SPADE

Strategic Plan Aligned District Endeavor

What does my district have to do?

Based on your district's current JPO, the Commission has selected a priority goal or objective and is offering funds to the district for implementation of this project.

- Receive notice of the goal/objective selected for funding; inform OCC if you will or will not be participating
- Implement the goal/objective; tracking expenses and progress
- Submit a project completion report, expense statement, and photos

- Receive notification from OCC on reimbursement amount
- Submit an OSF-3 form with backup documents
- Receive the funds!

What is SPADE?

SPADE is a program and funding opportunity intended to help districts realize value in their planning processes by assisting in developing and implementing a priority goal and objective in the current JPO.

Does my district have to participate?

No, **but** implementation of JPO objectives & priorities is considered during budgeting. You might as well pursue funds to implement the work.

What if my district doesn't like the selected goal/objective?

Contact the Commission; let's talk about it!
