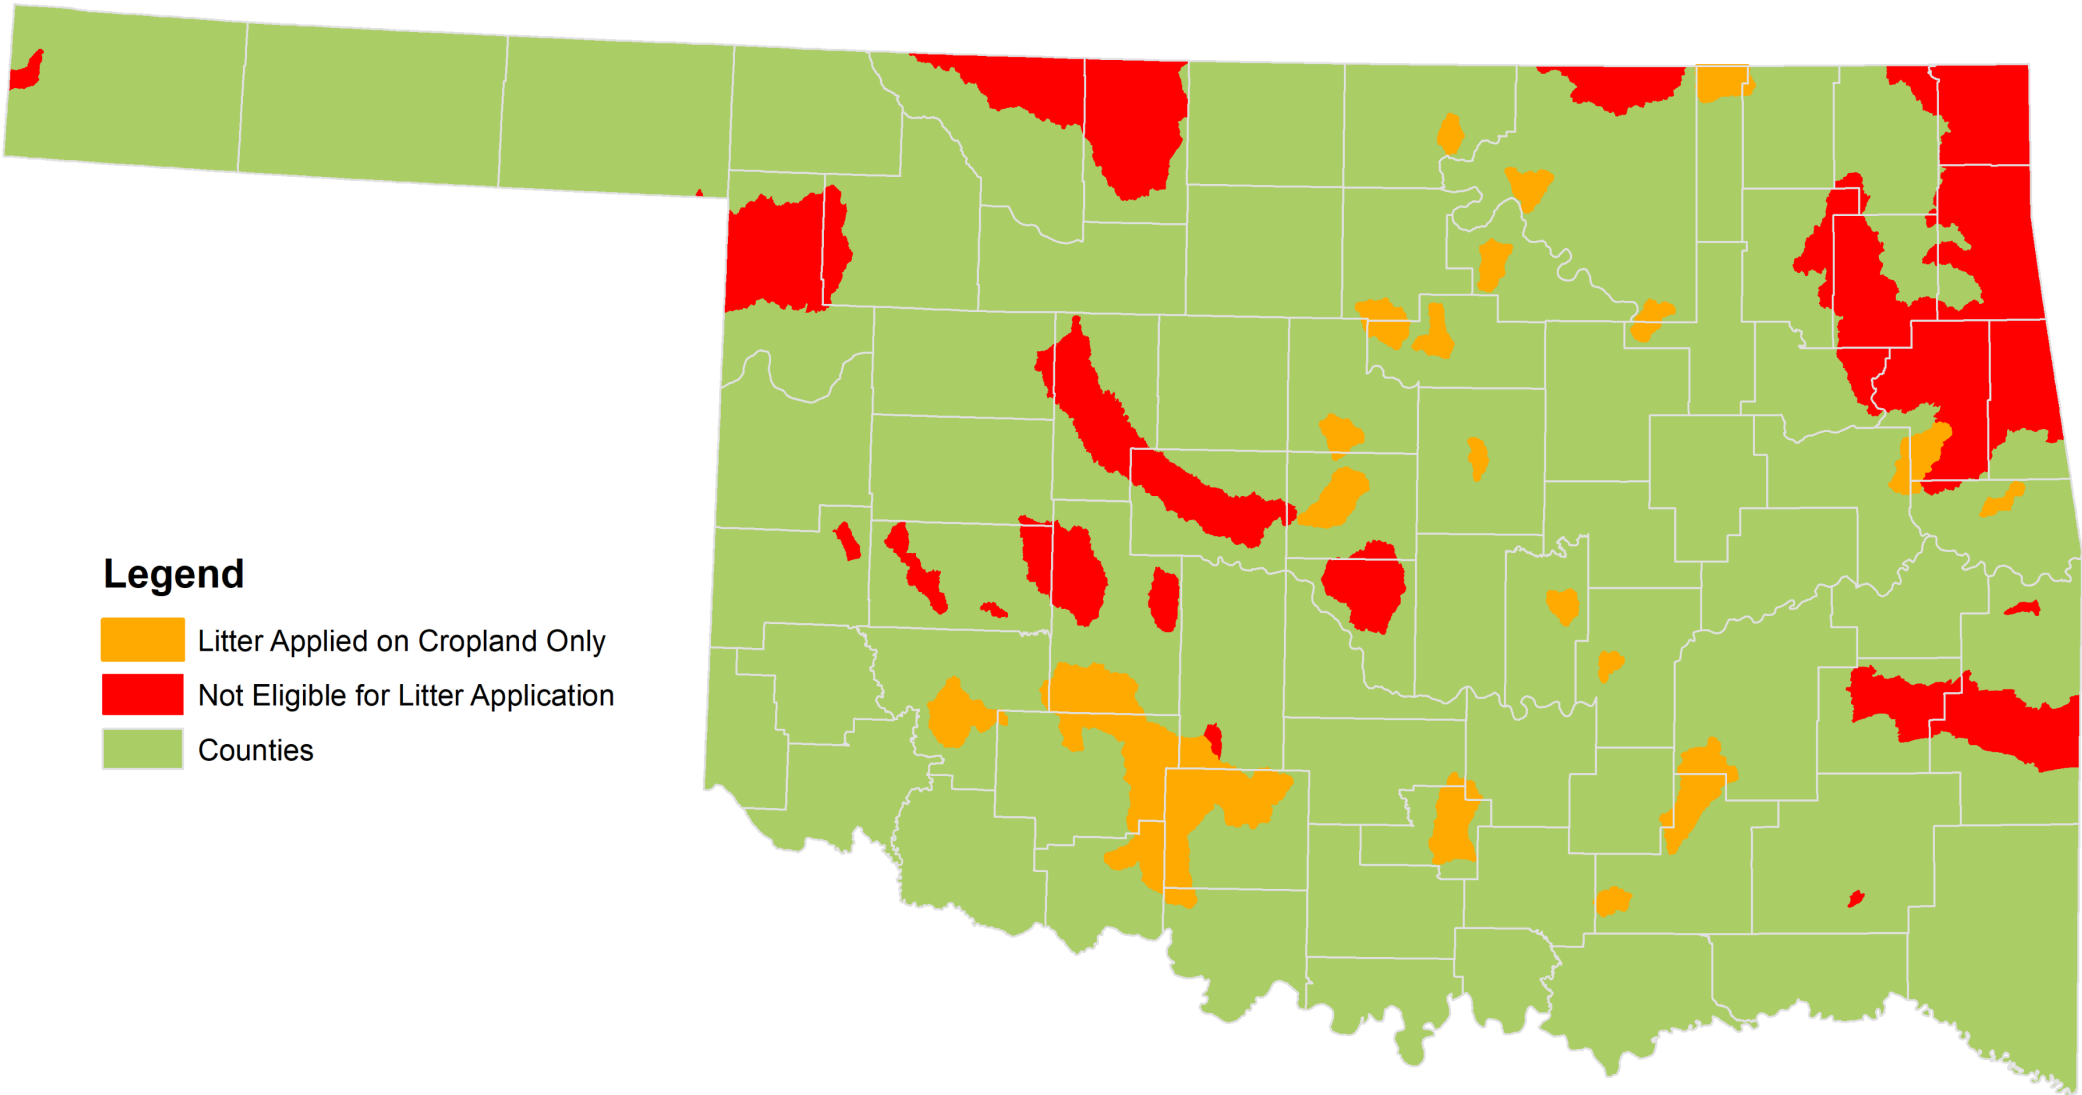

- Payment 3: Payments to Conservation Districts
 - \$1/ton moved in districts of grower and buyer to support documentation tracking
- Other limitations:
 - Only litter from Oklahoma poultry farms is eligible for sale to Oklahoma buyers
 - Buyer must comply with Oklahoma rules related to soil testing and 590 compliance
 - Not to exceed \$12.50/ton
 - 250 mile maximum travel from origin
 - \$10,000 maximum per farm for buyer

Eligibility for Litter Application Subsidy

Legend

-  Litter Applied on Cropland Only
-  Not Eligible for Litter Application
-  Counties

Are District Directors/Employees Eligible for the Program?

- Program follows the same rules as the State Cost-Share Program
- Board should vote to (or not) participate
- Up to 2 board members can participate (but then can't vote on anything related to the program) (spouses are not separately eligible).
- Board should fill out District Participation Conservation Cost-Share Form and Submit to Maryanne- Specify Litter Transfer Program as Cost-share Program Year.
- If cooperator (buyer or grower) lives in a district that has voted not to participate, then a participating district can vote to support them in their program.

Steps for Districts to Assist Cooperators Buying Litter

1. Board Votes to Participate in Program:
2. Provide potential buyer with these specifics:
 - Litter must come from OK and be applied in OK
 - Eligibility Depends on Location of Application Sites (according to maps)
 - Litter must be applied by certified applicator according to OK state rules, based on current litter and soil tests
 - Buyer is eligible for reimbursement of \$0.08/ton/mile if under 100 miles traveled and \$0.05/ton/mile if over 100 miles traveled. \$10,000 cap per buyer.
 - Give buyer a copy of Poultry Waste Application in Oklahoma Summary
 - If buyer is uncertain about where to find litter and/or applicators, send them to OSU Litter Market Website
 - Buyer is responsible for finding a source of eligible litter and an applicator
 - Provide buyer with a copy of Poultry Litter Transfer Documentation Form so they can get signatures /license numbers of their applicator.
3. When buyer has located a source of litter, estimate, using google maps, distance traveled and get amount of litter desired by buyer and call/email Maryanne Dantzler-Kyer to **reserve litter (405-522-4732 or Maryanne.dantzlerkyer@conservation.ok.gov**

POULTRY WASTE APPLICATION IN OKLAHOMA

A Brief Summary of a Portion of the Requirements Pertaining to the Land Application of Poultry Waste

- A Poultry Waste Applicator Certificate is required.
- Soil samples, poultry waste samples, and laboratory analyses of each for soil pH and plant available nutrients including at least nitrogen, phosphorus, and potassium, plus poultry waste nutrient concentrations and moisture. Required every three years in non-nutrient limited watersheds. NOTE: By law, the person furnishing the poultry waste is required to give a poultry waste laboratory analyses report to the buyer.
- Stored poultry waste shall be isolated from outside surface drainage by ditches, dikes, berms, terraces, or other structures.
- Poultry waste shall not be stored without adequate protection from rainfall and runoff.
- Records shall be maintained of all poultry waste applied on lands and an annual report is required to be submitted to ODAFF.
- Poultry waste land application must occur at agronomic rates and shall not be made at any rate which exceeds the most current USDA-NRCS Waste Utilization Standards.
- Poultry waste cannot be land applied when the ground is saturated, frozen, snow covered, or during rainfall events.
- Edge of field, grassed strips shall separate water courses from runoff.
- All certified poultry waste applicators are required to obtain the official Oklahoma Cooperative Extension Service poultry education (9 hours within the first year and 2 hours each year until 19 hours is reached and graduation is achieved). Upon receiving the (19) required hours, the applicator shall then be required to receive two hours of continuing education every three years. Refer to www.poultrywaste.okstate.edu for dates and more information.

PLEASE NOTE: These are only a portion of the poultry statutes and rules for poultry waste application. If you have questions and/or would like to obtain a copy of the complete set of regulations, please phone the Oklahoma Department of Agriculture, Food, and Forestry, Agricultural Environmental Management Services Division at (405) 522-5998 or go to the website, www.ag.ok.gov/divisions/agricultural-environmental-management/.

Poultry Litter Transfer Documentation

Conservation District _____ County _____

Applicant Name _____ Phone(s) # _____

Applicant Mailing Address: Street _____

Town _____ State _____ Zip _____

Legal Description of Application Area _____

Requirement: Nutrient Management Plan for Application area on file at CD office or applied for (where required)

Signature of CD representative attesting to above: _____

Date of Plan _____ Date of Application if no Plan Exists _____

Soil Test P of Application Area _____ (lb P/acre (Attach photocopy of soil test from application area taken within last 3 years)

Applicator's Name _____ License # _____

Applicant Certification _____ Date _____
(applicant's signature)

Seller Information

Seller's Name _____ Date Sold _____

Tons of Litter (attach copy of weight tickets, including tare weights). _____ Tons

Litter Production Location (Section, Range & Township, OR lat/long OR street address of the origin of the litter and the county and state where it was produced)

_____ County _____ State _____

Type of Litter (circle one) broiler layer pullet turkey unknown

Recent litter analysis from facility supplying this litter N _____ P _____ K _____

Conservation District Certification

Haul Distance From Litter Producer to Application Area: _____ Miles (attach copy of trucker's invoice showing mileage hauled)

Certified by: _____ Date: _____

By signature above, Conservation District personnel certifies that the information contained on this form is correct to the best of his/her knowledge.

Steps for Districts to Assist Cooperators Buying Litter- continued

3. After Litter is Applied, Help Buyer complete form:
 - Need Litter applicator's signature and license number
 - Need seller location (location of houses where litter originated from, not growers home address)
 - Can include litter test results (preferred) or litter applicator can provide the nutrient data
 - Must include truck weight tickets
 - If NMP is required, provide copy or most current and if out of date, a request to get an update
 - Provide google map of transfer route showing miles (may have to modify route if scales are not directly on route)
4. CD where litter is applied submits claim with Poultry Litter Transfer Documentation Form and accompanying paperwork for buyer reimbursement and sends copy of form to CD where litter originates from
5. **CD where litter originates from submits claim for grower reimbursement (along with documentation)**
 - (if grower doesn't want to participate, it is not required for the buyer to be reimbursed for purchase; however, grower can't be reimbursed for litter sales without transfer documentation form)

How Does the Buyer Find Litter/Licensed Applicator?

- <https://extension.okstate.edu/programs/poultry-waste-management/media/oklahoma-litter-market-november-2021.pdf>

What is litter worth?

The actual value to the end-buyer depends on the nutrient needs of the field. Additionally, the cost of loading, transportation and application will affect the end buyer's total cost and should be considered when comparing the cost and benefits of litter vs. commercial fertilizer.

While keeping those facts in mind, the **nutrient value** of litter is commonly estimated based on current commercial fertilizer prices (reported as price/lb nutrient) and the litter nutrient analysis (reported as lbs/ton). For example, if calculating the N, P and K value of litter, we know that on average broiler litter contains 63, 61 and 50 lbs/ton of N, P₂O₅ and K₂O, respectively.

Using Spring 2021 average prices for commercial N, P₂O₅ and K₂O and assuming long-term availability of 70% for N and 100% for P and K, we can calculate the potential major nutrient value of the litter.

Litter N: \$0.554/lb x 62 lbs/ton
X 70% availability = \$24.06/ton
Litter P: \$0.696/lb x 64 lbs/ton = \$44.52/ton
Litter K: \$0.342/lb x 53 lbs/ton = \$18.11/ton
Limiting Value = \$2/ton

Total Potential Nutrient Value: \$88.69/ton

The Oklahoma Extension Service does not endorse any specific service provider listed. Producers should be diligent when selecting an applicator to ensure that both the land owner and applicator are compliant with all rules and regulations.

*****An applicator must have a current poultry waste applicator's license certification with ODAFF*****

If you would like to be listed, please contact Rachel Allen at rachel.allen@okstate.edu or 918-686-7800. The most current list can be found at extension.okstate.edu/poultrywaste.

Who Needs a Nutrient Management Plan?

- Nutrient Management Plans are Required by State Law for Poultry Growers
- IF a grower buys litter and seeks reimbursement through the program, they must show their nutrient management plan (and if outdated, their request for an update)
- Some EQIP cooperators require a Comprehensive Nutrient Management Plan- provided by NRCS
- No-one else in the program requires a Nutrient Management Plan, just that litter is applied according to NRCS 590 Practice standard guidelines based on litter and soil testing

How to You Become a Certified/Licensed Litter Applicator?

- Training from OSU Extension: <https://extension.okstate.edu/programs/poultry-waste-management-education.html>
 - 9 hours initial training
 - 2 hours annual continuing Ed until 19 hours reached, after than, 2 hours every 3 years
- License from OK Department of Agriculture Food and Forestry (\$15/yr)
- Continuing Education
- Report Litter Application Annually
- Litter Application Following NRCS 590 Standard

Use Google Maps to Verify Distance Between Sites

The screenshot shows a Google Maps interface with a route calculated between two points. The starting point is at coordinates 35.498938, -97.501710, and the destination is Colcord, Oklahoma. The route is highlighted in blue and passes through Broken Arrow and Sapulpa. The distance is 179 miles, and the estimated travel time is 2 hours 40 minutes. The map also shows other nearby locations like Blackwell, Ponca City, Bartlesville, and Vinita. The interface includes a search bar, a sidebar with navigation options, and a bottom status bar.

Google Maps interface showing a route from coordinates 35.498938, -97.501710 to Colcord, Oklahoma. The route is 179 miles and takes 2 hr 40 min. The map shows the route passing through Broken Arrow and Sapulpa.

Search bar: 35.498938, -97.501710

Destination: Colcord, Oklahoma

Route options:

- via I-44 E and US-412 E: 2 hr 40 min, 179 miles. Fastest route, the usual traffic. This route has tolls.
- via I-44 E: 2 hr 58 min, 195 miles.

Map details: The route is shown on a satellite map. Key locations along the route include Blackwell, Ponca City, Bartlesville, Vinita, Broken Arrow, Sapulpa, and Colcord. The map also shows the OSAGE RESERVATION, MUSCOGEE (GREEK) NATION, and CHEROKEE NATION.

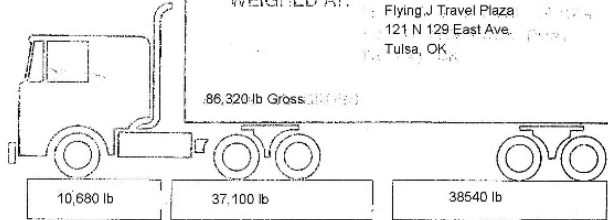

What if you can't get google maps to pull up your address? Drop a Pin

- Open google maps in your browser. "Fly" into the area where the litter application field is and drop a pin (click on it with your mouse). A popup will show the latitude and longitude. Write this down or double click on the lat/long to further zoom in and the lat./long. will appear in a pop up on the left side of your screen. You can select the text and hold down control button and c at the same time to copy. Back out of this pull down menu by hitting the x button with your mouse.
- You may need to zoom out, but repeat the pin drop at the location of the grower's poultry houses to get a lat. /long. for that point as well.
- Double click on that lat/long and the popup appears on the left with the second lat/long identified (in this case, the growers). Hit the directions button below and a new popup appears with your location above and a name google assigns your second
- If you select the Your location bubble and then hold down the control button and hit the v, it will paste the first lat./long. (application field, although it will give a general address) and calculate route and distances for you.

THE CAT SCALE GUARANTEE

The CAT Scale Company guarantees that our scales will give an accurate weight. What makes us different from other scale companies is that we back up our guarantee with cash.

"WEIGHT WHAT WE SAY OR WE PAY"

If you get an overweight fine from the state AFTER one of our CAT Scales showed a legal weight, we will immediately check our scale and we will:

- (1) Reimburse you for the cost of the overweight fine if our scale is wrong, **OR**
- (2) A representative of CAT Scale Company will appear in court **WITH** the driver as an expert witness if we believe our scale was correct.

IF YOU SHOULD GET AN OVERWEIGHT FINE, YOU SHOULD DO THE FOLLOWING TO GET THE PROBLEM RESOLVED:

- 1) Post bond and request a court date.
- 2) Call CAT Scale Company direct 24 hours a day at 1-877-CAT-SCALE (Toll Free).
- 3) **IMMEDIATELY** send a copy of the citation, CAT Scale Ticket, your name, company, address, and phone number to CAT Scale Company Attn: Operations Manager.

Caveat: This is a New Program

- OCC hasn't had a litter transfer program since 2008/2009
- Rates for this program were modeled after similar programs ongoing in other parts of the country as well as based on conversations with growers and applicators currently working in the industry.
- Not Designed to Fully Reimburse Buyers for the cost of litter; hoping to primarily make it more accessible to buyers and move it further from where it has traditionally been applied.
- Rules presented are what we've anticipated as necessary; may change or be added to as we learn more.

Other Issues Related to Poultry Litter

- We know that there is a backlog for growers to get NMPs developed and/or updated
 - We have a working group of folks from poultry growers association, integrators, OK Dept. of Ag., and others working to come up with a long-term, reasonable, effective solution for this.
- We know that districts are interested in gaining access to litter spreaders
 - We don't currently have funding for this, but are exploring

This Week:

- Shanon will resend out amended program guidelines (37 page .pdf).
- Clancy will post presentation on Teams Chat
- Shanon will send out 1 page flyer that districts can share with producers about program
- Shanon will send out example press release that districts can share with news outlets about the program
