Illinois River Riparian Easement Report

Water Quality Division, Oklahoma Conservation Commission

Report for Brooks Tramell

Purpose and Scope of Program

- Long-term lease agreements restrict the use of riparian corridors along streams in the Illinois River Watershed. This program was intended to supplement the Conservation Reserve Enhancement Program (CREP) by covering gaps in riparian areas not covered by the rigid

qualifications in CREP and therefore allowing landowners the opportunity to enroll contiguous reaches to effectively manage property by whole corridor riparian exclusion.

Routine Programmatic Responsibilities

- Programmatic administration and tracking: Enrolled contracts and properties are reviewed, and participants paid annually if meeting contract requirements. District and NRCS staff in the Adair, Cherokee, and Delaware County Conservation Districts are integral to this program and help complete most activities.

Annual Status:

- Currently, there are eighteen (18) remaining active contracts/properties totaling 1,074.3 acres of exclusion, with a total expected payout of \$65,479.50. Seventeen (17) have been reviewed and annual payments made, totaling 1,025.3 acres and \$62,245.50.
- Adair County accounts for most of the contracts, with seventeen (15) participants, covering 782.8 acres, with a payout of \$46,968.00. All contracts have been reviewed and 2024 payments made to the participants.
- Cherokee County has two (2) current contracts, covering 242.5 acres, both of which have been verified and 2024 annual payments made totaling \$15,277.50.
- Delaware County has one (1) remaining contract of 49 acres, which is currently under review with an expected payment of \$3,234.00.

Nearly 150 people enjoyed the peace of the woods and numerous conservation education activities offered by the Oklahoma Department of Agriculture, Food, and Forestry.

Young people pictured participated in the Blue Thumb “Incredible Journey” activity that led both children and adults through the water cycle.

woodwardccd@conservation.ok.gov

The Woodward County Conservation District is a local subdivision of state government. The district was formed in July 1928 to ensure local people are involved in conservation activities. The main goal of the district is to provide services to land users in protecting and conserving natural resources and to provide a link to state and federal conservation agencies and programs. A board of five conservation district directors (three elected and two appointed) governs the conservation district.

The district has cooperator agreements with over 2,000 producers in the county. The board submits this annual report to inform the public of this past year's conservation accomplishments. We invite all citizens to become familiar with the activities of the Woodward County Conservation District and to visit our office and meet the staff.

Our office is located at 3300 Oklahoma Avenue in the north side of the Bank 7 building. We share office-space with Rural Development, Natural Resources Conservation Services, and Farm Services Agency. The NRCS office provides technical support to the Conservation District. Our shop is located at 3000 Lakeview Drive in Woodward.

We also invite the public to attend our monthly board meetings held on the second Tuesday of each month at 5:00 p.m.

WCCD Vision: That sustainable soil and water conservation practices are continually applied to and on Woodward County and through volunteer participation is the vision of Woodward County Conservation District. Conserving, protecting, and enhancing our natural resources for future generations.

Thank you Farm Credit and NW Shredders for providing pizza for the kids and thanks goes out again to Vice Chair Stinnett for providing pulled pork sandwiches to the presenters. We have an awesome board of directors that are willing to help anywhere, anytime and it's events like this where they shine! In program year 25 water conservation was top priority. We had 36 applications and was able to provide \$69,083.24 in cost share. Program year 26 is just getting underway with brush management as top concern. We had 27 applications and are expecting to provide at least \$47,000.00 in cost share. The district works closely with NRCS to carry out conservation work in the county. The NRCS staff provides technical assistance to the conservation district and county landowners.
