Register by 4/8/26

Free and open to the public

Join us for an informative session with Dr. Ravi Jadeja as he breaks down the latest updates to agricultural water requirements under the FSMA Produce Safety Rule. This presentation will help growers, educators, and agricultural professionals better understand how to assess water risks, implement practical safety measures, and stay compliant with evolving regulations. Learn how these changes impact on-farm practices and how to build a proactive, prevention-focused food safety system.

WORKSHOP TOPICS

-  What qualifies as agricultural water?
-  Key updates to pre-harvest water requirements.
-  Post-harvest water safety and sanitation practices.
-  Risk-based water system assessments.
-  Required inspections and corrective actions.
