PUBLIC COMMENTS

Mr. Phil Campbell came to offer a statement regarding the upcoming Emergency Drought Program. After learning that the drought funds had been released, he really believed that help was on the way. However, after attending the last Drought Commission meeting, he was not so sure and wanted to clarify some things. Mr. Campbell understood that there was discussion regarding the exclusion of certain producers from the additional 20 million dollars the fund might receive. For example, putting a requirement on the number of cattle an individual must have to qualify. Mr. Campbell stressed that this program should be accessible to everyone and not a single individual or group should be excluded. He does not want the Commission to be blindsided by the repercussions of doing so. After discussion, the Commission made it clear that they did not wish to see that happen either.

CONSERVATION PARTNERSHIP REPORTS

Oklahoma Department of Agriculture, Food and Forestry: Jan lee, Deputy Commissioner. Ms. Lee expressed that ODAFF had been very focused on the Emergency Drought Commission

and funding this month. She went on to state that the Drought Commission approved the guidelines that the Conservation Commission approved today on the previous Friday. Ms. Lee and Secretary Arthur attended the National Meeting of State Departments of Agriculture. The Secretary expressed to everyone that while the nation has seen drought as a whole, Oklahoma has been hit the hardest this year. Secretary Arthur was asked to chair the Animal Agriculture Committee at this meeting as Oklahoma has some unique things going on in that area. Ms. Lee stressed that African Swine flu should still be monitored for even though it has not made into the states yet.

USDA-Natural Resources Conservation Service: Amanda Mathis, Acting State Conservationist. Ms. Mathis comes from NRCS Arkansas. She expressed her passion for districts, locally led conservation and the power of partnerships. She continued by offering the NRCS accomplishments for the end of the fiscal year including over \$41 million dollars in aide for various conservation programs. The planning process for Uncle John 10 and Sallisaw site 36 are both still ongoing. There are now 5 contracted out planning projects for Sallisaw sites 13&19, Scraper Hollow 2, Oak 5, and Little Wewoka 12. Ms. Mathis also provided the personnel actions for the past month. As of September 11, Sterling Griffith is the Soil Conservation Technician in Team 18, Don Griffith is the Soil Conservation Technician in Team 8, Layton Sharry is the Soil Conservation Technician in Team 5, MaKayla is now the Resource Conservationist in Team 13. She also mentioned two transfers, Lane Gorrell, previously the Soil Conservationist in Team 8 is now in Team 10, and Bree Spaulding Soil Conservationist in Team 13 is now in Team 10. In addition, there have been two retirements. As of September 23, Steve Barner, WRP Specialist located in McAlester has retired and as of September 30 Carl Woods, Soil Scientist out of McAlester has also retired. Ms. Mathis also informed the Commission that the new Assistant State Conservationist for Watersheds has been selected but there is no current news of the offer being made. Finally, she state that the State Conservationist applications have been closed and the interview process should begin soon.

Oklahoma Association of Conservation Districts: Bill Jordan, OACD President. Mr. Jordan states that Sarah Blaney is currently in Delaware at the NACD Executive Directors Conference. He is happy to announce that OACD will be serving as the fiscal agent and aiding the Fresh RX program expansion project out of Tulsa through a grant. There were 4 CARES Field Days in September. OACD hosted a workshop with the CARE Champions along with the Nature Conservancy on September 15th-16th to tour the Pontotoc Ridge area. There will be two more field days in October. Mr. Jordan noted that the CARE project has been extended until November 30, 2022. Sarah has been working with Ron Harris at NRCS national headquarters about the continuation of the project funding and she believes they will be able to reallocate for an additional 6-9 months. OACD has contracted with a videographer to create 3 videos focused on the CARE program. The goal is to roll them out mid- October. This effort also includes a rebuild of the CARE webpage as the program has received national attention. Mr. Jordan expressed his thanks to the Conservation Programs Division for there work on the Leadership Class on September 19-20. OACD has agreed to a counteroffer by Ecosystem Services Market Consortium to provide technical assistance and enrollment assistance for their partnership with General Mills to enroll 17,500 acres in their carbon crediting program. This would equate to \$227,500 for districts at \$13.00 per acre. OACD will be working with the Playa Lakes Joint Venture in October on their retreat in Woodward regarding the invasive species removal grants that 3 conservation districts in NW Oklahoma currently have. Fifty directors from Mississippi will be here from October 19-21 and Sarah would like to thank Lisa for helping to organize the tour. OACD has recently contracted with the National Wildlife Federation to provide 1.5-2-day trainings for partners in December and

January for education on how to effectively conduct outreach with farmers/ranchers. Mr. Jordan announced that Area meetings were quickly approaching and included their dates and locations. Finally, he added that Sarah and Phil have been assisting ODAFF with tours for the National Farmer Veteran Coalition Conference that will be held November 13-15 in Oklahoma City. Two of OACDs CARE Champions will be featured on the tour.

**STATE GUIDELINES
FOR THE
EMERGENCY DROUGHT COST-SHARE PROGRAM

PROGRAM YEAR ED2**

**Program Year Begins: October 3, 2022
Program Year Ends: December 2, 2023**

**Allocation Period Begins: October 3, 2022
Allocation Period Ends: December 2, 2022**

**Oklahoma Conservation Commission
in cooperation with
Oklahoma's 84 Conservation Districts**

Funded by the Emergency Drought Commission on September 30, 2022

Approved by the Conservation Commission on October 3, 2022

Revised October 17, 2022 to include changes approved by the Emergency Drought Commission.

PURPOSE

Governor Kevin Stitt Declared the Following:

Due to the current, and persistent, emergency drought conditions in all 77 Counties of Oklahoma, I hereby invoke the provisions of Oklahoma law regarding the use of the Emergency Drought Relief Fund.

Executive Order 2022-23 appears on pages 10-11.

The Oklahoma Conservation Commission (Commission) herein establishes the complete list and description of the Emergency Drought Cost-Share Program policies and practices approved for use by all 84 of Oklahoma's Conservation Districts. Cost-share average costs (unit cost) are based on Oklahoma Natural Resources Conservation Service (NRCS) data and local conservation district data.

Any exceptions from these established Emergency Drought Cost-Share Program policies and guidelines shall be approved by the Commission.

ALLOCATION OF FUNDS

Emergency Drought Cost-Share Program

The Emergency Drought Commission (Drought Commission) allocates \$3,000,000 from the Emergency Drought Relief Fund to the Commission for the purposes of providing cost-share payments to eligible participants for implementing approved cost-share emergency drought practices.

***As of October 17, 2022 the Emergency Drought Commission added an additional \$5,000,000 to the Emergency Drought Cost-Share Program.**

Conservation District Allocation

The Commission allocates \$2,541,900 of emergency drought funds to conservation districts. The amount of funds allocated to each conservation district can be found on page 7. Each county will be allocated \$33,000. Allocations for conservation districts not on county boundaries will be based on the percentage of county acres that fall within the conservation district boundary.

***As of October 17, 2022 each county will be allocated an additional \$64,935 because of the additional \$5,000,000 put into the Emergency Drought Cost-Share Program.**

These funds will become available to conservation districts on October 3, 2022. The Commission will hold \$458,100 in reserve and make it available to conservation districts who demonstrate the greatest need. Requests for an additional allocation must be submitted to the Commission no later than December 5, 2022. Your district will be notified December 7-12, 2022, if your request for an additional allocation is approved.

POLICIES

Program Year

Program Year ED2 begins on October 3, 2022 and ends on December 2, 2023. All Performance and Maintenance Agreements must be completed, and cost-share payments disbursed by December 2, 2023. The Commission will not process claims received after December 2, 2023.

Allocation Period

The allocation period shall start October 3, 2022, and end December 2, 2022. Funds allocated to conservation districts and not obligated by December 2, 2022 will be withdrawn and made available for reallocation by the Commission. Funds become obligated to a participant after approval of the application by the conservation district board and a Performance and Maintenance Agreement has been signed and dated by the board and the participant.

Eligibility Requirements

Applicants must be a district cooperator with a conservation plan.

Applicants must be experiencing drought conditions.

Applicants must agree to maintain the conservation practice for the expected life specified by the conservation district.

Applicants that lease the land must submit a landowner consent form with their application. The landowner must agree to continue maintenance of the conservation practice for the expected life specified by the conservation district if the land lease agreement is canceled.

Conservation Commissioners, Conservation Commission staff, conservation district employees or the spouses of any of these people shall not be eligible to participate in the Emergency Drought Cost-Share Program.

Conservation district directors are eligible to participate in the Emergency Drought Cost-Share Program. Due to the limited amount of funds available for Program Year ED2 individual directors should consider public perception when making their decision to participate in the Program. If the conservation district board decides that members can apply and members choose to apply for Program Year ED2 the guidelines below must be followed.

1. Individual conservation district board members applying cannot discuss any element of the Emergency Drought Cost-Share Program including but not limited to practices, rates, average costs, selection criteria, application approval/disapprovals, cost-share payments, and extensions.
2. Individual conservation district board members applying for the Emergency Drought Cost Share Program must abstain from voting on all elements of the Program.
3. Individual conservation district board members cannot use their position as a board member to improve or elevate their individual chances of becoming successful applicant.

Authorized District Representative(s)

The conservation district board must designate at least one authorized district representative. This person can sign all forms. The authorized district representative must be a conservation district board member. It cannot be a district employee.

Authorized Technical Representative(s)

The conservation district board must designate at least one NRCS technical representative and at least one district technical representative. Conservation district directors and employees can serve as the district technical representative. District directors participating in the program cannot serve as the district technical representative.

The NRCS designated technical representative will:

- develop conservation plans,
- design and layout practices,
- certify installed practices meet NRCS approved standards and specifications.

The district technical representative will:

- certify applicant's eligibility,
- certify installed practices meet Commission approved standards and specifications.

NOTICE: As of October 17th, 2022 it is no longer required to certify drought conditions for any practices in the Emergency Drought Cost-Share Program. The form has been removed from the website.

NRCS and district technical representatives will be required to sign the Certification of Completion and Acceptance form.

Eligible Conservation Practices

512 Pasture and Hay Planting (excludes Bermuda grass)	516 Pipeline
533 Pumping Plant	561 Heavy Use Protection Area
614 Watering Facility	642 Water Well
PC Pond Cleanout	340 Cover Crop
PT Pasture Tap	

NOTICE: As of October 17th, 2022 any pond cleanouts or pasture taps completed after June 11th, 2022 will be eligible for the Emergency Drought Cost-Share Program. These "retroactive" applications will not require a performance agreement but will require completion of a special certification of completion and acceptance form.

Each district board may select any of the eligible conservation practices for inclusion in the district's local guidelines. Conservation practices shall be implemented according to applicable NRCS, Commission or rural water district standards and specifications.

Average Cost

State average cost (unit cost) for eligible conservation practices is based on Oklahoma NRCS data and local conservation district data. These costs are located on pages 8-9 of this document.

Maximum Cost-Share Payment

The Commission sets the maximum cost-share payment amount per participant at \$7,500. The conservation district board cannot change the maximum cost-share payment.

Maximum Cost-Share Rate

The maximum cost-share rate for all conservation practices is 80%. Each conservation district board may choose to establish a cost-share rate less than 80%.

Application Process

Conservation districts should announce the availability of funds throughout the district. Potential applicants must return completed applications to the district prior to the end of the district's application period. Applicants that lease the land must submit a landowner consent form with their application. Each applicant is limited to one application. Multiple practices can be applied for on one application.

Conservation district technical representatives must complete a Certification of Drought Condition and Applicant Eligibility form for each application received.

Approval Process

Conservation districts must establish local program priorities and an application ranking system that will be used to make funding decisions. Applications must be approved during an official conservation district board meeting. Board meeting minutes must include a copy of the approved program priorities and application ranking system, list of approved applications showing the applicant's name, practice, and allocated amount.

Conservation districts that have more qualified applications than available funds may choose to approve those applications as alternates on the condition that funding becomes available. Work cannot begin until notified by the conservation district that funds are available. All approved alternates must understand that there is no guarantee that funds will become available during the program year.

Completion Dates

The Commission establishes February 2, 2023 as the completion date for installation of all conservation practices. This is an emergency program that requires swift action. Conservation districts must enforce the established completion date for approved applicants. The participant should make every effort to complete approved practices by February 2, 2023. Participants that have not started, are not under construction, or have not completed implementation of practices by February 2, 2023 can be canceled and funds reallocate to an approved alternate. When mitigating circumstances influence a participant's ability to complete implementation, they can submit a written request to the district board for a 30-day extension.

Execution of Performance and Maintenance Agreement

After an applicant has been notified they have been approved for CSP funds, the applicant and conservation district must execute a Performance and Maintenance Agreement. An agreement number following the Commission approved format must be assigned to each agreement. Example agreement number – 03-ED2-001

03 - conservation district number

ED2 - program year number

001 – applicant number assigned by the district

NOTICE: For reporting purposes, applicants with retroactive practices will require an identifying agreement number without a physical agreement.

All Program Year ED2 Performance and Maintenance Agreements must be signed and dated by the district board and participant on or before December 2, 2022. All Program Year ED2 agreements must be completed, and payments made to the producer on or before December 2, 2023. Installation of conservation practices cannot begin until an effective agreement is in place. An agreement becomes effective on the last date of signature. Each participant should have only one agreement.

Approved alternates must also sign a Performance and Maintenance Agreement on or before December 2, 2022.

ADMINISTRATIVE GUIDELINES

District Reporting and Accounting

Conservation districts shall conduct the following reporting and accounting procedures:

1. Maintain a Cost Share Program Allocation Report in electronic format. The report should include data for all conservation district board approved Performance and Maintenance Agreements. Agreement approved as alternates must be labeled as 'alternate'. The report should include the following:
 - conservation district name
 - applicant's name
 - agreement number
 - expected completion date
 - obligated amount
 - agreement effective date
2. Submit the Cost Share Program Allocation Report to the Commission for review on December 5, 2022. This report will be used to make an additional allocation of funds. Districts will be notified December 7-12, 2022, if they were approved for an additional allocation.
3. Assemble case files for each approved applicant

Commission Reporting and Accounting

The Commission shall conduct the following reporting and accounting procedures:

1. Receive and review Cost Share Program Allocation Reports from conservation districts.
2. December 7-12, 2022 reallocate to conservation districts with unfunded approved alternates unobligated emergency drought funds returned at the end of the allocation period.

APPROVED CONSERVATION PRACTICES

Approved conservation practices and average costs can be found on pages 8-9. Standards and specifications for NRCS practices can be found on the NRCS Field Office Technical Guide website <https://efotg.sc.egov.usda.gov/#/>. Commission practice standards and specifications can be found on the Commission's website.

Conservation District Issues:

- Responded to issues and questions for or on behalf of the following conservation districts: Atoka County CD, Beaver County CD, Dewey County CD, Ellis County CD, Kingfisher County CD, Le Flore County CD, Lincoln County CD, Logan County CD, Major County CD, Murray County CD, Muskogee County CD, Noble County CD, and North Fork of Red River CD
- Responded to questions or issues by conservation districts regarding the following topics: emergency cost-share program, drafting of an MOU with Kansas district, open record request, OESC filing, financial savings option, conservation practice agreement, flood control easement violations, draft settlement agreement review, personnel issue, no-till drill agreement email, cost-share open record request and appeal of District decision, violation follow-up, and discussion on landowner and tenant easement violations and next steps.

Rehabilitation and Repair Projects:

- **Upper Black Bear Creek Site 62** – The City of Perry has been clearing land rights and is working to finalize the condemnation paperwork and payment on the Vann property. The City of Perry should be submitting the required ADS-78 form and attorney letter clarifying that all land rights have been acquired by the end of October, thus allowing the rehabilitation to move forward to contracting.
- **Sallisaw Creek Site 33** – A hearing was held on April 4 at 10 am. The judge failed to issue his order within 60 days. The District is looking at filing a Writ of Mandamus with the appellate court in the OWRB case challenging the hazard classification of the dam. The OWRB case needs to be finalized before pushing hard on the pending condemnation case for the rehab.
- **Lower Bayou 12** - Working to set a date to meet with the main landowner; have received a map of the easements acquired and working to finalize all remaining areas that need easements.

Other Flood Control Issues:

- **Bear-Fall Coon Creek Site 20** – Progress occurring on the draft agreement between the district and the landowner with the Logan County Asst. D.A.
- **Little Wewoka Creek Site 1** –Held a meeting with the Muscogee Creek Nation and the landowners around this structure to discuss land rights and the acquisition of a lease. Have sent follow-up emails to the Nation and awaiting a response.
- **Quapaw Creek Site 23** – Received a demand letter from landowner regarding building below the dam. The letter was referred to the D.A.'s office for a response. The response was sent out on August 25, 2022 to the landowner. Have sent an email to the ADA seeking an update.
- **Upper Black Bear Creek Site 73** – Landowner placed a house pad below the dam and the district is working on a violation letter.
- **Upper Elk Creek Site 23D** – Landowner has built a small dam in the flood pool of this recently rehabilitated site. District working on a letter to landowner detailing out the problems with the small dam.

AML:

- General administrative correspondence and reviews
- Projects: Pryor East AWN, Moore South, McSpadden East, and Loudermilk Phase 2
- Researched landowner contact information on projects
- **McGirt Case**
 - Awaiting a decision by the court regarding the Motions for Summary Judgment briefs filed.

General Commission Issues:

- ❖ Contracts and Agreements: 4
- ❖ Research Projects: 3
- ❖ Workday Issues: 1
- ❖ Open Record Request: 2
- ❖ Document Reviews: 5
- ❖ Draft Documents: 3
- ❖ Conservancy District Responses: 1

Blue Thumb—In Pictures

October 2022

Weatherford training

A small, but awesome group showed up for the Blue Thumb training at Southwestern Oklahoma State University in Weatherford this month. We had some really great discussions about education, nonpoint source pollution, fish, bugs, and watersheds.

Clean Up!

Lots of folks in the Tulsa area showed up to clean up Crow Creek through Zink Park this month! They managed to pick up a lot of trash, which is great, since this creek is very urbanized. Lots of fun was had by all!

Education, Education, Education

School is back in full swing, and Blue Thumb staff were super busy this month with fall activities. We've been lucky that most of our Outdoor Classrooms and events have been outside so that we can enjoy the cooler weather.

Left: Blue Thumb Volunteer Coordinator Cheryl Cheadle teaches kids about creek bugs at the Spring Creek Coalition at Spring Creek in Northeast Oklahoma.

Above: Ada students enjoyed an Natural Resource Day hosted by Ponotoc County Conservation District.

Annual Report

Garvin Conservation District

The Garvin Conservation District is a local subdivision of state government. The district was formed in 1938 to ensure local people are involved in conservation activities

The function of the district is to make available technical, financial and education resources and coordinate them so that they meet the needs of the local community with respect to conservation of soil, water, and related natural resources.

A board of five conservation district directors (three elected and two appointed) governs the conservation district.

The board of directors submits this annual report to inform the public of this past year's conservation accomplishments.

We invite all citizens to become familiar with the activities of the Garvin Conservation District and to visit our office and get acquainted with our staff. We also invite people to attend our monthly board meeting held on the second Tuesday of each month at 1:00 p.m.

Mission Statement: To promote the conservation and the wise use of natural resources in Garvin County.

Vision Statement: To support a sound sustainable resource conservation program.

District board members and employees: Dakota Arthur, Chair, Bill Jordan, Joe Crawford, and Mike Foster, Vacant, District Manager and Hunter Bay, Watershed Aide.

Natural Resource Conservation Service staff: Dana Davis, District Conservationist, Brandon Chandler, Resource Conservationist, Jennifer Mosteller, Soil Technician and Crystal Parks, Farm Bill Specialist.

The Conservation District office is located in the Pauls Valley Service Center and shares office space with the Natural Resources Conservation Service. NRCS, a federal agency, provides technical assistance to the conservation district and cooperators and administers several USDA technical and cost-share programs.

*Our office is open
Monday – Friday
from
8 a.m. to 4:30 p.m.*

Annual Report

Conservation Cost-Share Program

The conservation district administers the Oklahoma Conservation Cost Share Program for Garvin County. The Oklahoma Legislature established the cost-share program in 1998. It is an annual program requiring funding from the legislature. The cost share funds are provided for conservation practices such as grass planting, ponds, cross fencing, water wells and brush management. The conservation district board obtains input from citizens to determine which conservation practices will be included in the program each year.

Watershed Program

There are 146 flood control dams in 13 watersheds in Garvin County. They are Bear Hybarger Creek, Cherokee Sandy Creek, Chigley Sandy Creek, Kickapoo Sandy Creek, Maysville Laterals, Owl Creek, Peavine Creek, Rock Creek, Round Creek, Rush Creek, Sandy Creek, Washington Creek and Wildhorse Creek. The primary purpose of flood control dams is to reduce flooding.

The Garvin Conservation District is the local sponsor and is responsible for making annual inspections of these flood control dams and providing maintenance work on the dams. Maintenance includes, clearing trees from the dam and earthen spillway, beaver control, repairing erosion problems, maintaining good stands of grass on the dams and earthen spillways, and keeping the inlet tower of the principal spillway cleared of debris. The goal of the district's watershed program is to make sure the dams function as they were designed and remain safe.

Oklahoma NRCS is conducting a Corrugated Metal Pipe (CMP) Pilot Project in partnership with the Oklahoma Conservation Commission and conservation districts. Some corrugated metal pipes installed in dams between 1948 and 1977 have deteriorated and needed replaced. Garvin county had four watershed sites that needed to have the principal spillway repairs completed. Maysville Lateral Sites H-5 & H-6 and Wildhorse Sites 85 & 124 were the sites repaired.

Annual Report

Information and Education

On January 13, 2022, we had our Annual Meet & Greet. Nate Grose, watershed aide, gave a presentation to the watershed landowners regarding a new spraying agreement the district was making available to the landowners.

- The purpose of the program was to get the landowners involved in the maintenance and upkeep of the watersheds on their land. The program would pay landowners \$250 to spray their watershed dams. Landowners needed to apply by March 04, 2022, the board ranked the applications at the March 10, 2022, board meeting.

There were 8 applications approved. Applicants were given until July 1, to complete the spraying. Seven watershed dams were sprayed, and landowners received their payment.

Students from Lindsay, Paoli, and Stratford participated in the annual Garvin County Land Judging contest this year. The district sponsors the awards for the contest each year.
