CONSERVATION PARTNERSHIP REPORTS

Oklahoma Department of Agriculture, Food, and Forestry (ODAFF): ODAFF were not in attendance at the meeting.

USDA-Natural Resources Conservation Service (NRCS): State Conservationist Jeanne Jasper provided updates on staffing changes, including the loss of 35 employees in probationary status and the offer of deferred resignation for retirees. As a result, most of the NRCS offices will not be fully staffed and will transition to a smaller administrative team next week to better cover the locations. Staff across the state will assist in covering areas as acting supervisors. A new district coordinator is expected to join Team 10 in Stillwater, OK. Roderick Dukes will be moving back to Okmulgee with Team 21 starting next week, and applications for that position are due by Friday, March 7, 2025. Ms. Jasper also discussed budget updates, noting limited spending and travel while still providing technical assistance and outreach events and continuing to work with producers. She mentioned that agreements and contracts are still under review, with some areas losing their

GSA leases, and it is expected that USDA will be next. They are awaiting further notice, which could impact field offices as well. She noted that federal employees received emails requesting they provide five bullet points summarizing their work accomplishments from the past week, applicable only to full-time federal employees. Ms. Jasper emphasized the need to keep moving forward with EQIP, CSP, and ACEP funds to ensure they are obligated. They are currently working on obligating the EQIP FY 25 funds, and they have been authorized to move forward with new contracts with Farm Bill funds, while IRA contacts are currently on pause. Lastly, they are looking forward to the Agency's 90th Birthday this year and working on putting a celebration for the end of April for the Soil Conservation and NRCS with all the work that was done in the past years.

Oklahoma Association of Conservation Districts (OACD): Executive Director Sarah Blaney expressed her gratitude to OCC for their attendance and support of the annual meeting. She reported that a total of 411 people registered for the event, with 44 elected officials attending the banquet. Blaney announced the election of Ed Casey from the Nowata County Conservation District as the new President, and Donnie Nero from the Okfuskee County Conservation District as the new Vice President. The Leopold Conservation Award was presented to Scotty Herriman. Ms. Blaney mentioned her attendance at the NACD meeting in Salt Lake City, Utah, where she was elected as the President of the Association of Conservation Executive Directors. She noted that the recent layoffs of federal employees across the nation have a significant impact on the organization. She also attended the National Healthy Soils Policy Network in Washington, D.C., which focuses on state-level statutes for healthy soils. Additionally, she highlighted the Yard-by-Yard Program, which currently has a wildlife habitat grant open for applications until March 31, 2025, with a total funding amount of \$40,000. Ms. Blaney invited the Commissioners to a private event with the Historical Society on April 14, 2025, marking the 90th Anniversary of Black Sunday. This event will include legislators, a leadership class, and meetings with CARE champions. The following day, April 15, 2025, will be Conservation Day at the Capitol. Regarding staffing updates at OACD, Ms. Blaney stated that they would be reaching out to districts due to federal freezes, and each employee would receive an advocacy packet. Currently, there are two employees on unpaid leave, and some are taking pay reductions. She expressed concern that within five months, OACD may not have any full-time staff remaining. The organization plans to proceed with the National Land & Range Judging Contest, although they are facing challenges due to denied travel requests from NRCS, which will impact the contest. On a positive note, General Mills has agreed to allocate funding to retain herself, Jean Lam, Taylor Marshall, and Amanda Fitzpatrick in their positions at OACD, allowing them to continue the CARE program with the same funding level. No grants have been officially canceled, and OACD will keep reporting its needs.

Subject: Reappointment for James Moore

To whom it may concern,

The Harmon Conservation District board of Directors met in a rescheduled regular board meeting on February 12, 2025, and reviewed the reappointment for James Moore whose term will be expiring in June 2025. Mr. Moore did not attend 75% of the regular scheduled board meetings due to an illness that took several months to get under control, and therefore unable to attend, however he has the situation under control and is now able to attend regularly scheduled meetings.

The board of directors feel that Mr. Moore is a wonderful asset to the board and conservation and has served Harmon County well. The board voted to approve the reappointment of James Moore, and we are enclosing his letter of recommendation for reappointment to the Harmon County Conservation District Board. We appreciate your consideration in his request for reappointment to the Harmon County Conservation District board.

Thank you,

Dear Mr. Lam,

Kyle Griffith, The Chairman of the Talihina Conservation District did not meet the requirement of attending 75% of meetings during the latest term of his service. Therefore, the Board of Directors is submitting this letter on his behalf, requesting approval for the recommendation of Mr. Griffith's reappointment to continue serving on our Board.

Mr. Griffith is the owner and operator of a business serving the Talihina community. Due to limited staffing at his company, he had to miss meetings to oversee its operations. Additionally, in the summer of 2023, Mr. Griffith had several absences to support a family member who required care due to medical reasons.

Mr. Griffith is an active member of our community. He serves with the Talihina Fire Department, assists with school events, and supports Veteran Organizations.

Mr. Griffith brings invaluable ranching expertise, business insight, and strong leadership to the Talihina Conservation District. We strongly believe it would be a disservice to our District to lose Mr. Griffith's contributions, and we respectfully request his reappointment to the Board.

Sincerely,

A handwritten signature in blue ink, appearing to read "Scott Medders", is written over a light blue horizontal line.

Wetlands Report

Wetlands Program

Water Quality Division, Oklahoma Conservation Commission

Report for Brooks Tramell, Sarah Gilmer, Jeff Tibbits and Dan Dvoretz

Routine Programmatic Responsibilities

- **Wetland Determinations:** Review potential impacts to wetlands and aquatic resources from publicly funded projects
- **Mitigation Plan Review:** Review documents for *In-Lieu-Fee* and Mitigation Banks as a member of the Oklahoma Interagency Review Team (IRT)
- **Respond to Citizen Requests:** Deliver wetland information to the public, primarily in response to requests through the Wetland Registry hosted on the Wetlands Program Website
- **Wetland Conservation:** Deliver wetland conservation. This effort is a collaboration with the Nature Conservancy (TNC), International Crane Foundation (ICF) and the Playa Lakes Joint Venture (PLJV). The collaborative workgroup is called the Partnership for Oklahoma Wetland Restoration (POWER). Conservation practices will depend on availability of funding from active grants. Current conservation grants include:
 - Salt Cedar removal: Weeden Foundation Grant
 - Grassland restoration following Eastern Red Cedar removal: 2023 National Fish and Wildlife Foundation Southern Great Plains Grassland Grant (NFWF SGPG)
 - Invasive woody species removal, prescribed fire, and wetland restoration: 2024 NFWF America the Beautiful Challenge Grant

Other Active Grant Projects:

- **Oklahoma Rapid Assessment Method (OKRAM) Integration:** This project is funded by a WPDG to refine development of OKRAM, a condition based assessment tool for wetlands. Project highlights include (1) collection of an additional 30 OKRAM assessments at wetland types under-represented in our dataset, (2) compilation of 300+ OKRAM assessments into a database and publicly available web application, and (3) analysis of dataset to refine method.
- **Restorable Wetlands Identification Protocol (RWIP):** This project is funded by a WPDG to continue to develop and refine a desktop screening tool that can be used to identify wetland restoration opportunities. Project highlights include (1) remapping of restorable polygons using higher resolution datasets in 30 watersheds, (2) attributing restorable polygons with restoration feasibility resulting from hydrologic modification in 30 watersheds, and (3) data sharing through a web application.
- **OKRAM Guidebook:** This project is funded by a WPDG to develop guidance materials for OKRAM, to help promote usage of the method. Project highlights include (1) a detailed OKRAM guidebook, (2)

digital training materials and an in-person training delivered in 2024, and (3) coordination with the United States Army Corps of Engineers (USACE) to help promote usage of OKRAM in CWA programs.

- Identification and Condition Assessment of South Central Plains Seep Wetlands and Wetland Program Plan Update: This project is funded by a WPDG to create an inventory of poorly understood slope wetlands in SE Oklahoma, and refine method applicability of OKRAM to slope wetlands. Additionally, this project will update Oklahoma's Wetland Program Plan through collaboration with the Oklahoma Wetland Technical Work Group
- Expansion of Potential Wetland Restoration Opportunities in Oklahoma through Landowner and Partner Outreach: This project is funded by a WPDG in collaboration with OSU to complete landowner surveys in order to better understand perceptions and attitudes towards wetland conservation programs. The goal is to use the knowledge gained towards more effective voluntary wetland conservation programs in Oklahoma.

Illinois River Riparian Easement Report

Water Quality Division, Oklahoma Conservation Commission

Report for Brooks Trammell

Purpose and Scope of Program

- Long-term lease agreements restrict the use of riparian corridors along streams in the Illinois River Watershed. This program was intended to supplement the Conservation Reserve Enhancement Program (CREP) by covering gaps in riparian areas not covered by the rigid qualifications in CREP and therefore allowing landowners the opportunity to enroll contiguous reaches to effectively manage property by whole corridor riparian exclusion.

Routine Programmatic Responsibilities

- Programmatic administration and tracking: Enrolled contracts and properties are reviewed, and participants paid annually if meeting contract requirements. District and NRCS staff in the Adair, Cherokee, and Delaware County Conservation Districts are integral to this program and help complete most activities.

Annual Status:

- Currently, there are eighteen (15) remaining active contracts/properties totaling 989 acres of exclusion, with a total expected payout of \$60,067.50. Annual contract review documents are currently under development and the review and certification will occur in May and June with payment expected after July 1, 2025.

- Adair County accounts for most of the contracts, with thirteen (13) participants, covering 746.5 acres, with an estimated payout of \$44,790.00.
- Cherokee County has two (2) current contracts, covering 242.5 acres, with an estimated payout of \$15,277.50.
- All Delaware County contracts have ended.

Project WILD Numbers Growing!

Recent Project WILD Workshops have been popular among Oklahoma educators. Top two photographs are from a WILD Workshop at Girl Scout Camp Trivera in Oklahoma County on March 1. Ninety-three attended.

These bottom photographs are from a Wild Workshop held at the Gathering Place in Tulsa on March 8. Fifteen came to early childhood in the morning and 18 attended the elementary session in the afternoon.

Central Oklahoma Stormwater Alliance held a mini-workshop for “outreach” in which Cheryl was involved.

Blue Thumb volunteers and staff plus some of the Soil Health team pitched in to fill shifts at the Tulsa County Conservation District’s exhibit at the **Greater Tulsa Home and Garden Show**.

Focus on Culture Park

Cheryl and Marcus assisted “Open Design Studio” with a conservation workshop to gain neighbor input for the best uses of little Culture Park just south of the Capitol. A federal grant might make park improvements possible.

Blue Thumb at OACD

Blue Thumb staff offered a small Project WILD Workshop at the 80th Annual Oklahoma Association of Conservation Districts state meeting late last month. Photo to left shows participants “migrating” and competing for limited resources.

Photo Left: Hunter and Candice staff an exhibit at OACD that shows off many of Blue Thumb’s education tools. Both conservation districts and Blue Thumb volunteers are encouraged to check out these tools for fun spring events.

Blue Thumb Presented information to the University of Central Oklahoma Science and Collection Methods Class on both March 11 and March 25. More photos will appear in the May pictorial report.

OCC Water Quality Annual Retreat

Most of the Water Quality staff got together for updates, planning, fun, and learning March 5 & 6 at Lake Murray State Park!

Butterflies, Birds, and Bees Oh MY!

March 19 the Blue Thumb Program put their efforts into a “Butterflies, Birds, and Bees Oh MY” workshop that went to libraries in both Jay and Grove. Activities promoted clean water and plantings for pollinators.

- 1) Cheryl with volunteers Valerie, Katherine, and Alex.
- 2) Alex demonstrates protecting streams and lakes with the EnviroScope.
- 3) Youngsters having a good time creating “fish prints.”

Blue Thumb Shows up for Glenpool Seed Swap

Blue Thumb volunteer Jeffrey Jenkins staffed a Blue Thumb exhibit at the Glenpool Public Library during their first ever Plant and Seed Swap on March 15. People from all over Tulsa County stopped in to take advantage of free seeds and plants, and to contribute their own seeds and plants to the mix.

Blue Thumb promoted Yard by Yard and also offered EnviroScope demonstrations about keeping water clean.

300 S. Broadway
Weatherford, OK 73096
(580) 772-7670

The **Deer Creek Conservation District** is a local subdivision of state government. The district was formed in 1945 to ensure local people are involved in conservation activities and provide a link with state and federal conservation agencies and programs.

The main goal of the district is to strengthen services to cooperators and the public through information and educational contacts, and keep legislators informed of current pressing problems and funding needs to sustain a strong natural resource base.

The district board consists of five district directors (three elected and two appointed) who govern the conservation district.

Board meetings are held the second Tuesday of each month at 8:00 a.m. at the local district office located at 300 South Broadway in Weatherford.

The district has cooperator agreements with 1,151 producers, covering 275,912 acres in Custer County and Washita County.

Mission Statement:

*The mission of the **Deer Creek Conservation District** is to preserve, conserve, and develop natural resources to meet the current and future needs of the local people.*

Workshops

Deer Creek Conservation District in the past year has hosted over a hand full of educational workshops. Everything from urban farming to raising chickens in the backyard.

Board member Wyatt Lohman did multiple chicken workshops and works with the City of Weatherford that got a chicken ordinance passed to allow city residents to have chickens in their backyard.

One of the DCCD chicken workshop students got their first legal certification through the city and now can legally have chickens in their backyard in city limits.

Watershed Program

There are three high hazard watershed projects in Deer Creek's District, Cobb Creek Site I, Cobb Creek Site II, and Cobb Creek Site III. The Deer Creek Conservation District is a sponsor for these projects and shares operation and maintenance responsibilities with three different cooperators; one being Southwestern Oklahoma State University. The conservation district works with NRCS and the in making annual inspections of these flood control dams and providing maintenance work on the dams including, clearing trees from the dam and earthen spillway, beaver control, repairing erosion problems, maintaining good stands of grass on the dams and earthen spillways, and keeping the inlet tower of the principal spillway cleared of debris. The primary goal of the district's watershed program is making sure the dams function as they were designed.

Providing Equipment and Services to Producers and Residents in the District

The **Deer Creek Conservation District** rents equipment including no-till drills, billion drills, super seeder planter, and a feral hog trap. The district also carries and sells a large variety grass seed, cover crop seed, native grass seed and seed for yards.

The district also provides a wide variety of bulk vegetable seeds. We offer numerous choices of vegetable seeds and also have seed potatoes, onion sets and plants, and asparagus in early spring, and can special order other plants for area gardeners.

Cost Share Program

The **Deer Creek Conservation District** administers the Oklahoma Conservation Cost Share Program. The district has administered in the past year multiple programs such as the Emergency Drought, PY25, and SHIP offered to our cooperators.

DCCD has approved contracts for cost share for conservation practices including brush management, cover crop, critical area planting, range planting, terraces, grassed waterway, forage and biomass planting, water well, watering facility, pumping plant, pipeline, and heavy use area protection.

The conservation district board obtains input from area farmers and ranchers to determine which conservation practices will be included in the program each year.

Conservation Programs

The **Deer Creek Conservation District** works closely with NRCS to carry out conservation work in the district. The NRCS staff provides technical assistance to the conservation district and to district land users.
