OKLAHOMA CONSERVATION COMMISSION
WATER QUALITY DIVISION
AUG MONTHLY SUMMARY
Shanon Phillips, Director
August 24, 2023

Illinois River Riparian Easement Report

Water Quality Division, Oklahoma Conservation Commission

Report for Brooks Trammell

Purpose and Scope of Program

- Long-term lease agreements restrict the use of riparian corridors along streams in the Illinois River Watershed. This program was intended to supplement the Conservation Reserve Enhancement Program (CREP) by covering gaps in riparian areas not covered by the rigid qualifications in CREP and therefore allowing landowners the opportunity to enroll contiguous reaches to effectively manage property by whole corridor riparian exclusion.

Routine Programmatic Responsibilities

- Programmatic administration and tracking: Enrolled contracts and properties are reviewed, and participants paid annually if meeting contract requirements. District and NRCS staff in the Adair, Cherokee, and Delaware County Conservation Districts are integral to this program and help complete most activities.

Annual Status:

- Currently, twenty-one (20) contracts/properties have been reviewed and payment made or are in process for annual payments, totaling 1,093 acres of exclusion, with an expected payout of \$66,601.50.
- Adair County accounts for most of the contracts, with seventeen (17) participants, covering 801.5 acres, with an expected payout of \$48,090. Most reviews are complete, with some agreements paid while some are in process.
- Cherokee County has two (2) current contracts, covering 242.5 acres, both of which have been reviewed and payments made totaling \$15,277.50.
- Delaware County has one (1) remaining contract of 49 acres, which has been reviewed with a payment made of \$3,234.00.

Wetlands Report

Wetlands Program

Water Quality Division, Oklahoma Conservation Commission

Report for Brooks Tramell, Sarah Gilmer and Dan Dvoretz

Routine Programmatic Responsibilities

- Wetland Determinations: Review potential impacts to wetlands and aquatic resources from publicly funded project
- Mitigation Plan Review: Review documents for *In-Lieu-Fee* and Mitigation Banks as a member of the Oklahoma Interagency Review Team (IRT)
- Respond to Citizen Requests: Deliver wetland information to the public, primarily in response to requests through the Wetland Registry hosted on the Wetlands Program Website

Active Grant Projects:

- Floodplain Mapping Project: This project is funded by a US Environmental Protection Agency (USEPA) 104(b)(3) Wetland Program Development Grant (WPDG) to update National Wetlands Inventory (NWI) maps along the Arkansas River between Keystone and the Salt Plains, as well as the Canadian River between Eufaula and Canton.
- Oklahoma Rapid Assessment Method (OKRAM) Integration: This project is funded by a WPDG to refine development of OKRAM, a condition based assessment tool for wetlands. Project highlights include (1) collection of an additional 30 OKRAM assessments at wetland types under-represented in our dataset, (2) compilation of 300+ OKRAM assessments into a database and publicly available web application, and (3) analysis of dataset to refine method.
- Restorable Wetlands Identification Protocol (RWIP): This project is funded by a WPDG to continue to develop and refine a desktop screening tool that can be used to identify wetland restoration opportunities. Project highlights include (1) remapping of restorable polygons using higher resolution datasets in 30 watersheds, (2) attributing restorable polygons with restoration feasibility resulting from hydrologic modification in 30 watersheds, and (3) data sharing through a web application.
- OKRAM Guidebook: This project is funded by a WPDG to develop guidance materials for OKRAM, to help promote usage of the method. Project highlights include (1) a detailed OKRAM guidebook, (2) digital training materials and an in-person training delivered in 2024, and (3) coordination with the United States Army Corps of Engineers (USACE) to help promote usage of OKRAM in CWA programs.
- National Wetlands Condition Assessment (NWCA) Intensification: NWCA is a component of the National Aquatic Resource Survey (NARS) conducted every 5 years. OCC is the lead contractor for data collection in Oklahoma. NWCA is funded by Clean Water Act 106 money. The most recent NWCA was completed in 2021, with a state intensification to enhance sample size to 50 wetlands in 2022. OCC will analyze data and summarize findings on the condition of Oklahoma wetlands in a report in 2023.

Blue Thumb in Pictures

August 2023

Teaching about Climate Change

Blue Thumb staff members and several Blue Thumb volunteers attended an informative workshop “Teaching about Climate Change” on August 5. Held at the National Weather Center in Norman, our own Project WET (Water Education Today), Project Learning Tree, South Central Climate Adaptation Center, and the Oklahoma Mesonet provided instruction.

LEFT: Candice Miller prepping participants for an activity about soil and carbon sequestration.

Summer Field Work that joins Blue Thumb Staff with Volunteers is the highlight and the biggest Blue Thumb accomplishment of each summer.

Staff members and dedicated volunteer Harrison are making a bug collection at Little River, Cleveland County. A fish collection has been made as well.

Little River in this location is very urban and is monitored by Blue Thumb Director Rebecca and new volunteer Adam Lewis.

This photo documents the bug collection from Little River. Fish collections and summer bug collections both fall within the same time frame

Libraries Love Lakes

Kim supported Norman's Central Library on July 29 as she was a speaker and leader for a workshop and local stream litter collection.

Woolaroc Summer Camp

Four groups of excited children visited the Blue Thumb station at Camp Woolaroc on July 26. The children very gently held the fish with moist hands—most had never held a fish before.

Blue Thumb training recruitment in Garfield County

Blue Thumbers Briant and Cheryl took to the road August 10 & 11 to let folks in Garfield County (and beyond) know that a Blue Thumb Training for new volunteers will be held there September 30 and October 1. If people are aware that Blue Thumb is coming to town, the trainings tend to do well.

The Icing on the Cake is when a new volunteer begins monitoring.

Tulsa area volunteer Michelle Merchant is now monitoring Rock Creek in Sapulpa. Rock Creek has a large amount of historic data on file.

Coal Creek in South Tulsa County now has an informative exhibit at the Glenpool Public Library. The exhibit includes handouts that offer a brief interpretation of the stream data, photo summary of the fish collected, and how to protect the stream.

Crow Creek—Mosey in the Meadow

Held on August 3rd, The Crow Creek Community got together at the meadow in Tulsa and visited with neighborhood folks about changes taking place to improve the Crow Creek Meadow.

It was nice and hot, attendees got free t-shirts, and they learned about efforts to make the meadow more inviting.

Spring Creek in Oklahoma County Fish Collection

Spring Creek as it flows through Martin Nature Park is a longtime Blue Thumb monitoring site with volunteer Debbie Adams at the helm! The fish collection held on August 16 included a nice gathering of OCC staff and the dedicated volunteer Harrison. Debbie has had knee replacement surgery so she is not back on site yet.

Many species were documented, including: silversides; pimephales minnows, suckermouth minnow; stonerollers, channel catfish; bass; crappie; longear sunfish; orangespotted sunfish; bluegill sunfish; red shiners; and a very feisty longnose gar. Among others.

Illinois River Watershed Partnership & Blue Thumb Monitoring in the Illinois River Basin

Quick benthic macroinvertebrate bioassessments continue to be completed on several tributaries to the Illinois River in NE OK. Using D-nets staff and volunteers collect the “creek bugs” and then sort them into categories and record the results. Blue Thumb and the Illinois River Watershed Partnership work together to gain this data. Streams pictured below are left: Battle Creek and right: Flint Creek.
