To Whom It May Concern,

We the Payne County Conservation District Board want to express our support for Jake Linneman serving as a board member. Although Jake did not make 75% of the meeting in during his term he serves as a valuable member of our board. Jake works a full-time job with Indigo who works with farms in helping with regenerative ag and other conservation practices. He has worked with our District Manager Anita Kaufman to help build and maintain a Pollinator Plot and a experimental Cover Crop. Although Jake may not make every meeting, he goes out of his way to be involved beyond meetings. We are submitting this with our recommendation of reappointment and look forward to Jake serving on the board for many years to come.

We appreciate your assistance in this matter.

If you have any questions, please reach out to Chairman Robert Priess.

The support of partner organizations and local businesses like you is integral to the success of the Crossroads Conference. We ask that you please review the sponsorship packages below and help us we endeavor to build one of the state's premier regenerative agriculture events.

Adair CCD, Comanche CCD, Creek CCD, East Canadian CD, Garvin CCD, Grady CCD, Kingfisher, Latimer CCD, Little River CD, Love CCD, McClain CCD, Noble County CD, Sequoyah CCD, and Wagoner County CD

Responded to questions or issues by conservation districts regarding the following topics:

Responded to: a question regarding: FMLA, employee's ability to run for public office, boring requirements under Numu Creek channel easement and improvements, finalized draft Bloodborne Pathogens Exposure Control Plan, Hazard Communication Plan, & Chemical Inventory List in response to OK Dept. Labor inspection violation report, finalized an Assumption of the Risks and Released of Liability Agreement for the Board, followed up on NextEra project near dams, drafted an easement, work on responding to questions regarding mitigation agreement for landowner and district, responded to a question on a wind energy project, assisted on 2 call Okie tickets with district, advanced issue on Sallisaw Site 33, and assisted with inspection by state PEOSH compliance officer, looked at executive session for EQIP contracts, directors seeking elected office, directors ability to receive per diem, confidentiality regarding resumes of students for scholarships

Rehabilitation and Repair Projects:

- Sallisaw Creek Site 33 OWRB has filed the State's Report on Settlement and requested the appeal case continue. Since that time Taylor's wanted to make a counter proposal but we have not received anything in writing. Taylor's Response brief is due to the appeals court in mid-May.
- Lower Bayou Site 12 We are currently engaged in the development of the permanent ingress/egress road, a critical component that necessitates collaboration with both the landowner and the gas company for the acquisition of a lease road right-of-way. The district is actively pursuing the necessary easements to facilitate this process. One landowner is refusing to grant an easement. The main landowner had several questions that have been addressed in writing. The temporary ingress/egress road may need to be amended due to the landowner's passing and the estate is in probate.
- Boiling Springs Site 1 The District has all the easements needed for the rehabilitation. Looking for other land rights issues that will need to be addressed: trailer in the staging area, utility lines, etc.
- Scraper Hollow Site 2 Call with landowner with the barn to discuss the easement and the rehabilitation project. NRCS needs to schedule and finish the field studies to complete planning.
- Caston Mountain Sites 1 & 2 Real Property Work Maps are being shared to review land rights issues.
- Upper Black Bear Site 62 The 404 Permit comment period started and questions have been coming in from a variety of landowners regarding the design. The next step should be the receipt of all public comments from the Army Corp. of Engineers for responses.

Other Flood Control Issues:

- Cottonwood Creek Site 33 Prepared an Assumption of the Risk and Release of Liability Agreement by and between the district and possible new landowner to build a home in a portion of the flood pool area. The house will have to be built above the current top of dam elevation by about 1.5 feet. The Agreement was approved in the District's April Board meeting.
- Fourche Maline Creek Site 1 We've engaged in discussions with the District concerning the landowner's lack of response to the letter sent from the District.

Furthermore, the landowner has proceeded to put the property up for sale, prompting our proactive response. We've initiated communication with the Assistant District Attorney to address several key aspects: Firstly, to pursue follow-up actions regarding the damage caused by the landowner, and secondly, to deliberate on the implications of the property sale and if a lien should be placed on the property. In addition, we're actively seeking clear guidance on the necessary steps to rectify the damage incurred and obtaining an estimate of the potential costs associated with the needed repairs.

Criner Creek Sites 2 & 5 – We are in the process of following up with the District to ascertain their preferred course of action regarding the violation of its easement. Once the District confirms its intended actions for the property, we will proceed to determine the subsequent steps. Additionally, it's worth noting that the Oklahoma Water Resources Board (OWRB) is also taking measures in response to the new dam constructed by the landowner within the flood pool of Criner Site 5.

Rush Creek Site 31 – A developer is currently expressing interest in purchasing the land surrounding the site. Initial discussions have commenced regarding potential restrictions on specific proposed lots around the site. These discussions are essential for ensuring that any development plans align with the site's requirements and considerations, promoting responsible land use, and minimizing potential impacts on the area.

Washington Creek Site 2 – Determined that the district failed to retain an easement on property they owned and sold around this site. I shared this information with the district and prepared an easement for the property. The District is working to acquire the required easements.

OKLAHOMA CONSERVATION COMMISSION WATER QUALITY DIVISION APR MONTHLY SUMMARY

Shanon Phillips, Director April 24, 2024

Illinois River Riparian Easement Report

Water Quality Division, Oklahoma Conservation Commission

Report for Brooks Tramell

Purpose and Scope of Program

 Long-term lease agreements restrict the use of riparian corridors along streams in the Illinois River Watershed. This program was intended to supplement the Conservation Reserve Enhancement Program (CREP) by covering gaps in riparian areas not covered by the rigid qualifications in CREP and therefore allowing landowners the opportunity to enroll contiguous reaches to effectively manage property by whole corridor riparian exclusion.

Routine Programmatic Responsibilities

• <u>Programmatic administration and tracking:</u> Enrolled contracts and properties are reviewed, and participants paid annually if meeting contract requirements. District and NRCS staff in the Adair, Cherokee, and Delaware County Conservation Districts are integral to this program and help complete most activities.

Annual Status:

- Currently, twenty-one (20) contracts/properties have been reviewed and annual payments made, totaling 1,093 acres of exclusion, with a total payout of \$66,601.50.
- Adair County accounts for most of the contracts, with seventeen (17) participants, covering 801.5 acres, with a payout of \$48,090.
- Cherokee County has two (2) current contracts, covering 242.5 acres, both of which have been reviewed and payments made totaling \$15,277.50.
- Delaware County has one (1) remaining contract of 49 acres, which has been reviewed with a payment made of \$3,234.00.

Blue Thumb in Pictures APRIL 2024

Blue Thumb and Soil Health at work in Moore and Stillwater

Rebecca Bond, Briant Nguyen, and Cheryl Cheadle of Blue Thumb and Marcus Long of the Soil Health Team provided a three hour training for the City of Moore (March 13) on how municipalities can protect streams flowing through their communities. 1) Rebecca's presentation was a local look at Little River as it flows through Moore, and is also her and Briant's monitoring site. At one point there was a large hole carved in the eroding bank, just large enough for Rebecca. 2) Briant talked about pollutants and impervious surfaces with the EnviroScape; and 3) Marcus provided an up-close look at infiltration and runoff with the tabletop rainfall simulator. *Could such a training be useful in your community*?

Photographs 4 & 5 again show Briant and Marcus, this time at work with the City of Stillwater on April 9.

Oklahoma's Intertribal Environmental Council

(ITEC) invited Blue Thumb to Tahlequah to provide a day of introductory stream ecology information for tribal staff members around the state. The workshop was indoors and outdoors and included Blue Thumb staff and Rotating Basin water quality specialists. The day included presentations on nonpoint source pollution, healthy soil, fish and bug collection techniques, fish identification, and habitat assessment.

Oklahoma Clean Lakes and Watersheds

Every year Blue Thumb has an exhibit (and usually offers a presentation) at the famous Oklahoma Clean Lakes and Watersheds Association annual conference. This year Blue Thumb highlighted volunteer education efforts but also brought along the "healthy soil infiltration model" which was quite a hit. The model uses real pieces of the earth and allows visitors to experience how healthy soil pulls in precipitation which is a lesson not that often available to urbanites.

Blue Thumb's Rebecca Bond serves on the OCLWA board and was a session moderator. Both Shanon Phillips and Greg Kloxin provided presentations, as did Nathan Carter, a water quality specialist.

SpringFest at the Tulsa Garden Center

provided a great opportunity to encourage protecting Crow Creek. Blue Thumb staff, partners, and volunteers came together to engage with both children and adults at the fancy and fun spring garden market. Both photos directly above are from SpringFest, April 12 & 13.

Bug-picking and Quality Assurance Sessions

Pictured are volunteers from Oklahoma County performing the bug-picking for bug collections made on their streams this winter. The bug-picking sessions are held in conjunction with quality assurance checks—opportunities for volunteers to run chemical monitoring tests against a "known standard"."

Sister Initiative to Yard by Yard

The "Grounds by Grounds" aspect of the Yard by Yard Community Resiliency Project is available to businesses, churches, schools, and parks.

Signs appropriate for these specific properties and the checklists/guidance information are available. For more information go to:

OCC adds Project WILD to Workshop Curriculum

The Commission's Water Quality Division is home to Project WET (water education today) that is offered statewide through the Blue Thumb Project. Now Project WILD is a part of the educational offerings through Blue Thumb!

Stay tuned for more information about workshops that include certification in Project WILD. For more information contact Blue Thumb staff member Candice Miller, who serves as the state coordinator for both Project WET and Project WILD.

Blue Thumb Training for New Volunteers!

Tishomingo, June 1 & 2, 2024

Join the Blue Thumb crew for two days of learning about nonpoint source pollution, watersheds, stream ecology, and running the tests that are the foundation for the volunteer efforts on their streams.

Keeping track of all the events that take place

from mid-March through mid-May isn't easy, but the Blue Thumb staff and volunteers make a great effort! The photographs on this page represent some of the many places and different groups of people who we have worked with so far this spring. From earth day events to plant sales and to tree plantings and creek visits, spring is a great time to participate in outdoor learning.
