CONSERVATION PARTNERSHIP REPORTS

Oklahoma Department of Agriculture, Food and Forestry: Jan Lee Rowlett, Deputy Commissioner. Ms. Rowlett introduced a new ODAFF employee, Ms. Audrey Ausher is the new Public Communications Specialist. She stated that it has been a busy month with several activities

going on. The Market Development team held a reading day “Read an Accurate Ag book” all over the state, this included participation from the Lt. Governor. Three hundred classrooms across the state participated in this event. She noted that Dr. Hall attended a conference in Minnesota this month on Swine health improvement in the US. Ms. Lee reported that the Oklahoma State Fair was fast approaching, and the Made in Oklahoma store would be open again this year. ODAFF also held a two-day “Ag Her Culture conference” for young college and high school females around the state. She addressed questions related to the Emergency Drought Declaration and if we would see that coming out of the Governor’s Office soon.

USDA-Natural Resources Conservation Service: Trey Lam for Brandon Bishop, Acting State Conservationist. Mr. Lam stated that Mr. Bishop was not able to attend due to another engagement but sent in a report for the Commission. Mr. Bishop will be the acting State Conservationist until September 26, 2022, at which time Amanda Mathis, the Assistant State Conservationist, for Arkansas will take over the position for 120 days. The applications for the permanent position have been closed and the selection process has begun. Mr. Lam reports that NRCS has made nine hires in the past month, all in nine different teams. NRCS has also had four exits from the agency.

Oklahoma Association of Conservation Districts: Trey Lam for Sarah Blaney, OACD Executive Director. Mr. lam reports that Ms. Blaney could not make the meeting but sent in a report. Ms. Blaney has been appointed to and attended the Equity in Agriculture Committee Meeting for the 2023 Farm Bill and the National Rural Coalition in Washington DC. She and Jean Margrett Lam took four CARE Champions to the SAVE Farm in Manhattan, Kansas. SAVE is a Veteran owned farm that teaches military veterans different farming and business skills. Both Ms. Blaney and Ms. Lam attended the Nation-to-Nation meeting. During the NRCS Chief’s visit, he was able to attend a reception with the CARE Champions in Boley. OACD also participated in the rededication event for Upper-Elk 23D with Congressman Lucas. Ms. Blaney thanked the Commission for being able to make the visit happen. Mr. Lam adds that Ms. Blaney and two CARE champions traveled to Maryland to make a presentation to other state association of conservation district executive directors on the CARES program, and others are now interested in adopting it. He also adds that Ms. Lam and four OACD Board members were able to attend the NACD South Central Meeting in Baton Rouge, LA. Joe Caughlin has been asked to serve on a committee to review South Central board selection for NACD. Finally, he reports that there will be five field days in September in addition to the Leadership Class Session 3 in Sulphur.

STATUS REPORTS

OKLAHOMA CONSERVATION COMMISSION MEMBERS

Mr. Priess – Explained his absence from the NACD South Central Meeting but is thankful that others from Oklahoma were able to attend.

Mr. Forst – They received 6 inches of rain in their county and then 15 inches soon after. It was much needed after the drought during the summer.

Mr. Crawley – Expressed how happy he was that so many Oklahomans were able to make it to the NACD South Central meeting and what an excellent meeting it was. It is still pretty dry in his region, but they have had a little bit of rain.

Mr. Herriman – He stated that it is “Drier than Slapout, Oklahoma” in Nowata right now. He attended a CARES field day in Wagoner County. There were around 40 people there.

Mr. Herald- They have had some peaceful fall-like days with some rain.

OKLAHOMA CONSERVATION COMMISSION STAFF

Executive Director: Trey Lam. Mr. Lam reports that it has been a busy month for the Commission. He states that there was a great meeting with Congressman Cole in Garvin County. They were able to show him one of the corrugated metal pipe repairs and tower replacements on a watershed dam. One of his staffers was able to stay and learn more about the soil health and yard by yard programs. The Commission was able to host the Chief of NRCS at the Upper Elk 23D rededication with Congressman Lucas. He thanked the Conservation Programs Staff for their work on the event. Lam state that the Chief was also able to go see some of the eastern red cedar issues the state has and how important some programs are in their mitigation. Mr. Lam went on to talk about the new and upcoming hires at the agency and the budget request for next year. He also discussed the feral hog tour at the NACD South Central meeting. The LSU research station has developed an effective poison and the next step is FDA approval. Finally, he states that Nation to Nation was a great success, and the Choctaw Nation conservation district was approved.

Water Quality Program: Shanon Phillips, OCC Water Quality Division Director: Ms. Phillips stated that there was a report in the packet, and she would be happy to answer any questions. She reports that the Water Quality Division has officially passed two years of auditing for their EPA 319 program and she especially thanks Maryanne Dantzler-Kyer and Ed Crall for all their hard work. Water Quality Division is currently working with the poultry industry and GRDA on nutrient management planning in a timely fashion. The division is hoping to make an offer for the grants manager position in the next week. Finally, she adds that since summer is winding down, the field season is wrapping up and staff are now transitioning to the office for off season duties.

Office of Geographic Information and Technical Services: Mike Sharp, Director: Dr. Sharp state that there was a report in the packet, and he would be happy to answer any questions. Dr. Sharp highlights the new lidar data that will become available as it will replace what has been collected in the state over the past 10 years; 25,000 square miles will be covered with this new data. He expressed how important lidar data is for watershed analysis and safety measures.

Abandoned Mine Lands Reclamation: Trampas Tripp, AML Director: Mr. Tripp stated that there was a report in the packet, and he would be happy to answer any questions. He speaks about the first unpaved roads training held in Chandler this month. He estimated there were around 70 people in attendance. They are completing the vegetation on some of the other AML projects and continuing work of the divisions non-coal inventory. Mr. Tripp also discussed the extent of the unpaved roads project and when it could become statewide.

District Services: Clancy Green, Director: Ms. Green only wished to add to the written report that there would be a District Teams training this month over district allocations. She announced that Kendall Brookins in now the APO for the District Services Division. Rhonda Bowman was able to attend the NACD South Central meeting and has continued to assist

Wagoner, Muskogee, and Creek Conservation Districts as they are still searching for district administrators. There have been three new employees hired in Comanche, Creek and Garvin Conservation Districts, and there are still vacancies in Adair, East Canadian, Little River, Major, Muskogee and Wagoner Conservation Districts. She adds that there has been a random district annual report from Craig County added to their packet. This is a new idea for the district services report that they will receive at random every month.

Conservation Programs: Tammy Sawatzky, Director: Ms. Sawatzky stated that there was a report in the packet, and she would be happy to answer any questions. She begins by thanking the North Fork of Red River and Upper Washita County Conservation Districts for their role in the Upper Elk 23D Rededication event. She also thanks Bryan Painter for taking care of the media. The conservation programs division will be hosting the leadership class this month in Sulphur, OK and talking about the Watershed and Cost-Share programs. She reports that the watershed team was in Okmulgee County last week and will be in Rogers County this week working on all six of their dams. In the coming months, the team will be working on 20 video pipe inspections for potential NRCS projects. The contract for the new dam, Fouche Maline 7 in coming together and bid packets will be sent out soon. The estimate for this rehabilitation project is approximately \$14-\$15 million dollars. She also stated that the goal is to have the PY 25 cost-share guidelines ready in October.

Assistant Director: Lisa Knauf Owen. Trey reports that Lisa has been very busy with the implementation of the new Workday system.

**STATE GUIDELINES
FOR THE
EMERGENCY DROUGHT COST-SHARE PROGRAM**

PROGRAM YEAR EMERGENCY DROUGHT – 2
(PY ED-2)

Program Year Begins: October 3, 2022
Program Year Ends: December 2, 2023

Allocation Period Begins: October 3, 2022
Allocation Period Ends: December 2, 2022

Oklahoma Conservation Commission
in cooperation with
Oklahoma's 84 Conservation Districts

Funded by the Emergency Drought Commission on September 30, 2022
Approved by the Conservation Commission on October 3, 2022

PURPOSE

Governor Kevin Stitt Declared the Following:

Due to the current, and persistent, emergency drought conditions in all 77 Counties of Oklahoma, I hereby invoke the provisions of Oklahoma law regarding the use of the Emergency Drought Relief Fund.

Executive Order 2022-23 appears on [pages 10-11](#).

The Oklahoma Conservation Commission (Commission) herein establishes the complete list and description of the Emergency Drought Cost-Share Program policies and practices approved for use by all 84 of Oklahoma's Conservation Districts. Cost-share average costs (unit cost) are based on Oklahoma Natural Resources Conservation Service (NRCS) data and local conservation district data.

Any exceptions from these established Emergency Drought Cost-Share Program policies and guidelines shall be approved by the Commission.

ALLOCATION OF FUNDS

Emergency Drought Cost-Share Program

The Emergency Drought Commission (Drought Commission) allocates [\\$3,000,000](#) from the Emergency Drought Relief Fund to the Commission for the purposes of providing cost-share payments to eligible participants for implementing approved cost-share emergency drought practices.

Conservation District Allocation

The Commission allocates [\\$2,541,900](#) of emergency drought funds to conservation districts. The amount of funds allocated to each conservation district can be found on [page 7](#). Each county will be allocated [\\$33,000](#). Allocations for conservation districts not on county boundaries will be based on the percentage of county acres that fall within the conservation district boundary.

These funds will become available to conservation districts on October 3, 2022. The Commission will hold [\\$458,100](#) in reserve and make it available to conservation districts who demonstrate the greatest need. Requests for an additional allocation must be submitted to the Commission no later than December 5, 2022. Your district will be notified no later than December 12, 2022, if your request for an additional allocation is approved.

POLICIES

Program Year

Program Year ED-2 begins on October 3, 2022 and ends on December 2, 2023. All Performance and Maintenance Agreements must be completed, and cost-share payments disbursed by December 2, 2023. The Commission will not process claims received after December 2, 2023.

Allocation Period

The allocation period shall start October 3, 2022, and end December 2, 2022. Funds allocated to conservation districts and not obligated by December 2, 2022 will be withdrawn and made available for reallocation by the Commission. Funds become obligated to a participant after approval of the application by the conservation district board and a Performance and Maintenance Agreement has been signed and dated by the board and the participant.

Eligibility Requirements

Applicants must be a district cooperator with a conservation plan.

Applicants must be experiencing drought conditions.

Applicants must agree to maintain the conservation practice for the expected life specified by the conservation district.

Applicants that lease the land must submit a landowner consent form with their application. The landowner must agree to continue maintenance of the conservation practice for the expected life specified by the conservation district if the land lease agreement is canceled.

Conservation Commissioners, Conservation Commission staff, conservation district employees or the spouses of any of these people shall not be eligible to participate in the Emergency Drought Cost-Share Program.

Conservation district directors are eligible to participate in the Emergency Drought Cost-Share Program. Due to the limited amount of funds available for Program Year ED-2 individual directors should consider public perception when making their decision to participate in the Program. If the conservation district board decides that members can apply and members choose to apply for Program Year ED-2 the guidelines below must be followed.

1. Individual conservation district board members applying cannot discuss any element of the Emergency Drought Cost-Share Program including but not limited to practices, rates, average costs, selection criteria, application approval/disapprovals, cost-share payments, and extensions.
2. Individual conservation district board members applying for the Emergency Drought Cost Share Program must abstain from voting on all elements of the Program.
3. Individual conservation district board members cannot use their position as a board member to improve or elevate their individual chances of becoming successful applicant.

Authorized District Representative(s)

The conservation district board must designate at least one authorized district representative. This person can sign all forms. The authorized district representative must be a conservation district board member. It cannot be a district employee.

Authorized Technical Representative(s)

The conservation district board must designate at least one NRCS technical representative and at least one district technical representative. Conservation district directors and

employee can serve as the district technical representative. District directors participating in the program cannot serve as the district technical representative.

The NRCS designated technical representative will:

- develop conservation plans,
- design and layout practices,
- certify installed practices meet NRCS approved standards and specifications.

The district technical representative will:

- certify drought conditions exist on the applicant's property,
- certify applicant's eligibility,
- certify installed practices meet Commission approved standards and specifications.

The technical representatives will be required to sign the Certification of Completion and Acceptance form.

Eligible Conservation Practices

512 Pasture and Hay Planting (excludes Bermuda grass)
533 Pumping Plant
614 Watering Facility
PC Pond Cleanout
PT Pasture Tap

516 Pipeline
561 Heavy Use Protection Area
642 Water Well
340 Cover Crop

Each district board may select any of the eligible conservation practices for inclusion in the district's local guidelines. Conservation practices shall be implemented according to applicable NRCS, Commission or rural water district standards and specifications.

Average Cost

State average cost (unit cost) for eligible conservation practices is based on Oklahoma NRCS data and local conservation district data. These costs are located on **pages 8-9** of this document.

Maximum Cost-Share Payment

The Commission sets the maximum cost-share payment amount per participant at \$10,000. The conservation district board cannot change the maximum cost-share payment.

Maximum Cost-Share Rate

The maximum cost-share rate for all conservation practices is 90%. Each conservation district board may choose to establish a cost-share rate less than 90%.

Application Process

Conservation districts should announce the availability of funds throughout the district. Potential applicants must return completed applications to the district prior to the end of the district's application period. Applicants that lease the land must submit a landowner consent form with their application. Each applicant is limited to one application. Multiple practices can be applied for on one application.

Conservation district technical representatives must complete a Certification of Drought Condition and Applicant Eligibility form for each application received.

Approval Process

Conservation districts must establish local program priorities and an application ranking system that will be used to make funding decisions. Applications must be approved during an official conservation district board meeting. Board meeting minutes must include a copy of the approved program priorities and application ranking system, list of approved applications showing the applicant's name, practice, and allocated amount.

Conservation districts that have more qualified applications than available funds may choose to approve those applications as alternates on the condition that funding becomes available. Work cannot begin until notified by the conservation district that funds are available. All approved alternates must understand that there is no guarantee that funds will become available during the program year.

Completion Dates

The Commission establishes February 2, 2023 as the completion date for installation of all conservation practices. The earlier the practice is completed, the greater assistance with drought impacts. Conservation districts must enforce the established completion date for approved applicants. The applicant should make every effort to complete approved practices by the established completion date. Applicants that have not started, are not under construction, or have not completed implementation of practices by the established completion date can be canceled and funds reallocate to an approved alternate.

Execution of Performance and Maintenance Agreement

After an applicant has been notified they have been approved for CSP funds, the applicant and conservation district must execute a Performance and Maintenance Agreement. An agreement number following the Commission approved format must be assigned to each agreement. Example agreement number – 03-ED2-001

03 - conservation district number

ED2 - program year number

001 – applicant number assigned by the district

All Program Year ED-2 Performance and Maintenance Agreements must be signed and dated by the district board and participant on or before December 2, 2022. All Program Year ED-2 agreements must be completed, and payments made to the producer on or before December 2, 2023. Installation of conservation practices cannot begin until an effective agreement is in place. An agreement becomes effective on the last date of signature. Each participant should have only one agreement.

Approved alternates must also sign a Performance and Maintenance Agreement on or before December 2, 2022.

ADMINISTRATIVE GUIDELINES

District Reporting and Accounting

Conservation districts shall conduct the following reporting and accounting procedures:

1. Maintain a Cost Share Program Allocation Report in electronic format. The report should include data for all conservation district board approved Performance and Maintenance Agreements. Agreement approved as alternates must be labeled as 'alternate'. The report should include the following:
 - conservation district name
 - applicant's name
 - agreement number
 - expected completion date
 - obligated amount
 - agreement effective date
2. Submit the Cost Share Program Allocation Report to the Commission for review on December 5, 2022. This report will be used to make an additional allocation of funds.
3. Assemble case files for each approved applicant

Commission Reporting and Accounting

The Commission shall conduct the following reporting and accounting procedures:

1. Receive and review Cost Share Program Allocation Reports from conservation districts.
2. On or before December 12, 2022 reallocate to conservation districts with unfunded approved alternates unobligated emergency drought funds returned at the end of the allocation period.

APPROVED CONSERVATION PRACTICES

Approved conservation practices and average costs can be found on **pages 8-9**. Standards and specifications for NRCS practices can be found on the NRCS Field Office Technical Guide website <https://efotg.sc.egov.usda.gov/#/>. Commission practice standards and specifications can be found on the Commission's website.

OKLAHOMA SECRETARY
OF STATE

J. Kevin Stitt
Office of the Governor
State of Oklahoma

**EXECUTIVE DEPARTMENT
EXECUTIVE ORDER 2022-23**

I, J. Kevin Stitt, Governor of the State of Oklahoma, pursuant to the authority vested in me by Sections 2 and 8 of Article VI of the Oklahoma Constitution and Title 27A O.S. Section 2250 et seq., do hereby declare the following:

Due to the current, and persistent, emergency drought conditions in all 77 Counties of Oklahoma, I hereby invoke the provisions of Oklahoma law regarding the use of the Emergency Drought Relief Fund.

It is hereby ordered, to the fullest extent permitted by law:

1. An Emergency Drought Commission is to be immediately formed and shall exist until it is determined by the Governor that a drought emergency no longer exists. Upon expiration of its term, the Emergency Drought Commission shall cease to exist subject only to extensions granted by the Governor or a new declaration of Emergency Drought Conditions.
2. The Emergency Drought Commission shall consist of the Executive Director of the Oklahoma Conservation Commission, the Secretary of Agriculture and the Executive Director of the Oklahoma Water Resources Board.
3. The Emergency Drought Commission shall have the authority to consider requests for use of Emergency Drought Relief Funds only from proposed projects to be located, or operating, within one, or more, of Oklahoma's 77 counties. Further, the use of any Emergency Drought Commission funds pursuant to this declaration must be expended solely on efforts to relieve drought conditions.
4. The Emergency Drought Commission shall have full discretion to determine the amount and nature of the expenditures to be made from the Emergency Drought Relief Fund, subject to written concurrence by the Governor. Further, the Emergency Drought Commission shall establish such procedures and requirements as it deems necessary. The Commission shall have the sole power to determine the appropriate agency or entity to receive Emergency Drought Relief Funds.
5. The Chair of the Emergency Drought Commission shall be the Secretary of Agriculture who will have the sole power to call meetings of the Commission, as necessary. The Commission shall be provided support staff from the Oklahoma

51918

Department of Agriculture, Food, and Forestry. The Chair of the Emergency Drought Commission shall also have the sole discretionary power to terminate the Commission.

This declaration may be amended as conditions warrant.

Copies of this Executive Order shall be distributed to the Executive Director of the Oklahoma Conservation Commission, the Secretary of Agriculture, and the Executive Director of the Oklahoma Water Resources Board, who shall cause the provisions of this order to be implemented by all appropriate agencies of state government.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of Oklahoma to be affixed at Oklahoma City, this 12th day of September, 2022.

BY THE GOVERNOR OF THE STATE OF OKLAHOMA

J. KEVIN STITT

Conservation District Issues:

- Responded to issues and questions for or on behalf of the following conservation districts: Atoka County CD, Cherokee County CD, Creek County CD, East Canadian County CD, Ellis County CD, Garvin County CD, Harper County CD, Konawa County CD, Logan County CD, McClain County CD, Noble County CD, North Fork of Red River CD, Stephens County CD, and Woodward County CD
- Responded to questions or issues by conservation districts regarding the following topics: flood control easement violations, conservancy district questions, OESC filing, conflict of interest, garnishment, drafting of violation letter, drafting of agreement, locate tickets, county authority, government record exemption, cleaning out of structure by landowner, and complaint about accessibility of staff by local producer

Rehabilitation and Repair Projects:

- **Upper Black Bear Creek Site 62** – The City of Perry has been clearing land rights and is working to finalize the condemnation paperwork and payment on the Vann property. Once the Vann property condemnation paperwork is completed, the City of Perry should be submitting the required ADS-78 form and attorney letter clarifying that all land rights have been acquired, thus allowing the rehabilitation to move forward to contracting.
- **Sallisaw Creek Site 33** – A hearing was held on April 4 at 10 am. The judge failed to issue his order within 60 days. The District is looking at filing a Writ of Mandamus with the appellate court in the OWRB case challenging the hazard classification of the dam. The OWRB case needs to be finalized before pushing hard on the pending condemnation case for the rehab.
- **Lower Bayou 12** - Working to set a date to meet with the main landowner; have received a map of the easements acquired and working to finalize all remaining areas that need easements.

Other Flood Control Issues:

- **Bear-Fall Coon Creek Site 20** – Working on the draft agreement between the district and the landowner with the Logan County Asst. D.A.
- **Little Wewoka Creek Site 1** –Held a meeting with the Muscogee Creek Nation and the landowners around this structure to discuss land rights and the acquisition of a lease. Awaiting discussion with BIA and responses from landowners.
- **Quapaw Creek Site 23** – Received a demand letter from landowner regarding building below the dam. The letter was referred to the D.A.'s office for a response. The response was sent out on August 25, 2022 to the landowner. We have not received any follow-up from the landowner.
- **Upper Black Bear Creek Site 73** – Landowner placed a house pad below the dam and the district is working on a violation letter.
- **Upper Elk Creek Site 23D** – Landowner has built a small dam in the flood pool of this recently rehabilitated site. District working on a letter to landowner detailing out the problems with the small dam.

AML:

- General administrative correspondence and reviews
- Contacted and confirmed a meeting with Mr. Draper to go over the Loudermilk project.
- Pryor East Awn – prepared and sent Awn for review by ODAFF attorney and for signature by the cabinet Secretary. Prepared letter to the tribe on the project. Still awaiting approval from the Secretary.
- Working with OSMRE to set meeting to discuss state projects
- Researched landowner contact information on project
- **McGirt Case**
 - Correspondence with OAG
 - Draft letter for OSMRE drafted and submitted for review
 - Discussion of state program and projects with OAG & ODAFF
 - Review and discussion with OAG regarding OSMRE's Cross-Motion for Summary Judgement and Brief in Support
 - Reviews and discussions regarding the State's Combined Brief in Opposition to OSMRE's Cross- Motion for Summary Judgment and Reply in Support of State's Motion for Summary Judgment

General Commission Issues:

- ❖ Contracts and Agreements: 3
- ❖ Research Projects: 3
- ❖ Workday Issues: 2
- ❖ Open Record Request: 1
- ❖ Document Reviews: 2
- ❖ Draft Documents: 3
- ❖ Conservancy District Responses: 2

Communications report for September Commission Meeting

Bryan Painter, Public Information Officer

By last month, we had eclipsed the 5,000 mark for likes of the Oklahoma Conservation Commission Facebook page. Our next goal was to surpass 500 followers on Instagram, and we have done that. Here's a closer look at Communications by the numbers as of Sept. 12, 2022:

5,031 – Facebook page likes

1,846 – GovDelivery News release subscribers

513 – Instagram followers

316 - Calendar items, January through September (average 35 per month)

84– Conservation Districts that can utilize our services

65 – Editions of The Ripple Effect, the OCC newsletter, as of Sept. 21

12 – Conservation feature stories in Oklahoma Farm & Ranch magazine (Articles have been submitted through October)

5 – Partners -- in addition to Conservation Districts -- work with/share content with (NRCS, OACD, OCHS, NASCA, NACD)

3- Newsletters edited in addition to The Ripple Effect: Blue Thumb, Soil Health, Newsletter for Crow Creek Project)

2- NASCA subcommittees serving on (Strategic Plan and Communications)

1 – VET Committee (plus have taken a break on Communications Committee as VET Committee details some communications issues; all intentions are to resume the Communications Committee)

- Greg Scott visited producers for consultations in Goltry and Sparks
- Greg Scott and Meg visited 2 producers for consults and Haney/WORMS data collection in Atoka.
- Meg participated in the advisory board meeting for the OSU Virtual Fence research project
- We lent our inflatable soil health educational display tunnel to Dewey County for their county fair, and received the second tunnel we ordered to allow more districts/groups to borrow it.
- Meg helped the Oklahoma Grazing Lands Coalition plan upcoming joint events in Atoka and Claremore which will take place this winter.
- Jack attended the Monarchs on the Mountain event in Tulsa, where he talked to residents interested in promoting pollinator habitat.
- Meg represented OCC at the project team meeting for a regenerative cotton systems research project led by OSU and Texas A&M.
- Jack attended a farmer gathering for the Tulsa Farmers Market, a Yard by Yard program meeting, a Tulsa CCD board meeting and visited 4 homeowners.
- Jimmy planned for General Mills project representatives to visit Oklahoma project farms. He presented in Colorado, attended a NACD meeting in Louisiana, and participated in the emergency drought commission.
- Josh Kouri is the new OKC area urban soil health specialist. He is a joint employee of Oklahoma CCD and OCC. He met with attendees of the CARE field day in Norman with OCC.

Monitoring

- Continued routine water quality monitoring for the Rotating Basin Project 2.5 (RBP 2.5) (Upper North Canadian, Upper Arkansas and Cimarron River Basins) cycle
- Continued routine water quality monitoring for the Rotating Basin Project 1.5 (RBP 1.5) (Upper South Canadian and Grand Neosho Basins) cycle
- Continued monthly water quality sampling at 3 stream sites in the Little Beaver Creek watershed in support of the Little Beaver NRCS National Water Quality Initiative (NWQI)
- Continued support for the monitoring of Holi-Tuska Creek in support of the New Spiro Lake Project in LeFlore County
- Continued subsampling macroinvertebrate collections in preparation for identification by the taxonomist
- Continued fish collections on Rotating Basin Project 1.5 and 2.5

Wetlands

- Completed approximately 10 wetland determinations.
- Responded to citizen requests for locating restorable wetlands through the Wetland Registry hosted on the Wetlands Program Website.
- Conducted mitigation plan review for potential wetland mitigation properties for an *In-Lieu-Fee* program and wetland mitigation banks.
- Continued coordination with Oklahoma State University (OSU) on a floodplain wetland mapping project.
- Continued revising protocol for Restorable Wetland Identification Protocol (RWIP) to improve the ability of the method to locate sites with a high potential for restoration feasibility.
- In coordination with OSU, continued drafting a guidebook and training program for the Oklahoma Rapid Assessment Method (OKRAM), a protocol that can be used to determine wetland condition.
- Continued field assessments for the National Wetland Condition Assessment Intensification Project, to complete a state assessment of wetland health and continue to refine OKRAM.

Technical Writing & Records Management

Staff conducted the following activities:

- Fulfilled multiple information requests
- Entered sampling information
- Performed routine quality assurance on monitoring data
- Continued analyses to track trends in stream health across the state using the last 20 years of Rotating Basin Program monitoring data.
- Continued design and testing of data sheets for use on electronic notebooks for the collection of Rotating Basin Program field data.
- Participated in the Assessment to Implementation Workgroup and sub workgroups to determine best practices and improvement of the uses of monitoring data collected by the Blue Thumb and Rotating Basin Monitoring Programs.
- Completed fish crew lead audits to ensure and document that fish and habitat collections are conducted according to SOPs.
- Conducted QA review for new macroinvertebrate sample pickers at Connors State to ensure standard operating procedures are followed.
- Conducted quarterly meter calibration.
- Submitted the yearly update to OCC's Quality Management Plan to USEPA.

Blue Thumb's Double Feature

We had not one, but TWO trainings this month for new Blue Thumb volunteers! The first was a private training for Milo's Tea employees, and the second was a public training held in Tulsa. Fun was had by all as they learned about Blue Thumb, what we do, and how they can help protect and conserve water across the state!

Education, Education, Education

Once again, we've have a busy, busy month with all the education events scheduled! All over the state, Blue Thumb staff has been hard at work providing information and memorable experience to folks of all ages about conservation, water quality, and protecting our most precious resource.

Top left: Kids learn about erosion with our Stream Trailer at the North Caddo County Outdoor Classroom. Not pictured are other Blue Thumb activities with our EnviroScape and Macroinvertebrate Mayhem.

Top right: Kids with the Eastern Shawnee Tribe have an environmental education day in a local Ozark stream.

Bottom left: Oklahoma Central University's Ecological Methodologies class went out to learn to sample for bugs and fish in Edmond.

Bottom right: Blue Thumb, Yard by Yard, and the Crow Creek Community came together to help educate the public at the Monarchs on the Mountain event in Tulsa.

Jefferson County Conservation District

Annual Report July 1, 2021 –June 30, 2022

The Jefferson County Conservation District (JCCD) is a local subdivision of state government. The district was formed in 1944 to ensure local people are involved in conservation activities.

The main goal of the district is to provide services to land users in protecting and conserving natural resources and to provide a link to state and federal conservation agencies and programs.

A board of five conservation district directors (three elected and two appointed) governs the conservation district.

The district has cooperator agreements with 840 producers in the county.

The board of directors submits this annual report to inform the public of this past year's conservation accomplishments.

We invite all citizens to become familiar with the activities of the Jefferson County Conservation District and to visit our office and get acquainted with our staff.

We also invite people to attend our monthly board meeting held on the 4th Tuesday of each month at 10:00 A.M..

Mission statement: JCCD will provide leadership in a local effort to protect the environmental quality and agriculture productivity

of the county, leaving resources in better condition for future generations, by providing programs and services to local producers

Gary Carter, LaDonna Dennis-Davis, Ruslyn Ramsey, Royse Reagan, Clay Forst (Not pictured)

The Conservation District shares office space with the Natural Resources Conservation Service, a federal agency in the U. S. Department of Agriculture. The NRCS provides technical assistance to the conservation district and district cooperators, and administers several USDA technical and cost share programs.

The district sells seed and rents equipment to producers.

Pond construction has been one of the conservation practices included in the Conservation Cost Share Program.

This Cow Creek Watershed upstream flood control dam is located North of Waurika, Ok. near the town of Addington, OK. This is one of the 10 flood control dams in JCCD

Providing Equipment and Services to Producers in the District

The Jefferson County Conservation District rents conservation equipment such as a cyclone seeder, eze flo, packer, gopher machine, wylie pasture sprayer, turbo grass seeder and does soil samples for area landowners. A variety of grass seed can be purchased through the District.

Oklahoma Conservation Cost Share Program

The conservation district administers the Oklahoma Conservation Cost Share Program for Jefferson County Conservation District. Cost Share program year 7 there were ponds, grass planting, brush management and fencing.

The Oklahoma Legislature established the program in 1998. It is an annual program requiring funding from the legislature. Since the beginning of the program Jefferson County has provided Cost share funds for conservation practices such as grass planting, ponds, terraces, waterways, brush, and pest management.

The conservation district board obtains input from citizens to determine which conservation practices will be included in the program each year.

Watershed Program

The Jefferson County Conservation District is a sponsor for the operation and maintenance responsibilities with the 10 watershed dams in the county.

The conservation district works with the conservancy districts in making annual inspections of these flood control dams and providing maintenance work on the dams including, clearing trees from the dam and earthen spillway, beaver control, repairing erosion problems, maintaining good stands of grass on the dams and earthen spillways, and keeping the inlet tower of the principal spillway cleared of debris

The primary goal of the district's watershed program is making sure the dams function as they were designed and remain safe.

Fence construction will be completed by the district on new Floodplain Easement contracts.

Floodplain Easement Program

The Conservation district had an intergovernmental agreement with the Natural Resources Conservation Service (NRCS) to assist with the Floodplain Easement Program contracts. The NRCS acquired 836 acres of floodplain lands along the Cow Creek Watershed. The Floodplain Easement program was created to allow the NRCS to acquire permanent easement on private lands that were damaged by flooding. Once the NRCS acquired the easements the Jefferson County District assisted the producer in restoring the floodplains to a natural state that ensures they function properly. This included converting the croplands on two of the easements to native grasslands by seeding native grasses as well as planting native tree seedlings.

Information and Education

The district help sponsor the National land Judging Contest.

Other activities included:

- * Sponsor outreach with Noble Foundation, NRCS, & OSU
- ❖ Set up a booth for information at the Jefferson County Fair in Waurika in 2021. The district also provided equipment for the tractor driving contest.
- ❖ Provided news releases to county papers to help keep landowners informed of available conservation programs and assistance.

Cooperators of the year and Excellence in GRAZING AWARD

The Jefferson County Conservation District Directors select individuals that have demonstrated exemplary conservation ethic in the county for the Cooperator of the Year Award. The Directors also select individuals that have demonstrated exemplary management of rangeland resources in the County.

These individuals are awarded signs and plaques at our December District Board Meeting.

The conference was part of an outreach program to reach nontraditional customers with information about the conservation district, NRCS, and conservation programs.

USDA Conservation Programs

The conservation district works closely with the NRCS in carrying out conservation work in the county. The NRCS staff provides technical assistance to the conservation district and to county land users. The NRCS also administers several federal cost share programs.

Listed below are few the federal conservation programs in 2022.

- ❖ Environmental Quality Incentives Program (EQIP) contracts were developed.
- ❖ Conservation Stewardship Program (CSP) contract Jefferson County.
- ❖ Conservation Reserve Program (CRP) contracts.
