**TITLE 155. OKLAHOMA CONSERVATION COMMISSION**  
**CHAPTER 12. LAND MANAGEMENT**  
**SUBCHAPTER 1. GENERAL PROVISIONS**

**155:12-1-1. Purpose**

This Chapter sets forth provisions and requirements related to the different programs and projects of the Land Management Division pursuant to authority in Title 27A, Sections 3-1-101 et. seq. of the Oklahoma Statutes.

**155:12-1-2. Definitions**

The following words and terms, when used in this Chapter, shall have the following meaning, unless the context clearly indicates otherwise:

"AEMS" means Agricultural Environmental Management Services division within the Oklahoma Department of Agriculture, Food, and Forestry dedicated to working with producers and concerned citizens in protecting the state's soils, air, and waters from animal waste.

"Alternate restoration" means the return of lands disturbed by human-related activities to a post-land use other than that which existed before the activity. Alternate restoration must be stable and have utility.

"BMPs" means Best Management Practices. These practices are capable of protecting the environment while considering economic factors, availability, technical feasibility, ability to implement, and effectiveness.

"Commission" means the Oklahoma Conservation Commission as created by the Conservation District Act of 1971.

"District" means a conservation district which is a governmental subdivision of this State and a public body corporate and politic organized in accordance with the provisions of the Conservation District Act of 1971.

"Director" means the Director of the Land Management Division of the Oklahoma Conservation Commission.

"DSA" means driving surface aggregate which is a well-graded, unbound mixture of loosely compacted fragments or particles designed for use as a wearing course on unpaved roads and to achieve maximum density to resist erosion and traffic wear.

"Eligible Land and Water" means those lands and waters that are eligible, under the criteria outlined in Section 155:12-3-2, for land restoration.

"Emergency" means a sudden danger or impairment that presents a high probability of substantial physical harm to the health, safety, or general welfare of people before the danger can be abated under normal program operation procedures.

"ESP" means environmentally safe practices which are practices that are put in place to ensure that the surrounding environment is free from hazards that will impact the safety and well-being of the public, as well as prevent accidental environmental damage or erosion.

"ESM" means environmentally sensitive maintenance practices that reduce the impact of road runoff and sediment into local streams, while reducing long-term road maintenance costs.

"Extreme Danger" means a condition that could reasonably be expected to cause substantial physical harm to persons, property, or the environment and to which persons or improvements on real property are currently exposed.

"FEMA" means Federal Emergency Management Agency an agency within the Department of Homeland Security charged with responding to Presidentially declared disasters.

"French mattress" means a structure under a road consisting of clean coarse rock wrapped in geotextile through which water can freely pass. French Mattresses are used in saturated soils, such as in wetlands, to support the roadbed while allowing unrestricted water movement.

"Hard rock mining" means uncovering and extracting non-fuel metal and mineral deposits of solid ores or eroded deposits in igneous or metamorphic terrains or streambeds. Some common hard rock minerals mined are copper, gold, iron ore, lead, molybdenum, phosphate rock, platinum, potash, silver, uranium, zinc, sand, and gravel.

"Land Management" means an activity to preserve or repair the function of previously disturbed land or water channels.

"Logjam" means an accumulation of lodged trees, root wads, or other debris that impedes the ordinary flow of water through a waterway and that is: (1) Causing or threatening to cause flooding on a road or private property. (2) Impeding navigation by a boat. (3) Reducing the capacity of a waterway to transport water. The term does not include the development of sandbars, sedimentation, or accumulations of stone or gravel.

"Mineral" means any metalliferous material extracted from the earth, including gold, silver, copper, molybdenum, zinc, lead, and other materials that are used as feedstocks in producing metalliferous materials.

"NMP" means Nutrient Management Plan which is a plan that is developed to manage the amount or rate, source, placement, method of application, and timing of plant nutrients and soil amendments. The purpose is to budget, supply, and conserve nutrients for plant production.

"ODAFF" means the Oklahoma Department of Agriculture, Food, and Forestry which is an agency of the state of Oklahoma charged with protecting and promoting agriculture, agricultural goods, and natural resources.

"Permanent facilities" means any structure that is built, installed, or established to serve a particular purpose or any manipulation or modification of the site that is designed to remain after the land restoration is completed, such as a relocated stream channel or diversion ditch.

"Program" or "Land Management Program" means the program established by the State for the restoration, repair, reclamation, improvement, modification, or alteration of land and/or water adversely affected by human activity or natural processes (i.e., mining, logjams, erosion)

"Restoration" means measures that are taken on surface disturbances to achieve stability and safety consistent with post-land use objectives.

"Soil" means topsoil, suitable substrate, or other plant growth media that will sustain vegetation.

"Stability" means the condition of land concerning its erosion potential and ability to withstand seismic activity.

"Surface disturbance" means clearing, covering, or moving land using mechanized earth-moving equipment for exploration, development, and production purposes but does not include surveying, assessment and location work, seismic work, maintenance, and other activities that create a de minimis disturbance.

"Unpaved road" means surfaces of natural material or crushed aggregate that have not been incorporated into a bound layer using asphalt, oil, or other such binder.

### **SUBCHAPTER 3. LAND RESTORATION**

#### **155:12-3-1. Land restoration**

Land restoration is the ecological process of restoring a natural and safe landscape for humans, wildlife, and plant communities. This process protects our ecosystems, creates economic development, helps prevent natural disasters such as floods, and increases soil health, productivity, and food supplies.

### **155:12-3-2. Eligibility**

(a) Lands are eligible for restoration that have a continuing condition that substantially degrades the quality of the environment, prevents or damages the beneficial use of the land, natural resources, or water resources, or endangers the health or safety of the public.

(b) In addition to paragraph (a), mined lands including hard rock mining, and associated waters are eligible for land restoration if:

- (1) Mined or affected by mining processes; and
- (2) Abandoned either unreclaimed or inadequately reclaimed; and
- (3) No continuing responsibility for reclamation exists by the operator, permittee, or agent of the permittee under the statutes of the State.

### **155:12-3-3 Mine restoration objectives and priorities**

Land Management projects related to mining shall meet one or more of the objectives stated in this Section. Preference among those projects competing for available resources shall be given to projects meeting higher priority objectives. The following objectives are stated in the order of priority with the highest priority first:

(1) **Priority 1.** The protection of public health, safety, and property from the extreme danger of adverse effects of mining practices, including the restoration of land and water resources and the environment that:

- (A) Have been degraded by the adverse effects of mining practices; and
- (B) Are adjacent to a site that has been or will be addressed to protect the public health, safety, and property from the extreme danger of adverse effects of mining practices.

(2) **Priority 2.** The protection of public health and safety from adverse effects of mining practices, including the restoration of land and water resources and the environment that:

- (A) Have been degraded by the adverse effects of mining practices; and
- (B) Are adjacent to a site that has been or will be addressed to protect the public health and safety from adverse effects of mining practices.

(3) **Priority 3.** The restoration of land and water resources and the environment previously degraded by adverse effects of mining practices, including measures for the conservation and development of soil, water (excluding channelization), woodland, fish and wildlife, recreation resources, and agricultural productivity. Priority 3 land and water resources that are geographically contiguous with existing or remediated Priority 1 or 2 problems will be considered adjacent under paragraphs (a)(1)(A) or (a)(2)(B) of this Section.

### **155:12-3-4. Land management project evaluation criteria**

Proposed land restoration projects and completed restoration work shall be evaluated in terms of the factors stated in this Section. This evaluation will be undertaken by the Director. The factors shall determine whether or not proposed land restoration will be undertaken and to assign priorities to proposals intended to meet the objectives in terms of factors set forth below as a means of identifying conditions that should be avoided, corrected, or improved in plans for future land restoration. The factors for consideration include:

- (1) The need for restoration work to accomplish one or more specific land management objectives.
- (2) The availability of technology to accomplish the land restoration with reasonable assurance of success. In the case of research and demonstration projects, the research capability and plans shall provide reasonable assurance of beneficial results without residual adverse impacts.
- (3) The specific benefits to be considered when evaluating restoration projects shall include but are not limited to eligibility in 155:12-3-2, and the mine restoration objectives and priorities in 155:12-3-3.
- (4) The acceptability of any additional adverse impacts to people or the environment that will occur during or after restoration and of uncorrected conditions, if any, that will continue to exist after the land restoration is completed.
- (5) Consideration shall be given to both the economy and efficiency of the improvements and to the results obtained or expected as a result of the restoration.
- (6) Landowner(s) acceptability to the restoration of the land.
- (7) The availability of additional mineral or material resources within the project area that:
  - (A) Indicates a reasonable probability that the desired land improvements will be accomplished during the process of future mining.
  - (B) Requires special consideration to ensure that the resource is not lost as a result of the restoration and that the benefits of the restoration are not negated by subsequent, essential resource recovery operations.
- (8) The acceptability of post-restored or improved land uses in terms of compatibility with land uses in the surrounding area, consistency with applicable State, regional, and local land use plans and laws, and the needs and desires of the community in which the project is located.
- (9) The probability of post-land management, maintenance, and control of the area consistent with the improvements once completed.

#### **155:12-3-5. Rights of entry**

- (a) This Section establishes procedures for entry by the Commission for land restoration purposes.
- (b) Written consent from the owner of record and lessee, or their authorized agents, is the preferred means for obtaining agreements to enter lands in order to carry out land restoration activities.
- (c) The Commission, its agents, employees, or contractors may enter upon land to perform land restoration, make improvements, or conduct studies or exploratory work to determine the existence of the adverse effects of past mining or land damage, if consent from the owner is obtained.

#### **155:12-3-6. Revegetation standards**

The Commission will restore lands that can include a variety of possible uses like production agriculture, wildlife habitat, grasslands, and native wooded areas.

- (1) Where surface disturbances result in compaction of the soil, ripping, disking, or other means shall be used in areas to be revegetated to reduce compaction and to establish a suitable root zone in preparation for planting.
- (2) Revegetation shall be conducted to establish plant species that will support the approved land use. The establishment of vegetation species, density, or diversity that is different than

pre-existing conditions or on adjacent lands shall constitute successful reclamation if any of the following apply:

(A) The post-land use is different from the pre-land use or the use of adjacent lands;

(B) The site-specific nature of the surface disturbance, including soil conditions and topography, is such that the establishment of pre-existing or adjacent conditions is not technically or economically practicable; or

(C) The establishment of different species is preferable for the control of erosion.

(3) Planting shall be conducted during the most favorable period of the year for plant establishment.

(4) Soil stabilizing practices or irrigation measures, or both, may be used to establish vegetation.

(5) This Section only applies if vegetation or revegetation measures are included in the approved restoration plan.

### **155:12-3-7. Off-site soil**

Soil may be brought in from off-site locations, and may include any growth media that will support vegetation, will provide a stable growing surface, and will not create a hazard to public safety.

## **SUBCHAPTER 5. UNPAVED ROADS PROGRAM**

### **155:12-5-1. Purpose of unpaved roads program**

(a) The purpose of the Unpaved Roads Program is to create a better unpaved road system with a reduced negative environmental impact on priority water resources in Oklahoma. The Program focuses on best management practices (BMPs) that reduce the impact of sediment and road runoff into streams, rivers, and drinking water supplies while reducing long-term unpaved road maintenance costs.

(b) The Program is designed to fund work on public roads with unbound road surfaces also known as unpaved roads. For the Program, driving surface aggregate (DSA) is NOT considered “paved” even though the material looks similar to pavement/concrete and is laid with paving equipment, however, it has no binding agent.

(c) Public entities that own and maintain public roads in Oklahoma that are open to public vehicle travel at least eight (8) consecutive weeks a year are eligible to apply for grants for Program funding.

(d) Counties are the primary applicants for Program funding. Other unincorporated areas with public, unpaved roads can also apply for funding as long as the entity has the capacity to implement and manage a Program grant.

### **155:12-5-2. Program goals**

The Commission’s program goals are to:

(1) Fund safe, efficient, and environmentally sound projects for the maintenance of unpaved roads that have been identified as possible contributors of sediment in Oklahoma streams.

(2) Provide training on techniques of unpaved road maintenance that minimize negative impacts to water and on air quality.

### **155:12-5-3. Application ranking criteria**

Applications will be reviewed and ranked with preference given to projects in priority watersheds. The application criteria in order of priority given are:

- (1) A water body listed as impaired on Oklahoma's 303(d) list;
- (2) A water body containing an aquatic species listed as threatened, endangered or a candidate species by the Federal Government;
- (3) A water body used as a drinking source for people;
- (4) A water body used as an interstate waterway;
- (5) A water body important to agricultural or pasture land use; and
- (6) A water body important to forestry land use.

#### **155:12-5-4. Project eligibility**

- (a) To be eligible for funding under this program, the applicant's project must focus on:
  - (1) Both unpaved road improvements and sediment reduction that is negatively impacting, or could negatively impact a named, priority water body covered by the program; and/or
  - (2) Worksites (identified pollution sites) and environmentally safe practices (ESP) to reduce pollution while providing a more stable unpaved road.
- (b) The applicant must have at least one person certified in ESM practices on staff.
- (c) Only projects that provide some form of environmental benefit, typically by reducing sediment and concentrated drainage to waterways, will be considered for funding.

#### **155:12-5-5. Ineligible projects**

- (a) Projects not eligible for funding consideration under the Unpaved Roads Program include, but are not limited to:
  - (1) Roadways that have bound surfaces including oil, asphalt, concrete, or any mixture of sealed aggregate.
  - (2) Roadways that are not negatively impacting a priority body of water.
  - (3) Public roads that are open to the public for less than eight (8) consecutive weeks.
  - (4) Any and all private roads.
- (b) Applicants are not eligible for an Unpaved Roads Grant if the applicant or county has an Unpaved Roads Grant currently open. Once the grant closes, applicants are eligible to re-apply.

#### **155:12-5-6. Environmentally sensitive maintenance**

- (a) An Environmentally Sensitive Maintenance (ESM) certified person must be in charge of work plan development and project implementation for the applying entity. ESM training for the program is a one-day course that covers the road maintenance practices employed by the program.
- (b) ESM training is made available at no cost to potential grant applicants such as county Commissioners, county roads personnel, and other interested parties. It is highly recommended that all persons representing the county who have a significant role in the program attend ESM training, including county administrative staff. ESM training must be taken once every three (3) years to maintain certification and an approved Local Technical Assistance Program (LTAP) course on years when no ESM course is taken.
- (c) Some examples of ESM principles are as follows:
  - (1) **Road/Stream Interactions.** ESM practices for stream crossings focus on reducing the sediment delivery to a river or lake, riverbank stability issues, and the river crossing itself. Practices such as high water bypasses, French mattresses, proper stream crossing sizing, better

bridge and pipe design, and in-stream flow control structures can be effectively used to stabilize the unpaved road or stream interface.

**(2) Unpaved Road Surface.** ESM practices for the unpaved road surface include drainage control and improved aggregate. Drainage control starts with proper crown and cross-slope but also includes practices such as grade breaks, berm removal, and broad-based dips. Improved surface aggregate focuses on the driving surface aggregate and includes maintenance concerns such as grading and pothole repair.

**(3) Unpaved Road Base.** Practices that improve the base of a road include mechanical base improvements, underdrains, French mattresses, road elevation increase, and in some cases full-depth reclamation.

**(4) Vegetation Management.** Practices that manage vegetation in a sustainable manner will reduce erosion from the unpaved road area and save on future maintenance costs associated with tree trimming and cleanup. Practices include selective thinning, proper pruning, seeding and mulching, and managing vegetation for long-term stability.

**(5) Unpaved Road Bank Management.** Practices that stabilize the upslope or downslope road bank include slope reinforcement, filling the road profile, naturalizing bank shape, and natural or mechanical slope reinforcement.

**(6) Unpaved Road Ditch and Outlet Stabilization.** ESM practices for ditches include anything that reduces the flow in the ditch. The simplest of these practices is to provide more drainage outlets in the form of new turnouts and cross pipes. Selecting locations to outlet water and choosing the proper outlet stabilization methods is also important. Other practices such as rock check dams, berm removal, and filling the road profile in an attempt to eliminate ditches completely and promote sheet flow. Practices to reduce the effect of subsurface flow such as underdrains are also important.

**(7) Bridges.** Applying ESM practices to the construction and maintenance of bridges located on unpaved roads.

### **155:12-5-7. Eligible project expenses**

**(a)** Applicants may apply for the full or partial costs of materials, equipment, and labor required for the implementation of the grant project. Salaries and other associated personnel expenses are not eligible. Eligible grant fund caps, labor expense information, and other specific program requirements will be provided in the program year guidelines issued by the Commission.

**(b)** Material expenses on a project include but are not limited to items such as pipe, stone, fill, fabric, aggregate, etc. Products with the potential ability to leach off the road (such as dust suppressants) must meet Oklahoma state standard requirements for non-pollution.

**(c)** Program projects are often completed with applicant-owned equipment. In most cases, this will be county-owned equipment. Reimbursement of applicant-owned equipment costs may be an eligible expense under the Program as:

**(1)** Accepted Federal Emergency Management Agency (FEMA) rates if submitted with the grant application;

**(2)** Legitimate quote or invoice acceptable by the Commission; or

**(3)** Approved labor expenses as set out in the program year guidelines.

**(d)** Projects may require equipment that the applicant does not own. It may be an eligible expense for an applicant to rent or lease equipment necessary to complete a project with program funds. Equipment rented or leased with program funds can only be used on the project for which it was

rented or donated. Grant funds from the program cannot be used to purchase or maintain equipment.

(e) Some projects may be completed entirely by a subcontractor where no unpaved road work is performed by the applicant. Applicants should follow standard procedures regarding project bidding and working with sub-contractors. The Commission will make payments to the grant recipient, not directly to the grant recipient's sub-contractors.

(f) Most projects will require permits, engineering, or consultant work to design and complete.

(g) Each program year the Commission shall establish and issue program guidelines that specify what practices and expenses shall be approved and covered by the program's funds.

#### **155:12-5-8. Funding availability**

Applicants with an eligible project may apply for the program year cap amount in state-matching funds toward a single project. As the grant pool monies are limited, the Commission may award less than the amount requested.

#### **155:12-5-9. Matching requirement**

(a) All proposed and funded projects are required to have at least a 1:1 match contribution.

(b) In-kind goods and services committed by the county will include without limitation labor, equipment use, materials, and services.

(c) Donations from private entities and other program stakeholders can be applied to meet or exceed the programmatic matching requirements. Other sources of funds that will benefit a county's grant applications are encouraged.

(d) All matching funds must be pledged at the time of application submission and be immediately available if an award is received.

(e) Donated labor cannot count as match if it is executed before the grant is awarded.

(f) Debt financing of any nature and proceeds from any other state grant programs cannot be used for matching purposes.

(g) Proof must be shown that the entire project can be funded.

#### **155:12-5-10. Pre-application**

(a) Applicants are encouraged to conduct pre-application site visit meetings with Commission staff to discuss the potential project and look at the potential project on-site before an application is submitted for funding in excess of \$25,000. A pre-application meeting aims to work jointly with the applicant to ensure the plan submitted is in the best interest of both entities. The pre-application meeting allows the Commission to provide input on the potential project at an early stage before the applicant has invested a large amount of time and resources in developing a worksite plan. Topics to discuss at the pre-application meeting would include but not be limited to:

(1) Environmental concerns,

(2) Permitting requirements,

(3) Funding availability,

(4) Potential landowner issues, and

(5) Scope and design of project.

(b) The Commission, at its discretion, may refuse to accept incomplete applications or applications that do not properly address environmental issues or other program or project requirements.

#### **155:12-5-11. Application**

- (a) A complete grant application should include the following:
  - (1) **Cost estimate.** The cost estimate breakdowns and budget tables should include both the requested grant funds and matching funds. The minimum matching requirement ratio is 1:1. Every grant dollar must be matched with at least one dollar of non-grant funds.
  - (2) **Work plan.** A work plan that consists of a hand-drawn or digitally produced sketch of the proposed project. A work plan of the road should include all planned features such as pipes, aggregate, underdrain, surface features, etc. Applicants may use the space provided on the back of the grant application for the work plan.
  - (3) **Map.** A map that identifies where the project is located with a clear delineation of the water body that will be impacted by the project needs to be included. The water body must be named.
  - (4) **Documentation.** The general program agreements, resolutions, and forms must be completed and included.
  - (5) **EMS practices.** A planned list of ESM practices to be utilized on the project.
- (b) Applications that the commission deems complete and potentially acceptable to the Program will be reviewed, ranked, prioritized, and funded accordingly.
- (c) All applications for funding must be approved by the Commission.
- (d) All applicants shall be notified in writing of the funding decisions of the Commission.
- (e) A county cannot begin on any part of the project until they have received their grant approval letter.

**155:12-5-12. Project field data**

- (a) All approved and funded projects shall require site visits by the Commission or assigns.
- (b) Roadside erosion predictor data sheets will be completed:
  - (1) before the project begins, and;
  - (2) five (5) days after the project completion date.
- (c) Roadside erosion predictor analysis will be used to produce sediment reduction yields. Repeatable photo points will be installed during site visits. Approximately one year later Program staff will return to the project site to perform a project walk-through to ensure the project is still operational and reducing sediment. Photo points will be repeated. Program staff will complete a simple project completion report worksheet that will summarize the project implementation to ensure the grant was completed to achieve the grant objectives.
- (d) A final inspection must be scheduled on-site involving the Commission and the grant recipient. Final inspections should be completed within five (5) days after work is complete, so any remediation can be done while equipment is still on site. Other entities such as Program stakeholders, and sub-contractors to the grant recipient should be encouraged to participate. The purpose of the final inspection is to verify:
  - (1) Completion of the project according to program standards and the satisfaction of the Commission;
  - (2) Completion of all “in-kind services” in accordance with program standards and the satisfaction of the Commission; and
  - (3) Proper installation of the proposed work elements contained in the work plans.
- (e) Once the final inspection is completed the Commission shall summarize the project work elements and include cost documentation provided by the applicant to the Project Completion Report.

**SUBCHAPTER 7. LOGJAMS**

### **155:12-7-1. Benefits and harms**

Logjams occur naturally and can provide beneficial stream structure and cover for fish and wildlife as well as contributing to nutrient-rich sediment being deposited on adjacent floodplains. In many cases, the ripples caused by obstructions oxygenate the water to improve water quality. However, streams are also expected to function as efficient drainage outlets, conveying water off the land in a timely manner. Logjams may inhibit this drainage function resulting in increased flooding, destruction of property, negative impacts on some wildlife habitats, and increased erosion and sedimentation.

### **155:12-7-2. Evidence of logjam**

Logjams are evidenced by a blockage that does any of the following:

- (1) Traverses the waterway,
- (2) Causes upstream ponding,
- (3) Results in significant bank erosion, or
- (4) Endanger infrastructure.

### **155:12-7-3. Condition classifications**

The Commission recognizes five (5) condition classifications for logjams. They are as follows:

- (1) **Condition 1.** A single log located either in or across the waterway channel.
- (2) **Condition 2.** Two or more logs in or across the channel. The accumulated logs are interlocked, but there is no sediment build-up or debris collecting at the site in the channel.
- (3) **Condition 3.** Two or more logs in or across the channel. The accumulated logs are interlocked and sediment and debris have begun to collect on the jam. There is still water movement through the logjam.
- (4) **Condition 4.** Two or more logs in or across the channel. The accumulated logs are interlocked and sediment and debris have compacted into the logjam. There is no water movement through the logjam. The logjam acts as a dam, holding back water within the channel; water movement is now through the overbank areas rather than the channel.
- (5) **Condition 5.** Logjam is located on a waterway within an area providing significant environmental benefit or within a critical area for fish spawning.

### **155:12-7-4. Evaluation for removal**

Logjams or other in-stream obstructions should be looked at closely and evaluated to determine if the obstruction should be removed by the Land Management Division. Factors to consider include but are not limited to:

- (1) Available Funding,
- (2) Conditions of the logjam,
- (3) Severity,
- (4) Local impacts, and
- (5) Analysis of the benefits.

## **SUBCHAPTER 9. CONSERVATION PLANNING PROGRAMS**

### **155:12-9-1. Purpose**

The purpose of these programs is to assist Oklahoma producers and growers with developing Conservation and Nutrient Management Plans that promote environmental stewardship and meet state regulatory requirements.

#### **155:12-9-2. NMP program perimeters**

(a) The Commission shall assist in the hiring and placement of nutrient management planners in conservation districts where plans are needed.

(b) The Commission shall review and determine which applications for plans will be accepted and denied. The Commission shall consider, but not be limited to, looking at:

- (1) available manpower,
- (2) reasonableness of projected timeframes,
- (3) scope of the NMP,
- (4) complexity,
- (5) type of operation, and
- (6) ability of the Commission's planners to produce a quality NMP.

(c) NMPs shall be written to expire every six (6) years.

#### **155:12-9-3. Process**

(a) The NMP request form shall be available online for completion and submission by applicants.

(b) The completed application will be reviewed by the Director for acceptance or denial.

(c) If accepted the applicant and ODAFF shall receive an electronic Notice of Intent (NOI) from the Commission and an NMP planner will be assigned to develop and write the NMP.

(d) If the application is denied, the applicant shall receive an electronic Notice of Denial (NOD) from the Commission.

(e) The planners shall submit their completed NMP draft to the Director for review and comment.

(f) The Director shall return the NMP to the planner for corrections and changes if any are required.

(g) If the Director approves the plan then the plan is sent to AEMS for its approval.

(h) Once approved by the Director and AEMS, a meeting is set with the grower to review the plan, acquire signatures, and submission of a copy of the signature page to AEMS to meet ODAFF requirements.

(i) Once the NMP is approved as complete by the Director, the Director shall verify with the District that all requirements are met and the NMP released to the applicant.

#### **155:12-9-4. District partnership**

The Commission shall partner with conservation districts to get planners hired, housed, and writing plans. The conservation districts shall be primarily responsible for:

- (1) Keeping and tracking all the NMP funds in a separate bank account from other district funds.
- (2) Keeping the Commission apprised of the funds.
- (3) Following program guidelines.
- (4) Housing planners.

#### **155:12-9-5. Conservation planners**

(a) For many state and federal cost-share programs, a conservation plan is required. However, the state has not had enough conservation planners to meet the needs of producers.

(b) The Commission shall assist districts in the hiring and placement of conservation planners across the state. These planners will work with producers to develop and write these plans.

(c) The Commission shall serve as the primary coordinator and overseer for the training and certifications required for these conservation planners.

## **SUBCHAPTER 11. INVASIVE WOODY SPECIES PROGRAMS**

### **155:12-11-1. Purpose**

The Commission shall assist in the managing and reduction of red cedars and other invasive woody species in an effort to protect our water supply, grazing lands, and wildlife habitat, to reduce wildfire risk, and show proof of concept for cedar removal impacts. In addition, the Commission will work to increase public awareness of the impact of these invasive species, increase support for the use of prescribed fire as a management tool, and provide a return on investment that will result in continued funding for the expansion of managing practices across the state.

### **155:12-11-2. Terry Peach North Canadian Watershed Restoration Act**

(a) The Commission shall administer the Terry Peach North Canadian Watershed Restoration Act. Under this Act, the Commission shall:

- (1) Cooperate with landowners, state agencies, and other political subdivisions for the removal of invasive woody species;
- (2) Share costs with landowners for expenses incurred;
- (3) Measure the density of invasive woody species and determine its water usage;
- (4) Establish at least two active project areas; and
- (5) Develop grant programs with districts, rural fire departments, and prescribed burn associations.

(b) The Commission will focus on the following invasive woody species under this project:

- (1) Eastern Redcedar;
- (2) Rocky Mountain Juniper;
- (3) Oneseed Juniper; and
- (4) Salt Cedar.

(c) The Commission shall use the following three (3) prong approach to manage these invasive woody species:

- (1) Data collection and research;
- (2) Increase use of prescribed burns; and
- (3) Wildfire damage prevention.

(d) Under this program the Commission shall partner with conservation districts. The conservation districts shall:

- (1) Serve as the local contact with landowners;
- (2) Conduct outreach;
- (3) Engage additional partners;
- (4) Provide staff support, office space, and homing of equipment;
- (5) Work with the Commission to process payments; and
- (6) Check the maintenance of practices.

### **155:12-11-3. Program expansion**

The Commission will work to implement new and expanding programs to combat the spread of invasive woody species. This could include the expansion of the Terry Peach North Canadian Watershed Restoration Act practices to other watersheds, the creation of a cost-share program, or any other beneficial program. The Commission will develop program year guidelines, standards, and specifications that are ecologically and geographically specific.

**155:12-11-4. Cooperation**

The Commission and the conservation districts are encouraged to work cooperatively with federal and state agencies, tribes, OSU extension, burn associations, and other entities to reduce the footprint of woody invasion plants and the impacts the plants have on state waters and natural resources.

## RULE IMPACT STATEMENT

### TITLE 155. OKLAHOMA CONSERVATION COMMISSION CHAPTER 12. LAND MANAGEMENT

(A) **PURPOSE OF THE PROPOSED RULE:**

The purpose of these new rules is to provide guidance, procedures, goals, and processes regarding the new programs in our Land Management Division. The programs being developed and implemented are meant to meet the needs of producers, counties, and landowners, as well as provide positive benefits to all Oklahomans. The rules cover a number of areas: damaged lands eligible for restoration including deserted hard rock mines; the purpose, goals, criteria, eligibility, and application process of counties for funding on unpaved roads; outlining the evaluation of natural logjams in Oklahoma waterways for possible removal; meeting the nutrient management and conservation planning needs of producers; and rules for implementing the Terry Peach North Canadian Watershed Restoration Act.

(B) **CLASSES OF PERSONS WHO MOST LIKELY WILL BE AFFECTED BY THE PROPOSED RULE AND ANY INFORMATION ON COST IMPACTS RECEIVED BY THE AGENCY FROM ANY PRIVATE OR PUBLIC ENTITIES:**

These rules have been created to meet the needs of producers, counties, and landowners, as well as provide positive benefits and effects to all Oklahomans. One program is geared toward providing funding to landowners to restore damaged lands. Another provides funding opportunities to counties for unpaved roads. The rules establish an evaluation process for natural logjams in our waterways, assist conservation districts in placing nutrient management and conservation planners in the districts for use by producers, and implement the Terry Peach North Canadian Watershed Restoration Act.

(C) **PERSONS WHO WILL BENEFIT FROM THE PROPOSED RULE:**

The new rules will benefit producers, counties, and landowners, as well as provide positive benefits and effects to all Oklahomans.

(D) **DESCRIPTION OF THE PROBABLE IMPACT OF THE PROPOSED RULE UPON AFFECTED CLASSES OF PERSONS:**

It will provide more funding opportunities to landowners with damaged lands, to counties with unpaved roads, and to counties with logjams that are impacting roads and bridges. It will also help bring producers into compliance with state and federal cost-share requirements, as well as, with ODAFF regulations on animal waste by providing more producers with more plan writers. Lastly, these rules will implement the state's first attempted legislation to reduce and study the impacts of invasive woody species in the North Canadian watershed.

(E) **PROBABLE COST AND BENEFITS TO AGENCY; SOURCE OF REVENUE FOR IMPLEMENTATION AND ENFORCEMENT OF THE PROPOSED RULE:**

No additional costs to the agency are anticipated by the new rules.

(F) **DETERMINATION OF WHETHER IMPLEMENTATION WILL HAVE ANY ECONOMIC IMPACT ON ANY POLITICAL SUBDIVISION OR REQUIRE THEIR COOPERATION IN IMPLEMENTING OR ENFORCING THE PROPOSED RULE:**

Conservation districts are a major partner of the Commission in implementing conservation programs and practices in Oklahoma per the Conservation District Act. Districts are aware of these programs and agreements are in place to provide these services.

(G) **DETERMINATION OF WHETHER IMPLEMENTATION OF THE PROPOSED RULE WILL HAVE AN ADVERSE EFFECT ON SMALL BUSINESS AS PROVIDED BY THE OKLAHOMA SMALL BUSINESS REGULATORY FLEXIBILITY ACT:**

Any adverse effects or impacts on small businesses are not anticipated.

(H) **DETERMINATION OF WHETHER THERE ARE LESS COSTLY METHODS OR NON-REGULATORY METHODS FOR ACHIEVING THE PURPOSE OF THE PROPOSED RULES:**

All the programs are voluntary non-regulatory programs that move conservation and the protection of natural resources forward in the state. The agency is unaware of any other methods to achieve the purpose of these programs.

(I) **DETERMINATION OF THE EFFECT OF THE PROPOSED RULE ON THE PUBLIC HEALTH, SAFETY, AND ENVIRONMENT:**

The Commission anticipates the new proposed rules will positively affect public health, safety, and the environment.

(J) **DETERMINATION OF ANY DETRIMENTAL EFFECT ON THE PUBLIC HEALTH, SAFETY, AND ENVIRONMENT:**

No detrimental effect on public health, safety, or the environment is anticipated by the adoption of these new rules.

(K) **DATE RULE IMPACT STATEMENT WAS PREPARED:**

This rule impact statement was prepared on September 5, 2023

**SUMMARY:**

These new rules cover new and growing programs within the Land Management division of the Oklahoma Conservation Commission. The programs being developed and implemented are meant to meet the needs of producers, counties, and landowners, as well as provide positive benefits to all Oklahomans. The rules cover a number of areas: damaged lands eligible for restoration including deserted hard rock mines; the purpose, goals, criteria, eligibility, and application process of counties for funding on unpaved roads; outlining the evaluation of natural logjams in Oklahoma waterways for possible removal; meeting the nutrient management and conservation planning needs of producers; and rules for implementing the Terry Peach North Canadian Watershed Restoration Act.

**AUTHORITY:**

Oklahoma Conservation Commission and the Conservation District Act; 27A O.S. §§3-1-101 et seq.; and more specifically 27A O.S. §3-8-103.

**COMMENT PERIOD:**

Persons may submit written comments through the conclusion of the public hearing on December 19, 2023.

**PUBLIC HEARING:**

A public hearing will be held to provide an opportunity for persons to present their views. Each person will be allowed a maximum of 5 minutes to speak and must sign in at the door. The public hearing has been scheduled for 11:00 a.m. on December 19, 2023, in the Oklahoma Department of Agriculture, Food, and Forestry Building, Room 201 located on the second floor at 2800 N. Lincoln Boulevard, Oklahoma City, Oklahoma 73105.

**REQUESTS FOR COMMENTS FROM BUSINESS ENTITIES:**

Business entities affected by these proposed rules are requested to provide the agency with information, in dollar amounts if possible, about the increase in the level of direct costs, indirect costs, or other costs expected to be incurred by the business entity due to compliance with the proposed rule. Business entities may submit this information in writing to the contact person before the close of the comment period on December 19, 2023.

**COPIES OF PROPOSED RULES:**

Copies of the proposed rule may be obtained by visiting <https://conservation.ok.gov/about/#rules> or by requesting copies from the contact person.

**RULE IMPACT STATEMENT:**

Pursuant to 75 O.S., §303(D), a rule impact statement has been prepared and is available at the same location listed above for obtaining copies of the proposed rules.

**A. Code of Conduct**

All employees are expected to conduct themselves in accordance with the Commission’s core values of service, integrity, and quality. The Executive Director, Assistant Director, and all Commissioners are leadership roles vital to maintaining the operations and the reputation of the Commission. As such these leadership positions shall be held to the highest level of professional conduct. All employees including the Commission’s leadership shall comply with federal and state laws, rules and regulations, and all Commission policies. Employees and leadership shall avoid actual breaches of ethics and the perception of unethical behavior. In performing official activities the employees and leadership shall pursue the common good, and, not only be impartial but act so that there can be no question of impartiality. Employees who violate this policy are subject to discipline, up to and including termination. Leadership should expect immediate termination for any violations of this policy.

It is not possible to draft a code of conduct policy that answers every question, nor is it possible to eliminate every gray area of interpretation. Employees shall identify any personal conduct or interest that might be criticized as a violation of the Commission's Code of Conduct and consult with their supervisor and/or agency Administration for final interpretation and application of policy.

Conduct that violates the spirit of this policy will not be tolerated merely because an employee states later that he or she did not think the conduct was wrong or technically in violation of this policy. The only safe and sure defense to corrective discipline is full disclosure and an opinion by the Administration.

**B. Misconduct**

Employees shall fulfill the duties of employment and shall behave at all times in a manner befitting the position the employee holds. Employees shall devote full time, attention, and effort to their assigned duties during work hours. Misconduct including, but not limited to, the violation of any Commission rule or policy will not be tolerated and may result in disciplinary action.

**C. Financial Conflicts and Conflicts of Interest**

Employees shall not accept money or other compensation from anyone, other than the state, for the performance of employee's duties. Employees shall avoid preferential treatment for any person, using public office for personal gain, or adversely affecting the confidence of the public in the integrity of the Commission. Employees shall not engage in any employment, activity, or enterprise that has been determined to be inconsistent, incompatible, or in conflict with his or her duties at the Commission.

Employees shall not engage in activities that involve the use of state time, facilities, equipment, and supplies; or, the badge, uniform, prestige, or influence of one's state office or employment for private gain or advantage.

#### *Rule 4 Conflicts of Interest*

Certain employees are required to register and pay administrative fees if they are the Commission's principal legislative liaison(s) pursuant to the Annotated Ethics Rules, Rule 5 Lobbyist Registration and Reporting

#### [Rule 5 Lobbyist Registration and Reporting](#)

#### **D. Outside Employment**

No employee may accept any other employment from, or sell any goods or services to, any organization or person that might be viewed as impairing their independence or judgment in connection with their responsibilities at the Commission. Nor shall an employee engage in outside employment that conflicts with their regular work hours at the Commission or diminishes their effectiveness or energy in addressing job responsibilities. No employee shall accept any commission or other form of compensation from anyone who practices before the Commission, for mediating any issue, for finding a buyer of goods or services, or for any other consideration.

Employees may not work for another employer (including any business owned or operated by the employee personally) during normal Commission work hours or while on any leave program other than those which can be taken as personal time off (annual leave, compensatory time, and holiday time).

#### **E. Community Service**

Employees are encouraged to participate in community events and to be active in community projects, e.g. United Way, food drives, and preservation programs. Employees are also encouraged to belong to and participate in the affairs of professional organizations and profession-oriented nonprofit service organizations like those dedicated to preserving or protecting our state's natural resources or the environment. However, employees who belong to such organizations should disqualify themselves from participating in any decision-making process within this agency which directly affects the organization to which they belong.

#### **F. Confidential Information**

No employee shall disclose any confidential information to which he or she has access to any organization or person not entitled to have the information. No employee may use their access to confidential information for personal gain or profit. This policy does not prohibit the release of records as provided in the Oklahoma Open Records Act and does not diminish any whistleblower protections permitted by law.

#### **G. Accepting Gratuities**

No state officer and no state employee shall, directly or indirectly, ask, demand, exact, solicit, seek, accept, assign, receive, or agree to receive anything of value for the state officer or employee or any other person or entity, in return for being influenced in the performance of an official act; influenced to commit, aid in committing, collude in, or allow fraud, or make an opportunity for the commission of fraud on a governmental entity; or, induced to perform or fail to perform an act in violation of the state officer's or state employee's official duty.

#### **H. Photo Identification Card and Other State Property**

An employee's photo ID is the property of the Commission and should be kept securely. Upon the termination of employment, employees are expected to return any ID cards, key(s), and other supplies, equipment, and state property issued before receiving a final paycheck. Notify your supervisor immediately if any state property is lost or stolen.

#### **I. Privacy**

Office desks, file cabinets, and other furniture and equipment provided by the State are not private. Employees must be sure that other authorized employees have access to any files, forms, or other materials that may be needed to conduct agency business.

## **Conservation District Issues:**

**Responded to issues and questions for or on behalf of the following conservation districts:**

Adair CCD, Cherokee CCD, Dewey CCD, East Canadian CD, Garvin CCD, Grady CCD, Le Flore CCD, Logan CCD, Love CCD, Major CCD, Mayes CCD, Noble CCD, North Fork of Red River CD, Sequoyah CCD, Tulsa CCD, and Upper Washita CD

## **Responded to questions or issues by conservation districts regarding the following topics:**

Drafted letter to Landowners explaining easement and district's right to access and modify the dam, garnishment paperwork, review if serving on excise board is a conflict with serving on the district board, response on public attending an open meeting, discussions with district and Realtor regarding building home below Cottonwood 17, easement violation, discussions with an attorney to discuss easement and release of easement for development around Bitter Creek 2, review response to request to pray over dams, review Caston Mountain 2 plaque language, review two different letters drafted to landowner for violation of easement, work on easement language and access right-of-way, evaluated sales tax resolution and supplied fiscal guidance to the district, conflicts with staff attending a second job during regular business hours, assist in a draft letter regarding executive sessions and new business, all with the Realtor and possible homeowner regarding the sale of the house that is below the auxiliary spillway flow at Timber Creek Site 7, assist with county taxes on district property, question on executive session process.

## **Rehabilitation and Repair Projects:**

- ❁ **Sallisaw Creek Site 33** – Still trying to move forward with the terms of the Settlement Agreement, The Landowner now wants the access road moved further south, and to save trees near the highway. An internal meeting is set to discuss the issues in February.
- ❁ **Lower Bayou Site 12** – Working on the permanent ingress/egress road which will need to be obtained from the landowner and the gas company with a lease road right-of-way. The district is working to acquire the required easements.
- ❁ **Boiling Springs Site 1** – Received the Real Property Work Map from NRCS and working to get the easements detailed out to see what if any property will need to be acquired.

## **Other Flood Control Issues:**

- ❁ **Bitter Creek 2** – Drafting a Release of Easement as well as an easement. The Release would release property that will never be needed for the structure and get an easement for a portion of the structure that is not under easement but needs to be.
- ❁ **Cottonwood Creek 17** – Prepared an Assumption of the Risk and Release of Liability Agreement by and between the district and landowner to build a home in an area that will not impact the dam but could be impacted by the flowing water from the auxiliary spillways in the future.
- ❁ **Scraper Hollow 2** – Prepared a letter to the district regarding their authority under the easement to rehabilitate and access property to the dam. This information needs to be shared with the landowners around the dam.

## General Commission Issues:

- ✿ Worked with the Attorney General's Office regarding the Tar Creek Resolution and attorney letter regarding the request for funds, as well as working on the draft Agreement for this project
- ✿ Researched and prepared an email for staff on giving and receiving gifts

*\*This report contains updates for December 2023 and January 2024.*

**Illinois River Riparian Easement Report**

Water Quality Division, Oklahoma Conservation Commission  
*Report for Brooks Trammell*

***Purpose and Scope of Program***

- Long-term lease agreements restrict the use of riparian corridors along streams in the Illinois River Watershed. This program was intended to supplement the Conservation Reserve Enhancement Program (CREP) by covering gaps in riparian areas not covered by the rigid qualifications in CREP and therefore allowing landowners the opportunity to enroll contiguous reaches to effectively manage property by whole corridor riparian exclusion.

***Routine Programmatic Responsibilities***

- Programmatic administration and tracking: Enrolled contracts and properties are reviewed, and participants paid annually if meeting contract requirements. District and NRCS staff in the Adair, Cherokee, and Delaware County Conservation Districts are integral to this program and help complete most activities.

***Annual Status:***

- Currently, twenty-one (20) contracts/properties have been reviewed and payment made or are in process for annual payments, totaling 1,093 acres of exclusion, with an expected payout of \$66,601.50.
- Adair County accounts for most of the contracts, with seventeen (17) participants, covering 801.5 acres, with an expected payout of \$48,090. All reviews are complete, with 10 participants paid totaling 536 acres and \$32,196 while payment for 7 participants totaling 264.9 acres and \$15,894 are in process.
- Cherokee County has two (2) current contracts, covering 242.5 acres, both of which have been reviewed and payments made totaling \$15,277.50.
- Delaware County has one (1) remaining contract of 49 acres, which has been reviewed with a payment made of \$3,234.00.

## Soil Health Education Program

Greg Kloxin, Program Director

Meg Greski, Program Coordinator

Team members: Greg Scott, Blane Stacy, Marcus Long, Josh Anderson, James Blom, Jack Titchener

People we interacted with this month: 450, plus radio interview and 2 farm shows with reach in the thousands.

Farm and ranch producer consults/soil testing:

- Eric Benson, Cleo Springs
- Justin Silvers, Fairmont
- Eric Quisenberry, Laverne
- Jeff Dill, Hollis
- M. Siegenthaler, Morris
- Clint Dawson, Alluwe
- Snedden Ranch, NE OK
- John Burgett, Enid
- Mike Vandivier, southern OK
- 10 producers for General Mills project (Garfield/Kingfisher/Grant counties)

Urban site visits and Yard by Yard certifications

- Center of Family Love (vegetable production at a home for the disabled), Okarche
- Phocas Farms, Edmond
- Lake McMurtry/Food Bank of Stillwater project site visit with Dr. Stoodley at OSU, Stillwater
- Whitmore Farm, Coyle
- OKC Beautiful site visit, OKC
- Lauren Kennedy (Yard by Yard), OKC
- Tessa Linvill, OKC
- Natalya King, Spencer
- Dustin Shelbourn, Chouteau
- City of Glenpool (Tulsa area)

Meetings/calls attended:

- Jack attended an NRCS urban ag policy development virtual meeting.
- Marcus attended a meeting with the OK Dept of Health about food-as-medicine programs
- Marcus attended an OK Native Plant Network meeting
- Josh attended a Farm Bureau meeting
- Marcus met with the OKC Code Office about Yard by Yard project compliance with city code.
- Greg K met with OACD and the Chickasaw Nation about projects funded by their new Climate-Smart Commodities Grants, which the Soil Health Team will be doing tech assistance/conservation planning for.
- Meg attended a virtual board meeting for the Oklahoma Grazing Lands Coalition, and an in-person meeting with board members and Noble Research Institute in Ardmore to discuss future joint educational efforts.
- Jack attended a quarterly update call for the Time to Restore project (pollinator habitat development).
- Marcus met with Martin Park management to discuss future educational programming for OKC.
- James updated General Mills representatives on the GM Regenerative Ag Project (6 counties in NW OK) during a monthly check-in call.
- Greg K, Meg, and other OCC representatives joined a meeting with ODAFF and McElyea & Owens Funeral Group, in which the funeral group educated agency personnel about the use of aquamation

technology to turn animal mortalities into soil amendments. They are seeking permitting from ODAFF to sell the product. Greg K toured the facility at McElyea & Owens in Shawnee.

- Meg, Jack and Greg K attended a call with former Soil Health Team member Josh Kouri and his colleagues in California, to discuss timely and efficient delivery of urban conservation programs.
- GK met virtually with the organizer of the OK Compost Conference to discuss use of compost and related products in conservation programs.
- Marcus attended an advisory board meeting for the OK Local Ag Collaborative, and 2 Young Naturalist meetings.
- Jack and Marcus attended 2 meetings for Yard by Yard program planning with OCC program leadership.
- Marcus met with OK Local Ag Collaborative to plan their Innovative Farm Tour for February.
- Marcus attended a meeting of the OKC Human Rights Commission.

#### Presentations given:

- Meg did an interview on KECO radio (out of Elk City) about SHIP and regenerative ag in western OK.
- James and Marcus presented about SHIP and urban ag at Kay CCD's workshop in Ponca City.
- Marcus presented about urban conservation and Yard by Yard in Weatherford at the Timothy Day Business Enterprise Center.
- Jack presented to the Tulsa Urban Ag Coalition and Fresh Rx leadership about SHIP and Web Soil Survey.

#### District events attended:

- Deer Creek CD board meeting (Meg)
- Ellis CCD board meeting (Meg)
- Jefferson CCD board meeting (Josh)
- Upper Washita CD board meeting (Meg)
- Beaver CCD board meeting (Meg)
- Delaware CCD board meeting (Blane)
- Kay CCD board meeting (James)
- Kingfisher CCD board meeting (James)
- Muskogee-Creek Nation CD annual meeting (Jack)
- Noble CCD board meeting (James)
- Murray CCD board meeting (Josh)
- Bryan CCD board meeting (Josh)
- E Canadian CD board meeting (Marcus)
- Cleveland CCD board meeting (Marcus)
- Oklahoma CCD board meeting (Marcus)
- Logan CCD board meeting (Marcus)
- Garfield CCD board meeting (James and Greg K), Crossroads Conference 2024 planning
- Greg K presented a SHIP training during 2 virtual training sessions for district personnel.
- Meg visited Woodward CCD's district office to discuss SHIP.

#### Other education & outreach activities:

- James, Meg and Garfield CCD staffed a booth at the KNID Agrifest farm show in Enid.
- Blane, Jack, Marcus and James staffed a booth at the Tulsa Farm Show.
- Greg K, Josh, Marcus and James went to Soil Health U in Salina, KS for networking and continuing education. Jack attended No Till on the Plains in Wichita.
- James and Blane attended OSU's Winter Crop School.
- Greg K attended the Governor's Water Conference in Norman.
- Meg attended OSU's Panhandle Cow-Calf Meetings in Boise City, Goodwell and Beaver to share SHIP with producers.

- Greg K attended OACD's holiday luncheon at the ODAFF building
- Blane is running (unopposed) for a seat on the board of the OK Invasive Plant Council
- Marcus and Blane went to the OK Invasive Species Conference.

## **Monitoring**

- Continued routine water quality monitoring for the Rotating Basin Project 2.5 (RBP 2.5) (Upper North Canadian, Upper Arkansas and Cimarron River Basins) cycle

December 18-20 Staff sampled 26 sites in RB 2.5 Basins

- Continued routine water quality monitoring for the Rotating Basin Project 3.5 (RBP 3.5) (Lower Arkansas, Lower North Canadian and Lower South Canadian Basins) cycle

December 4-6 Staff sampled 22 sites in the RB 3.5 Basins

December 11-13 Staff sampled 30 sites in the RB 3.5 Basins

- Staff compiled landowner permission and educational packets for sites for the Rotating Basin Project 4.5 (RBP 4.5) (Upper Red and Washita River Basins) cycle

- Continued routine water quality monitoring for the Rotating Basin Project 2.5 (RBP 2.5) (Upper North Canadian, Upper Arkansas and Cimarron River Basins) cycle

January 2-4 Staff sampled 31 sites in RB 2.5 Basins

January 29-31 Staff sampled 26 sites in RB 2.5 Basins

- Continued routine water quality monitoring for the Rotating Basin Project 3.5 (RBP 3.5) (Lower Arkansas, Lower North Canadian and Lower South Canadian Basins) cycle

January 8-10 Staff sampled 22 sites in the RB 3.5 Basins

January 22-4 Staff sampled 30 sites in the RB 3.5 Basins

- Staff initiated winter 2024 macroinvertebrate collections for the Rotating Basin Project 2.5 (RBP 2.5) (Upper North Canadian, Upper Arkansas and Cimarron River Basins) cycle
- Staff initiated winter 2024 macroinvertebrate collections for the Rotating Basin Project 3.5 (RBP 3.5) (Lower Arkansas, Lower North Canadian and Lower South Canadian Basins) cycle
- Staff sent out landowner permission and educational packets for sites for the Rotating Basin Project 4.5 (RBP 4.5) (Upper Red and Washita River Basins) cycle

## **Wetlands Report**

Wetlands Program

Water Quality Division, Oklahoma Conservation Commission

*Report for Brooks Tramell, Sarah Gilmer, Jeff Tibbits and Dan Dvoretz*

### ***Routine Programmatic Responsibilities***

- Wetland Determinations: Review potential impacts to wetlands and aquatic resources from publicly funded project
- Mitigation Plan Review: Review documents for *In-Lieu-Fee* and Mitigation Banks as a member of the Oklahoma Interagency Review Team (IRT)
- Respond to Citizen Requests: Deliver wetland information to the public, primarily in response to requests through the Wetland Registry hosted on the Wetlands Program Website
- Wetland Conservation: Beginning November 2023, OCC launched a new effort to deliver wetland conservation practices. This effort is a collaboration with the Nature Conservancy (TNC), International Crane Foundation (ICF) and the Playa Lakes Joint Venture (PLJV). The collaborative workgroup is called the Partnership for Oklahoma Wetland Restoration (POWER). Conservation practices will depend on availability of funding from active grants.

### ***Active Grant Projects:***

- Floodplain Mapping Project: This project is funded by a US Environmental Protection Agency (USEPA) 104(b)(3) Wetland Program Development Grant (WPDG) to update National Wetlands Inventory (NWI) maps along the Arkansas River between Keystone and the Salt Plains, as well as the Canadian River between Eufaula and Canton.
- Oklahoma Rapid Assessment Method (OKRAM) Integration: This project is funded by a WPDG to refine development of OKRAM, a condition based assessment tool for wetlands. Project highlights include (1) collection of an additional 30 OKRAM assessments at wetland types under-represented in our dataset, (2) compilation of 300+ OKRAM assessments into a database and publicly available web application, and (3) analysis of dataset to refine method.
- Restorable Wetlands Identification Protocol (RWIP): This project is funded by a WPDG to continue to develop and refine a desktop screening tool that can be used to identify wetland restoration opportunities. Project highlights include (1) remapping of restorable polygons using higher resolution datasets in 30 watersheds, (2) attributing restorable polygons with restoration feasibility resulting from hydrologic modification in 30 watersheds, and (3) data sharing through a web application.
- OKRAM Guidebook: This project is funded by a WPDG to develop guidance materials for OKRAM, to help promote usage of the method. Project highlights include (1) a detailed OKRAM guidebook, (2) digital training materials and an in-person training delivered in 2024, and (3) coordination with the United States Army Corps of Engineers (USACE) to help promote usage of OKRAM in CWA programs.
- National Wetlands Condition Assessment (NWCA) Intensification: NWCA is a component of the National Aquatic Resource Survey (NARS) conducted every 5 years. OCC is the lead contractor for data collection in Oklahoma. NWCA is funded by Clean Water Act 106 money. The most recent NWCA was completed in 2021, with a state intensification to enhance sample size to 50 wetlands in 2022. OCC will analyze data and summarize findings on the condition of Oklahoma wetlands in a report in 2023.

### ***Meetings and Calls Attended by Staff***

- 12/06 NAWCA coordination meeting with FarWide
- 12/11 Coordination Meeting with PLJV
- 12/14: Wetlands Program Staff Meeting
- 12/19: Coordination Meeting with ICF

### ***Presentations Given by Staff***

- None given in December

### ***Trainings and Conferences Attended by Staff***

- 12/08 Lake Frances Wetlands Opportunities Workshop

## **Accomplishments by Project**

### Wetland Determinations:

- None completed in December

### Mitigation Plan Review

- None completed in December

### Citizen Requests for Wetland Information

- Responded to 2 requests for information about wetlands and streams submitted through the Wetlands Program Website, e-mail and phone.

### Wetland Conservation

- Continued drafting a large North American Wetlands Conservation Act (NAWCA) grant due in February
- Continued assembling a wetland restoration strategy document to help prioritize conservation efforts in Oklahoma and identify funding sources

### Floodplain Mapping

- No work was done on this project in December

### OKRAM Integration

- No work was done on this project in December

### RWIP Refinement

- No work was done on this project in December

### OKRAM Guidebook

- No work was done on this project in December

### National Wetlands Condition Assessment

- Began compiling data from the 2021 NWCA and 2022 intensification for analysis.

### New Grant Applications

- None submitted in December

- 1/3: Attended Oklahoma County Conservation District Board Meeting
- 1/9: Planning meeting for OKRAM training with OSU and SWCA Environmental Consultants
- 1/10: Planning meeting with OSU on OKRAM database development
- 1/17: Meeting with USEPA to update NWCA site weights for Oklahoma
- 1/18: Coordination Meeting with Ducks Unlimited
- 1/24-1/25: Attended PLJV annual board meeting in Woodward
- 1/30: Meeting with USEPA to update NWCA site weights for Oklahoma

### ***Presentations Given by Staff***

- 1/24: Presentation on OCC wetland programs at PLJV board meeting

### ***Trainings and Conferences Attended by Staff***

- No trainings or conferences attended in January

### ***Accomplishments by Project***

#### Wetland Determinations:

- Completed 1 wetland determination

#### Mitigation Plan Review

- Began review of the Canadian B Site 1: Beaver Creek draft mitigation plan

#### Citizen Requests for Wetland Information

- Responded to 3 requests for information about wetlands and streams submitted through the Wetlands Program Website, e-mail and phone

#### Wetland Conservation

- Continued assembling a wetland restoration strategy document to help prioritize conservation efforts in Oklahoma and identify funding sources
- Met with program partners to facilitate development of a large NAWCA grant

#### Floodplain Mapping

- Completed a draft NWI update to the Canadian River study area

#### OKRAM Integration

- Designed a database schema for housing OKRAM and associated data
- Began reviewing all OKRAM data to update old assessments to the most recent version of OKRAM.

#### RWIP Refinement

- Completed RWIP application in the Lower Neosho Watershed
- Submitted a no-cost time extension to USEPA

#### OKRAM Guidebook

- Coordinated with OSU and SWCA environmental consultants to begin development of an OKRAM training course.

#### National Wetlands Condition Assessment

- Finished compiling all data necessary to complete the NWCA intensification analysis
- Coordinated with USEPA to create updated site weights for all assessed wetlands, a necessary step for data analysis.

#### New Grant Applications

- Continued drafting a large North American Wetlands Conservation Act (NAWCA) grant due in February

#### **Other Accomplishments**

- Begin assembling a SharePoint for tracking internal cost-share match for OCC grants

#### **Technical Program Report**

##### Technical Program

Water Quality Division, Oklahoma Conservation Commission

*Dvoretz*

#### ***December 2023 Meetings and Calls Attended by Staff***

- 12/6: Technical Programs Staff Meeting
- 12/7: Hosted meeting for division on Integrated Reporting assessments
- 12/12: Attended Communication Committee meeting
- 12/13 Full Staff meeting

#### ***Presentations Given by Staff***

- No Presentations given in December

#### **Trainings and Conferences Attended by Staff**

- No trainings attended in December

## **Quality Assurance Accomplishments**

### Data Requests:

- Responded to 1 request for water quality data

### Data Quality Assurance/Quality Control (QA/QC)

- Completed Quality Control (QC) checks on approximately 10 data collections
- Entered approximately 17 data collections into the water quality database

### Other QA/QC duties

- Continued water quality field audits for monitoring staff (1 completed)
- Completed quarterly meter calibration
- Conducted macroinvertebrate picker QA for all staff engaged in picking bug samples.

## **Data Dashboard Usage**

- The stream data web application logged approximately 50 hours of active use in December.

## **Analytical and Reporting Accomplishments**

- Completed assessments for the 2024 Integrated Report assessments
- Entered integrated reporting data into ATTAINS spreadsheets and submitted to ODEQ
- Updated WQX with water quality data
- Began drafting an internal protocol document to provide guidance on data processing, storage and analysis.
- Continued analyses to improve biological assessment models for wadeable streams in Oklahoma.
- Created a draft R-shiny data dashboard to support the Rotating Basin Report with interactive data analysis and visualization.
- Completed landowner outreach packets for all streams to be monitored in Basin 4 starting in the spring.
- Began drafting the Water Quality Division Annual Report.

## ***January 2024 Meetings and Calls Attended by Staff***

- 1/3: Technical Programs Staff Meeting

## ***Presentations Given by Staff***

- No Presentations given in January

## **Trainings and Conferences Attended by Staff**

- 1/31: Attended mandatory workplace training

## **Quality Assurance Accomplishments**

### Data Requests:

- Responded to 1 request for water quality data

### Data Quality Assurance/Quality Control (QA/QC)

- Completed Quality Control (QC) checks on approximately 15 data collections
- Entered approximately 31 data collections into the water quality database

### Other QA/QC duties

- Continued water quality field audits for monitoring staff (1 completed)

#### **Data Dashboard Usage**

- The stream data web application logged approximately 50 hours of active use in January.

#### **Analytical and Reporting Accomplishments**

- Mailed first round of landowner packets for Basin 4 streams that will be monitored starting in the spring
- Continued compiling partner contributions for the Water Quality Division Annual Report
- Coordinated with ODEQ on Integrated reporting Assessments for OCC streams
- Continued drafting an internal protocol document to provide guidance on data processing, storage and analysis.
- Continued analyses to improve biological assessment models for wadeable streams in Oklahoma.
- Continued analysis to develop an update to the Unified Watershed Assessment

**OKLAHOMA CONSERVATION COMMISSION  
OFFICE OF GEOGRAPHIC INFORMATION & TECHNICAL SERVICES DIVISION  
MONTHLY SUMMARY**

**Mike Sharp, State Geographic Information Coordinator & Director  
December/January 2024**

**OGI & TS Activity**

- Worked on various hardware and software support issues for OCC non-OMES computer systems.
- Followed up on and provided assistance regarding OMES helpdesk tickets submitted by OCC and District staff.
- Routine server, software and anti-virus and anti-spam maintenance on OGI computer systems.
- Provided support on various office IT issues.
- Provided support on various conservation district IT issues.

# Coal County Conservation District

## Annual Report

### July 1, 2022 – June 30, 2023

*Coal County Conservation District # 19*  
*106 E. Post Ave*  
*Coalgate, OK 74538-3004*  
*(580) 927-2182*

The Coal County Conservation District is a local subdivision of state government. The district was formed in 1938 to ensure local people are involved in conservation activities.

The main goal of the district is to provide services to land users in protecting and conserving natural resources and to provide a link to state and federal conservation agencies and programs.

A board of five conservation district directors (three elected and two appointed) governs the conservation district.

The district has cooperator agreements with 708 land users in the county.

The board of directors submits this annual report to inform the public of this past year's conservation accomplishments.

We invite all citizens to become familiar with the activities of the Coal County Conservation District and to visit our office and get acquainted with our staff.

We also invite people to attend our monthly board meeting held on the second Tuesday of each month at 12:00 PM.

**Our Vision:** Better living conditions for citizens of Coal County due to responsible care of our natural resources.

**Mission Statement:** To conserve, protect and restore Coal County's natural resources, working with land users in a partnership effort with the Natural Resources Conservation Service.

#### **Board of Directors:**

Larry Cometti, Chair  
Johnnie Bellettini, Vice-Chair  
Ewing Downen, Treasurer  
Cody Newberry, Member  
Korbin Mehaffey, Member

#### **District Employees:**

Melissa Williams, District Secretary II

#### **Natural Resources Conservation**

##### **Service Employees:**

Russ Wright, Resource Conservationist  
Crystal Anderson, Soil Conservationist

The Conservation District shares office space with the Natural Resources Conservation Service, a federal agency in the U. S. Department of Agriculture. The NRCS provides technical assistance to the conservation district and district cooperators, and administers several USDA technical and cost-share programs.

Our office is open Monday-Friday from 8:00 a.m. to 4:30 p.m.

## **Providing Equipment and Services to Producers in the District**

The Coal County Conservation District rents conservation equipment such as no-till drills, a two row Bermuda grass sprigger, a gopher machine and a tractor to area land users. During the last drilling season 1273 acres were planted to wheat or rye for supplemental pasture. The lime spreader was used several times. The sprigger was used to plant Bermuda grass. During the last year the Hay trailers were rented out several days. Our locally earned income from the drills, lime spreader, Hay trailers, tractor rental, and sprigger, office and land lease was about \$58,128.65.

## **Oklahoma Conservation Cost Share Program**

The conservation district administers the Oklahoma Conservation Cost Share Program for Coal County. We were allocated \$30,300.00 for program year 24 with 11 applicants applying. \$26,199.88 was paid out to landowners for PY 24. We were allocated \$253,779.00 for Emergency Drought 2 CS. We had 37 applicants applying with 4 cancelations and 33 completed.

\$215,820.88 was paid out to landowners for ED2 CS. We have been allocated \$38,000.00 for program year 25 with 19 applicants applying.

The Oklahoma Legislature established the program in 1998. It is an annual program requiring funding from the legislature. Since the beginning of the program 130 contracts have been completed in the county providing \$220,090.56 in cost share funds for construction of new ponds, cross fencing, and brush management. Landowners provided \$239,727.29 for their share of the cost of the ponds for a grand total of \$459,817.85.

The conservation district board obtains input from citizens to determine which conservation practices will be included in the program each year.

## Watershed Program

### Upper Clear Boggy Site 8

There are six watershed projects in Coal County Conservation District: Upper Clear Boggy Creek Watershed; Leader-Middle Clear Boggy Creek Watershed; Lower Clear Boggy Creek Watershed; Delaware Creek Watershed; Caney-Coon Creek Watershed; and Upper Muddy Boggy Creek Watershed.

The district, as one of the sponsors, is responsible for obtaining easements and rights-of-way for construction of the structures. USDA-Natural Resources Conservation Service provides technical assistance and funds for construction of structures in Coal County and we are responsible for the operation and maintenance of those structures.

We make annual inspections of the flood control dams and provide maintenance work on the structures. \$3,519.94 was spent last year to watershed supplies needed for repairs of debris guards.

The primary goal of the district's watershed program is making sure the dams function as they were designed and remain safe.

### Leader Middle Clear Boggy Site 14

Diver funding approved was \$1,500 for Leader Middle Clear Boggy Site 14. Beavers had stopped up the tower and the water had risen 4-5 feet above the top of the tower.

### Leader Middle Clear Boggy Site 13

### Leader Middle Clear Boggy Site 13

### Dues/Information/Education

#### Outdoor Classroom

The Conservation District conducted their Annual Outdoor Classroom for 4<sup>th</sup> & 5<sup>th</sup> grade students in Coal County on September 28, 2022. There was around 200 students that attended.

We are working with the new Ag teachers in our Coal County Schools to try and put together Speech Contests, and Land Judging contest. The conservation district staff will be working with the County schools to put together a Spring educational field day.

#### UTV Training

The NRCS & Conservation District hosted a UTV Training for employees in Team 20 August 24, 2022.

## USDA – NRCS Conservation Programs

The conservation district works closely with the NRCS in carrying out conservation work in the county. The NRCS staff provides technical assistance to the conservation district and to county land users. The NRCS also administers several federal cost share programs.

Listed below are accomplishments through federal conservation programs in FY-2022:

- Five Environmental Quality Incentives Program (EQIP) contracts were developed for cost-share assistance.
- Two Conservation Stewardship Program (CSP) contracts were developed for a total of 1,943 acres.
- Conservation Plans were developed on 11,119 acres.
- Over 18 conservation practices were completed for the year.

Board members and staff held training sessions during several board meetings

The conservation district publishes newspaper articles in the local newspaper announcing programs of the district and Natural Resources Conservation Service. We furnish a trophy and provide add on money to each participant at the Coal County Jr. Livestock Show and contribute to the National Land, Pasture and Range Judging Contest.

*Services and programs provided by the conservation district and NRCS are offered on a nondiscriminatory basis without regard to race, color, national origin, religion, gender, marital status or physical disability.*
